

Accreditation Framework

Professional Services Division

August 24, 2006

During the review of the accreditation system by the Committee on Accreditation and the Accreditation Study Work Group, staff has attempted to revise the *Accreditation Framework* in alignment with the proposed revisions. Now that the Commission has taken action on the first six recommendations made by the COA and the Work Group, it seems to be an appropriate time to revisit the draft framework language.

Included in this item is the draft *Accreditation Framework* for your review. The table below attempts to delineate which sections and when necessary, which portions of which sections are ready for the Committee's endorsement and which sections need additional work to be completed. It is anticipated that at the November-December 2006 Commission meeting, the draft Accreditation Framework would be presented to the Commission, for information.
