

FINGERPRINT CLEARANCE INFORMATION

Fingerprint clearance through the California Department of Justice (DOJ) and the Federal Bureau of Investigation (FBI) is required from every applicant for any credential, permit, or certificate, unless fingerprint clearance is already on file at the Commission because acceptable cards or LiveScan have been submitted to the Commission since September 21, 1951, the date the fingerprint requirement became effective. The fingerprint process is explained below.

California Residents: If this is your first application for a credential or Certificate of Clearance, you will need to submit verification that you have had your fingerprints taken electronically using the form titled "Request for LiveScan Service – Applicant Submission" ([form 41-LS](#)), available for download on the Commission’s website. Three copies of the form will be needed for the LiveScan operator. One copy must be attached to your application packet verifying completion of the fingerprint process and payment of fingerprint processing fees. Effective July 1, 2005, California residents no longer have the option of submitting fingerprint cards. A current listing of LiveScan sites offering electronic fingerprint services is available to the public on the California Attorney General’s website at www.ag.ca.gov

Out-of-State/Out-of-Country Residents: If this is your first application for a credential or Certificate of Clearance, you will need to submit verification that you have had your fingerprints taken either electronically via LiveScan (if available), or by submitting two fingerprint cards (FD-258) and processing fees. The California Department of Justice (DOJ) will only accept fingerprint cards from the Commission for teachers who reside outside of California provided the teacher’s home address is from another state or country. California Penal Code Section 11102.1 precludes the DOJ from accepting applicant fingerprints unless the impressions were rolled by a certified fingerprint roller, or by an individual who is specifically exempt from the certification requirement. Individuals residing outside of California and applying for employment or licensure in California who cannot be fingerprinted in California must have their fingerprints rolled at a law enforcement agency in their state or country of residence. If reprints are required, they must be taken by a different individual than the one who originally took the prints. Fingerprint cards cannot be folded or have anything stapled or glued to them. We cannot accept red and white or black and white fingerprint identification cards, photocopies of fingerprint cards, or fingerprints rolled in ink in any color other than black. Submission of incomplete or unacceptable fingerprint cards will result in a delay in processing your application for a credential, permit, or certificate.

If you submit fingerprint cards with your application packet, the fingerprint cards will be forwarded to the DOJ and FBI for processing before your application is evaluated for academic eligibility. Once your application is favorably evaluated, you will receive a letter verifying your academic eligibility. When we receive clearance from both DOJ and FBI, your document will be printed and mailed. Fingerprint card processing generally takes one month.

Fingerprint cards may be ordered through the Commission’s automated phone system at (888) 921-2682 or by e-mail at caworders@ctc.ca.gov.

On your fingerprint cards, please complete the areas that are marked with an “X” on the sample below. Incomplete fingerprint cards will be returned to the applicant causing a delay in the processing of the application and issuance of the credential.

1. Prints must be rolled from nail to nail and the ridges should be sharp and distinct.
2. Cards must carry the complete physical description of the applicant, including color of eyes and hair, height, weight, birthdate, and signature in ink. Abbreviations for hair and eye color may be used; please use BLK (black), BLND (blonde), BL (blue), BRN (brown), GRN (green), GRY (gray), and HZL (hazel). Since the cards cannot be properly indexed by the Department of Justice or the FBI without this information, incomplete cards will be returned to the applicant. It is also helpful that the applicant complete the box for the social security number. (See sample on page 1.)
3. If you are missing a digit or have a skin irritation or deformity of the hands and/or fingers which prevents the taking of clear fingerprints, submit a statement explaining the situation from the person taking the prints in the case of missing digits or a deformity) or from a doctor (in the case of a skin irritation). Attach the statement to your fingerprint cards at the time you submit them. You may be required to submit several fingerprint cards until the Department of Justice or FBI is able to piece together a classifiable set of prints.
