**COMMITTEE ON ACCREDITATION**

(916)323-5917

October 10, 2008

Dear Commissioners:

It is with personal and professional pleasure that, on behalf of the entire Committee on Accreditation, we submit to the Commission on Teacher Credentialing the *2007-2008 Annual Accreditation Report* by the Committee on Accreditation in accordance with the provisions of the *Accreditation Framework*. This report presents an overview of the activities and accomplishments of the Committee in the past year and its proposed work plan for 2008-2009 as it implements the Commission's accreditation system.

Commissioners will notice revisions to the report—both what is reported and how it is reported. The *Annual Accreditation Report* is now organized to address the purposes of the accreditation system: ensure accountability, ensure high quality programs, ensure adherence to standards and foster on-going improvement. Each purpose is addressed as the report notes what was accomplished in 2007-2008 and in the proposed work plan for 2008-2009. We believe that aligning the *Annual Accreditation Report* to these purposes provides more useful information and demonstrates integrity with the accreditation system.

The Committee now looks forward to maintaining the high standards set by the Commission for its accreditation responsibilities. The Committee also stands ready to assist the Commission as it considers its accreditation policies for the future.

Sincerely,

Lynne Cook

Section I: Accomplishment of the Committee's Work Plan in 2007-2008

On August 8, 2007 the Committee on Accreditation adopted its work plan for 2007-2008. The Committee's elected Co-Chairs presented this work plan to the Commission at the October 4, 2007 Commission meeting. The items that follow represent the key elements of the 2007-2008 work plan for the Committee on Accreditation and a summary of each task and its current status.

Task 1: Review the Results of the Evaluation of the Accreditation Framework

The *Accreditation Framework* was reviewed by staff, members of the Accreditation Study Group and members of the Committee on Accreditation. The *Framework* was adopted by the Commission in December of 2007 and is posted on the website.

Task 2: Monitor the Implementation of and Evaluate the Effectiveness of Accreditation Agreement with Selected National organizations (including NCATE)

California's partnership agreement with the National Council for Accreditation of Teacher Education (NCATE) began in 1989 and is renewed periodically. In 2007, staff updated the protocol agreement to reflect the revised accreditation system as adopted by the Commission. The NCATE partnership protocol defines the Commission's working relationship with NCATE and specifies how joint visits are to be conducted. For the 2008-2009 year, the program review will continue to be conducted as part of the site visit. Beginning in 2009-2010, with the Yellow cohort, the program review process will be completed as part of Program Assessment two years prior to the site visit. NCATE's State Partnership Board reviewed California's proposed partnership materials in October 2007 and has agreed to our continued partnership through January 1, 2014.

Task 3: Review and Initial Accreditation of New Credential Programs

There were 67 new credential programs approved in 6 credential areas. A summary of the approvals is noted below. A more comprehensive listing that includes where each of the programs is offered can be found on pages 15 and 16 under Section III of this report.

Multiple and Single Subject 2042 Credential

Multiple Subject 1	Single Subject 1
Multiple Subject with Internship 2	Single Subject with Internship 2
Multiple Subject BCLAD	Single Subject BCLAD
Spanish 2	Spanish 1
Hmong 1	Korean 1
Mandarin 1	Clear Credential Program 1
Korean 1	

The 14 programs represent 4 UC campuses, 5 CSU campuses, 5 private and independent campuses and 1 district program.

Education Specialist Credential

- 4 Level I Mild/Moderate programs with internships
- 1 Level I Moderate/Severe program with internship
- 1 Level II Mild/Moderate program

- 2 Level II Moderate/Severe programs
- 1 Level I program for Deaf and Hard of Hearing
- 1 Level II program for Deaf and Hard of Hearing
- 1 Speech Language and Pathology
- 1 Level II Early Childhood Special Education
- 1 Certificate program in Early Childhood Special Education

The 13 programs represent 2 CSU campuses, 6 private and independent campuses and 2 local education agencies.

Reading Language Arts Specialist Credential

- 1 certificate program at a CSU campus
- 1 credential program at a private/independent campus

California Teachers of English Learners (CTEL) Programs

16 programs were approved representing 3 UC campuses, 5 CSU campuses and 8 private and independent campuses.

Administrative Services Credential

- 3 Preliminary Programs
- 8 Preliminary Programs with Internships
- 8 Professional Clear Programs

The 19 programs represent 4 UC campuses, 5 CSU campuses and 6 private and independent campuses.

Pupil Personnel Services Credential

- 2 School Psychology programs with internships
- 1 program in Child Welfare and Attendance

All 3 of the approved programs are at private/independent campuses.

Task 4: Professional Accreditation of Institutions of Postsecondary Education and School Districts and Their Credential Programs

In 2007-2008 14 site visits and 3 re-visits were completed. A table indicated where the visits occurred and the accreditation decisions made can be found on page 11 in Section III.

Task 5: Revise the *Accreditation Handbook* and Board of Institutional Reviewers Curriculum and Training

Work on the *Accreditation Handbook* has continued steadily. The revision process is organized like a spiral, inviting feedback from a wider range of stakeholders following each revision of each chapter. Specifically, the process works like this:

- Staff reviews and revises each chapter. When ready, chapters are posted on the CTC website and the URL for that page is sent to key stakeholders—COA, Advisory Work Group and those who have participated in activities associated with the substance of the specific chapters such as Biennial Reports, Site Visits, and service as team leads, etc. Chapters are available for specified periods of time.
- When the stakeholder review time ends, staff analyzes the stakeholder comments and revises the chapter accordingly.

- The chapter is posted again. This time, the URL is posted publically and an invitation to the broader stakeholder group will be sent via the PSD News.
- When the stakeholder review time ends, staff analyzes the stakeholder comments and revises the chapter accordingly.

The process will continue until all chapters have been reviewed. The Handbook will then be returned to the COA for final review and adoption by early 2009.

Board of Institutional Reviewers (BIR) Curriculum and Training

In light of revised accreditation procedures, a review of and revisions to the curriculum and training for prospective BIR members were completed. The curriculum reflects the multiple activities of the accreditation system: biennial reports, program assessment and site visits and the role of BIR members in each activity. Training takes place from Sunday to Wednesday, as before, simulating the time frame of an actual site visit. Each day participants learn the skills necessary for participation in accreditation activities and practice those skills in simulations. An experienced Team Lead provides the perspective of how the team works together and the expectations a Team Lead has of review team members.

Applications for the BIR have been revised so that prospective members have a clear understanding of the knowledge, skills and abilities necessary for consideration to the Board of Institutional Reviewers.

Task 6 Maintain Public Access to the Committee on Accreditation

All meetings of the COA are held in public. Effective October 2007 COA meetings are broadcast live on the Internet and the audio recording is posted for future reference. Regular information about the Committee and its deliberations are posted on the COA webpage at the Commission's website.

Task 7 Receive Regular Updates on Commission Activities Related to Accreditation

In 2007-2008, the Commission appointed a liaison to the COA. Commissioner Leslie Peterson Schwarze brought information about the Commission to the COA and gave updates on COA activities at Commission meetings.

Task 8 Preparation and Presentation of COA Reports to the Commission

The Committee on Accreditation adopted its 2006-2007 Accreditation Report in August 2007 and presented it to the Commission on Teacher Credentialing at its October 4, 2007 meeting. The presentation of the 2007-2008 Annual Report is scheduled for the November 2008 Commission meeting.

Task 9 Other Required Elements of the Accreditation Framework-Election of Co-Chairs, Adoption of Meeting Schedule, Orientation of New Members, On-Going Review of Accreditation Process and Procedures, etc.

Election of Co-Chairs for 2007-2008

The Committee procedures state that Co-Chairs (one from postsecondary education and one from K-12 education) are elected annually. In August, 2007 the Committee voted to waive the

annual election process that limits the number of terms a member may serve as Co-Chair and elected Lynne Cook and Dana Griggs to serve as Co-Chairs for an additional year.

Schedule of Committee Meetings for 2007-2008

In accordance with the duties assigned to the Committee on Accreditation and its adopted work plan for 2007-2008, the Committee on Accreditation held the following meetings:

August 8, 2007
October 24, 2007
January 17, 2008
May 1-2, 2008
June 12-13, 2008
June 18-19, 2008

Orientation of New Members

New members had a half day orientation that included background information on the Commission and the Committee on Accreditation, their role on the COA, conflict of interest, and the process to recuse oneself from items and public meeting rules.

On-Going Review of Accreditation Process and Procedures

The final agenda item of each COA meeting is a debrief of accreditation decision-making and other topics related to the accreditation system. COA members requested that in the 2008-2009 year they meet with Team Leads to review report writing and useful information on how to report about the visit at the COA meeting. Such a meeting was held in August 2008.

Section II: Summary of 2007-2008 Accreditation Activities Organized by the Purposes of the Commission's Accreditation System

This section of the report provides more detailed information about elements of the 2006-2007 work plan with a focus on accreditation activities. Some of the same tasks mentioned in Section I are repeated here again with additional information and are grouped according to the purposes of the accreditation system.

Purpose 1: Ensure Accountability to the Public and the Profession

Task 1: Begin Implementation of a Revised Accreditation System

Institutions are now participating in the revised accreditation system. Each activity of the system has been implemented. Procedures for site visits remained unchanged for this year and the next, 2008-2009. Revised site visit protocols will begin in 2009-2010 using program assessment results from the yellow cohort.

Task 6: Maintain Public Access to the Committee on Accreditation

The COA held meetings as follows:

- August 8, 2007
- October 24, 2007
- January 17, 2008
- May 1-2, 2008
- June 12-13, 2008
- June 18-19, 2008

Live COA meetings can now be heard over the internet. Archives of the meetings are housed on the Commission website.

Task 8 Preparation and Presentation of COA Reports to the Commission

The COA submitted the Annual Accreditation Report to the Commission in October 2007.

Purpose 2: Ensure Program Quality

Task 2 Monitor the Implementation of and Evaluate the Effectiveness of Accreditation Agreements with Selected National Organizations (including NCATE)

A revised partnership protocol with NCATE has been established and is in effect until January 1, 2014. Staff continues to review accreditation agreement possibilities with other organizations.

Task 4 Professional Accreditation of Institutions of Postsecondary Education and School Districts and their Credential Preparation Programs

2007-2008 accreditation decisions were made based upon the evidence gathered at the site visit and the recommendation made by the team. Teams reviewed documentation, interviewed a variety of constituencies (candidates, program completers, faculty, employers, administration, supervisors, etc.), deliberated and came to consensus on findings for all program standards and an accreditation recommendation. Commission consultants, team leads and institutional representatives attended Committee on Accreditation meetings to present the results of the site visit report and respond to questions. COA made the following accreditation determinations:

COA Accreditation Decisions 2007-2008 Visits	
Program Sponsor	Accreditation Decision
Alliant International University	Accreditation with Probationary Stipulations
Argosy University	Accreditation with Probationary Stipulations
CSU, Bakersfield	Accreditation
CSU, Fullerton	Accreditation
Dominican University of California	Accreditation
Holy Names University	Accreditation with Substantive Stipulations
InterAmerican College	Accreditation
Loma Linda University	Accreditation
Orange County Department of Education	Accreditation with Technical Stipulations
Phillips Graduate Institute	Accreditation with Technical Stipulations
Project Pipeline	Accreditation with Substantive Stipulations
Stanford University	Accreditation
UC Riverside	Accreditation
Vanguard University	Accreditation with Substantive Stipulations

In addition, the COA heard reports from re-visits of 2006-2007 visits and made the following decisions:

2007-2008 Accreditation Re-visits		
Program Sponsor	2006-07 Decision	2007-08 Re-Visit Decision
CSU, Chico	Accreditation with Technical Stipulations	Accreditation
CSU, Monterey Bay	Accreditation with Technical Stipulations	Stipulations stand until after the NCATE re-visit in Dec. 2008
San Francisco State University	Accreditation with Substantive Stipulations	Accreditation with Technical Stipulations

A review of the year's site visits results will serve as information for staff in determining needs of institutions for technical assistance meetings and as a guide for institutions as they prepare for their own site visit. A summary table of findings on standards that were not met or met with concerns for the year's visits will signal trends and provide valuable information on implementation of standards. The information from 2007-2008 is presented in the following tables:

2007-2008 Findings on the Common Standard Summary of 14 site visits			
	Standard Met	Standard Met with Concerns	Standard Not Met
Standard 1: Education Leadership	10	4	0
Standard 2: Resources	10	4	0
Standard 3: Faculty	12	2	0

2007-2008 Findings on the Common Standard Summary of 14 site visits

In all the following Credential Programs, all standards were found to be met. The number in bold indicated the number of programs reviewed.

Clear Credential: **1**

Reading Language Arts Certificate and Language Arts Specialist Credential: **3**

Child Welfare and Attendance Credential Programs: **2**

Professional School Nurse Health Services Credential Program: **2**

Clinical Rehabilitative Services Language, Speech and Hearing: **2**

Purpose 3 Ensure Adherence to Standards

Task 3 Review Initial Accreditation of New Credential Programs

Institutions that would like a program to be considered for Initial Program Approval submit a document that indicates how the program will meet each of the standards along with supporting documents that serve as evidence to verify the claims made. A team of educators who have expertise in the program area and are trained for the review process read the document to determine whether standards are met. If they are, it is so noted. If they are not, reviewers write specific information as to what is needed. This information is shared with the institution by the consultant. The review process continues until all standards are found to be met. When standards are met, the Commission Consultant forwards the item to the COA agenda at the next scheduled meeting. Initial program approvals include programs that are new to the credential area as well as those that are writing to new standards. By September 1, 2008 all Administrative Services credential programs are to be in alignment with the 2003 *Standards of Quality and Effectiveness for Preliminary Administrative Services Credential Programs*.

2007-2008 Initial Program Approval Actions taken by the Committee on Accreditation are summarized in the tables below.

Program Withdrawal

At the site visit, the team is to determine program standards findings for each approved program. In some instances, institutions have had approved programs, but they are not admitting candidates. The institution may seek to formally withdraw the program. The program is then no longer considered a Commission approved program. The following institutions and programs selected this option in the 2007-2008 year.

Withdrawn Programs of Professional Preparation	
Argosy University	BCLAD Certification Program
Biola University	Multiple and Single Subject Intern Program
California State University, Long Beach	Audiology and Clear Credential Program
California State University, San Marcos	Professional Clear Administrative Services Program
InterAmerican College	Clear Credential Program
Project Pipeline	Multiple Subject Credential Program
San Francisco State University	Deaf and Hard of Hearing Program
Stanford University	Professional Administrative Services Program
University of California, Los Angeles	Clear Credential Program

In 2008, the Committee on Accreditation developed an additional category for Approved Program: Inactive Status. This category was created because there may be programs that are not currently admitting candidates, but want to be ready to reactivate the program once other conditions are met. Examples of these instances are: 1) a Pupil Personnel Services program in School Counseling that had been losing candidates due to a lack of hiring in the area. However, the Governor signed legislation providing additional funding for that field, so now there are people interested in the program. Or, in a specific area of Education Specialist, a faculty member has left and there is no immediate replacement for that professor's expertise. The job is advertised and the program will be activated once a new faculty member has been found.

The COA wrote specific criteria for how long a program can remain on Inactive so that this category is not used as a loophole for skipping activities in the accreditation system. in accreditation activities. The guidelines for notifying that a program will be on Inactive status are available at <http://www.ctc.ca.gov/educator-prep/PS-alerts/PSA-08-03.pdf>

2006-2007 Task 5 Revise the Accreditation Handbook and Team Training Curriculum

Revision of the *Accreditation Handbook* is now underway with chapters being posted for input from key stakeholders and users. The BIR training curriculum was revised and implemented at the three trainings held in the 2007-08 year.

Purpose 4 Foster Program Improvement

Task 9 On-Going Review of Accreditation Process and Procedures, etc.

In 2007-2008 there were a variety of activities to share information about the revised accreditation system and its implementation. Highlights of some of the activities are noted in the table on the next page.

Date	Activity
September 2007	BIR Training (Sacramento, CA)
October 2007	Staff presented multiple session at the annual conference of the California Credentials Analysts and Counselors (CCAC) in Sacramento
January 2008	BIR Training (Riverside, CA)
March 2008	Staff and COA members presented at the California Council for Teacher Education conference (CCTE) in San Jose where the theme of the conference was "Got Accreditation?"
March 2008	Staff presented at the California Association of Professors of Educational Administration (CAPEA) conference on the revised accreditation system including ideas for data collection regarding candidate competence and on-going program improvement.
March 2008	Staff presents at the California Association for Bilingual Education (CABE) conference on preparation for writing to the new bilingual standards.
June 2008	BIR Training (Sacramento, CA)

Throughout the year many Technical Assistance Meetings were held throughout the state on various aspects of accreditation to assist institutions to understand the Commission's accreditation system.

Section III: Proposed Work Plan for the Committee in 2008-2009

Purpose 1. Ensure Accountability to the Public and to the Profession

- a) *Maintain public access to the Committee on Accreditation*
All Committee meetings will continue to be held in public and all meeting agendas posted in accordance with the Bagley-Keene Open Meeting Act. In addition, meetings will be transmitted via audio broadcast to allow any individual with access to the internet the ability to hear live or recorded broadcasts of all Committee meetings. The Commission's website will continue to be utilized fully to provide agenda items, notification of meetings, as well as broad-based access to critical accreditation materials for institutions and others interested in accreditation.

- b) *Preparation and presentation of COA reports to the Commission.* The Committee on Accreditation will present its annual report to the Commission in the fall. Additional updates and reports to the Commission will be provided as necessary and appropriate throughout the year.

Purpose 2. Ensure Program Quality

- a) *Professional accreditation of institutions and their credential preparation programs.* This is the principal, ongoing task of the Committee on Accreditation. The COA has been given full responsibility for making the legal decisions regarding the continuing professional education accreditation of institutions and their credential programs. In the 2008-2009 academic year, accreditation site visits are scheduled for 15 institutions in the Green cohort. In addition, seven institutions will be revisited in 2009 to ensure sufficient progress in addressing issues identified in previous accreditation visits. A list of the institutions scheduled for a site visit in 2008-2009 is included in Appendix A to this item.

- b) *Revise and finalize the Accreditation Handbook.* One of the major goals in the fall of 2008 will be to finalize the *Accreditation Handbook*. This document will explicate the processes and procedures of the various components of the accreditation system. Stakeholder review of the various chapters of the *Handbook* will be completed and the document, once approved by the COA, will be placed on the Commission's website prior to the 2008-2009 accreditation site visits.

- c) *Build the pool of accreditation reviewers.* In an effort to continue to build the pool of individuals with expertise across credential areas and train individuals on the revised accreditation system, the COA will continue to support training new BIR members. It is anticipated that a training session will take place early in 2009 and the COA may consider the possibility of developing and providing a "refresher" training for experienced reviewers who need less intense training, but an update on the new standards and the new processes of the current accreditation system. In addition, the development of a Team Lead orientation session so that all BIR members who serve as leaders of the COA's accreditation teams are prepared for the responsibilities entrusted to the team leads.

- d) *Receive regular updates on Commission activities related to accreditation and provide Commission with advice on issues related to accreditation as requested by the Commission.* The COA will receive information on an ongoing basis about Commission activities related to accreditation. Consistent with the Education Code, the Commission may request that the COA review, examine, and provide advice on various issues related to accreditation. To that end, the COA will continue to participate and play a major role in providing advice to the Commission on standards development and revision and other accreditation related matters.

Purpose 3. Ensure Adherence to Standards

- a) *Conduct and review program assessment activities.* The Yellow Cohort, which is comprised of 19 institutions, is the first set of institutions currently engaged in program assessment two years prior to the accreditation site visit. The COA will monitor the review process for this first year of implementation of this component of the revised system. Reports on the Program Assessment for the institutions in the Yellow cohort will be presented at the January and April COA meetings. In addition, the Program Assessment process will begin for the Orange Cohort, which is comprised of 17 institutions. Programs in the Orange Cohort are required to submit program assessment documents in either October 2008 or January 2009. A list of institutions engaged in program assessment in the 2008-09 year is included in Appendix A.
- b) *Review and initial approval of new credential programs.* This is another one of the major ongoing tasks of the Committee on Accreditation. The COA has developed procedures for handling the submission of proposed credential programs. Some of the decisions are made on the basis of expert review panel recommendations and some are made on the basis of staff recommendations. In all cases, programs will not be given initial approval until the reviewers have determined that all of the Commission's standards are met.
- c) *Conduct technical assistance visits to institutions new to accreditation.* The COA will consider the issues identified by technical assistance review teams in their review of institutions new to the accreditation process in California. Review teams will provide technical assistance to these institutions in preparation for a full accreditation site visit. A list of institutions scheduled for a technical assistance site visit in the 2008-09 year is included in Appendix A.
- d) *Complete efforts begun on Common Standards.* The COA will continue to work to finalize the remaining Common Standards work as directed by the Commission. This includes the development of descriptors or rubrics to facilitate a more consistent understanding of, and agreement about, the Common Standards. This work also includes the development of Planning Prompts for the Common Standards, and completion of any work remaining to revise the language of the Common Standards to ensure their applicability to all types of credential programs.

- e) *Completion of SB 2042 revision efforts.* The COA will continue to advise the Commission on work related to revising SB 2042 standards. In particular, this will include the elimination of the “Required Elements” and the integration of any critical language of the required element into the standard statement.

Purpose 4. Foster Program Improvement

- a) *Collect, analyze, and report on the first year of biennial reports submitted in fall 2008.* The 2008-2009 academic year represents the first full year of implementation of the biennial report component of the revised accreditation system. All institutions in the Orange, Green, and Violet cohorts are required to submit candidate competence and performance data in 2008. Institutions in the Red, Yellow, and Indigo cohorts will submit their first biennial reports by the end of 2009. A list of all institutions required to submit biennial reports is listed in Appendix A. A major focus of the effort will be to provide assistance to institutions as they prepare their first biennial report and to analyze information from institutions to ensure appropriate responses to the requirements of the biennial report.
- b) *Plan for any refinements to the biennial report process.* The COA will review information provided by staff about the first year of implementation of the biennial report component and determine whether any refinements need to be made to the report template to ensure it meets the original objectives of the revised accreditation system.
- c) *Continued development of the evaluation system for the accreditation system.* As the various components of the system are implemented, staff and the COA will continue to work to ensure that additional evaluation components are embedded into the system. Implementing an on-line evaluation form that team members, team leaders, and institutions complete upon completion of a site visit, and establishing evaluation mechanisms for program assessment, biennial reporting, as well as other aspects of the system, will be a major focus in 2008-2009.
- e) *Continue Partnership with the National Council for the Accreditation of Teacher Education (NCATE) and efforts to collaborate with other national accrediting bodies, where appropriate.* The Partnership Agreement with NCATE was renewed in 2007 and is effective through 2014. The COA will continue monitoring the agreement to make certain that the implementation of the partnership results in assuring that state issues are appropriately addressed in each joint NCATE-CTC visit and that the process reduces duplication.

NCATE offers the option for a state’s review of its programs to confer *National Recognition* to the program as if the professional association had completed the program review. Historically California has not requested the ability to confer National Recognition on any of its approved programs. In September 2008, Commission staff submitted additional information to NCATE requesting the ability to confer National Recognition for California’s educator preparation programs where the specialized professional association standards are closely aligned. Staff will

continue to work with NCATE during the 2008-09 year to be able to confer National Recognition when appropriate.

In addition, the COA will continue to explore ways to streamline the accreditation of other national and professional organizations with that of the state processes. Should requests for analysis of the alignment of national and professional organization standards with those of the Commission be received, the COA will review the analysis, consistent with its responsibilities set forth in the Education Code, and determine issues of comparability.

General Operations

In addition to the above mentioned items, the COA will engage in routine matters necessary for general operations of the Committee. This includes the election of Co-Chairs, the adoption of a meeting schedule for 2009-2010, orientation of new members, and modification of its own procedures manual, if necessary.
