Proposed Additions and Amendments to 5 California Code of Regulations Pertaining to English Learner and Bilingual Authorizations

Introduction

Governor Schwarzenegger signed Assembly Bill (AB) 1871 (Chap. 660, Stats. 2008) on September 20, 2008 and the provisions of the bill took effect on July 1, 2009. The proposed amendments to the 5 California Code of Regulations will implement the provisions of AB 1871 and update the language in the associated sections.

Background

AB 1871 has four primary provisions that affect the issuance of English learner and bilingual authorizations as follows:

- 1) Individuals will earn a 'bilingual authorization' as opposed to a 'Bilingual, Crosscultural, Language and Academic Development (BCLAD) Certificate'.
- 2) Individuals will have the option of earning a Crosscultural, Language and Academic Development (CLAD) Certificate or adding an English learner authorization to a prerequisite document.
- 3) Additional options will be available to earn a bilingual authorization, including the completion of a Commission-approved program as well as the option of combining coursework from approved programs with Commission-approved examinations.
- 4) Additional option to earn a CLAD Certificate or an English learner authorization by combining Commission-approved California Teacher of English Learner (CTEL) program coursework with Commission-approved CTEL examinations.

Pursuant to the provisions of AB 1059 (Chap. 711, Stats. 1999), all candidates admitted to a Commission-approved SB 2042 Multiple or Single Subject teacher preparation program earn a credential that authorizes instruction for English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE). In June 2006, an English learner authorization was embedded in the coursework for the Education Specialist Credential.

Individuals who held a prerequisite credential or permit without an English learner or bilingual authorization were issued a separate CLAD or BCLAD Certificate, as appropriate, upon completion of requirements. Since January 1, 2007, individuals prepared in another state are provided the option of having an English learner authorization added directly to their prerequisite credential.

Bilingual Authorization

Prior to the passage of AB 1871, the only method to earn a bilingual authorization after the initial issuance of the prerequisite credential was to pass Commission-approved bilingual examinations and apply for a BCLAD Certificate. Individuals will now earn a bilingual

authorization, rather than a separate BCLAD Certificate pursuant to the provisions of AB 1871. The bill also adds a program option to earn a bilingual authorization and the ability of approved programs to combine coursework and examinations for the issuance of a bilingual authorization. An assessment of language proficiency (listening, speaking, reading and writing in the target language) is now required in statute for all routes to earn a bilingual authorization and aligns with past and current practice through the bilingual program standards.

Based on the provisions in AB 1871, the bilingual authorization shall be added directly to an individual's valid prerequisite document(s) if all requirements have been met. The bilingual authorization may be added at the same time as the initial issuance of the prerequisite document or at a later time.

With the implementation of approved bilingual programs, it will now be possible to add a bilingual authorization to Multiple Subject, Single Subject and Education Specialist Short-Term Staff Permits (STSP) and Provisional Internship Permits (PIP) if requested by an employer and if the applicant meets the specified requirements.

English Learner Authorization

Commission staff is proposing that individuals be allowed the option of applying for a CLAD Certificate or adding an English learner authorization to an existing prerequisite document upon completion of specified requirements. AB 1871 also provides an additional option to earn a CLAD Certificate or English learner authorization. Previously, an applicant that only passed one or two of the three CTEL examinations was required to complete the full CTEL program to earn the CLAD Certificate. An approved CTEL program may now determine any course equivalency with those CTEL examinations that have been passed by the applicant toward the issuance of a CLAD Certificate or an English learner authorization.

Authorization Statements

The bilingual and English learner authorization statements also cover instruction authorized by other valid, non-emergency documents held, as specified in Education Code §§ 44253.3 and 44253.4. Therefore, if an individual holds more than one valid prerequisite document, only one of those documents should be selected for the added authorization. If an individual wants to add the authorization to more than one document, a separate application and fee will be required for each additional valid prerequisite document. The authorization may be added while the document is valid or at the time of renewal. Please note that it is unnecessary to file an additional application or pay an additional fee, as the authorization on one document already applies to all other valid prerequisites held by the teacher.

Proposed Amendments to Regulations

The following is a brief synopsis of the proposed amendments to the Title 5 regulations pertaining to bilingual and English learner authorizations:

§80015 – Amended to add the English learner authorization option, updated the examination information, added language pertaining to Commission-approved CTEL programs, included the bachelor's or higher degree option for satisfying the second language requirement, set a sunset date for issuance of a CLAD Certificate or English learner authorization with coursework

completed prior to January 31, 2008, updated the examination information, added instructions on how to convert a CLAD Certificate to an English learner authorization, and added the program and examination combination option.

§80015.1 – Amended ‘BCLAD Certificate’ to ‘bilingual authorization’, updated the examination information, added language pertaining to Commission-approved bilingual authorization programs, and added the program and examination combination option.

§80015.2 – Amended to add the English learner authorization option and amended ‘BCLAD Certificate’ to ‘bilingual authorization’, added visiting faculty and child development permits to the list of appropriate prerequisite documents, updated the authorization statements, and added language explaining that an English learner or bilingual authorization on one prerequisite authorizes related services on other valid prerequisites held by an individual.

§80015.3 – Updated the examination information by deleting specific information pertaining to the old examinations and adding the final administration dates, adding examinations currently approved by the Commission, and adding language explaining how CLAD/BCLAD examinations may be combined with CSET: LOTE examinations for the bilingual authorization.

§80015.4 – Amended to explain procedures for adding an English learner or bilingual authorization listed on one prerequisite document to other valid prerequisites held if the individual chooses to do so and that the authorization may be added to other prerequisites at any time while a document is valid or at the time of renewal.

§80021 – Amended to allow the bilingual authorization option and clarified the possible Short-Term Staff Permit authorizations.

§80021.1 – Amended to allow the bilingual authorization option and clarified the possible Provisional Internship Permit authorizations. Also amended the language referencing ‘CBEST’ to ‘basic skills requirement’ pursuant to the provisions of SB 1209 (Chap. 515, Stats. 2006).

§80024.7 – Amended the name of the emergency permit from ‘BCLAD’ to ‘Bilingual’, updated the examination information, deleted the professional development renewal option due to the repeal of the associated Title 5 section in 2004, and clarified the permit authorization.

§80024.8 – Added a reference to the English learner authorization, updated the examination information, deleted the professional development renewal option due to the repeal of the associated Title 5 section in 2004, and clarified the permit authorization.

The specific additions and amendments are outlined in detail in the side column next to the text of the proposed regulations beginning on page 4.

Next Steps

The proposed regulations will appear at a public hearing following the required 45-day response period.
