The preliminary credential will authorize the holder to provide autism instructional services to students within the specialty area(s) of their credential. The additional ASD authorization is for California-prepared special educators. The ASD authorization will appear as a separate authorization on the Education Specialist Teaching Credential document.
- 2 The Language and Academic Development Education Specialist Credential authorizes services for ages preschool to age 22 across disability areas **limited to** students identified with academic communication and language needs in the following areas: language development, school readiness and social skills, and literacy development addressing competencies across the curriculum in listening, speaking, reading, writing, and academic areas.
- 3 An individual must hold a valid prerequisite special education credential; the certificate and added authorization authorizes services for ages birth to pre-K only.
- 4 Individuals holding the Communication Handicapped employed under the following autism option prior to July 1, 2010 may continue to serve but no new individuals may be placed on the basis of this option after this date. Holder must have taught full-time for at least one year prior to September 1, 1991, in a special class in which the primary disability was other health impaired (autistic), and have received a favorable evaluation for that service from the employing school district. Acceptance of experience is a local employing agency decision.

The certificate of completion is issued by the college or university and must be kept on file at the employing agency. Acceptance of experience is a local employing agency decision.
