

## Assignment and Authorizations Webcast

The Commission has scheduled an Assignment and Authorizations Webcast on Monday, December 9, 2012. This webcast will include two separate sessions designed to share both foundational (AM session) and advanced (PM Session) information in relation to certificated staff assignments.

### **Morning Session (AM) – 9:00 am – 12:00 pm (Foundational Information)**

The morning session is designed to provide foundational information on certificated assignments designed for individuals with less than a year of experience in this area but also available for anyone that would like to review foundational terminology, credential structure, authorizations, and instructional settings as they relate to certificated staff assignments in California public schools.

### **Afternoon Session (PM) – 1:00 pm – 4:00 pm (Advanced Topics)**

The afternoon session is designed for an experienced credential analyst. This advanced session will go into greater depth on areas that generate the most questions such as special education assignments and monitoring; implementation of the Common Core State Standards (CCSS) particularly in math assignments; implementation of Next Generation Science Standards (NGSS); Career Technical Education, Linked Learning, STEM courses, and unique challenges in middle school assignments.

A list of host sites for this webcast is provided below for reference. As we have a limited number of connections available, we ask that you register with one of the local offices currently signed up as a host in your area to view the webcast. If your office would like to serve as a host site or individual desktop viewer then you may still register to be added by completing the registration survey at: [http://www.surveymonkey.com/s/Assignment\\_Webcast\\_2013](http://www.surveymonkey.com/s/Assignment_Webcast_2013)

*Limited connections are available for both host and desktop viewing. Registration for host sites willing to accommodate staff from other offices will be given priority.*
