

Draft of Annual Report of the COA

October 2014

Overview of this Report

This agenda item continues the discussion of a draft of the *Annual Report of the Committee on Accreditation 2013-14*.

Staff Recommendation

Review and approve the Annual Report of the COA for submission to the Commission at its December 2014 Commission meeting.

Background

California Education Code and the *Accreditation Framework* require the COA to provide the Commission with a report on accreditation activities on an annual basis. Typically, the two Co-Chairs present the *Annual Report* at a fall meeting of the Commission.

This agenda item continues the discussion of a draft of Section I and Sections II. For this meeting only, Section III will be provided as a separate document but included as an additional link on the COA agenda page under the same agenda number.

Next Steps

Commission staff will incorporate any recommended changes to the item in a final compiled version (containing all three Sections of the report) that will go forward to the Commission at its December 2014 meeting. In addition, the report will be included on the Commission's webpage.

COMMISSION ON
TEACHER CREDENTIALING

Ensuring Educator Excellence

**The Committee on Accreditation's
Annual Accreditation Report to the
Commission on Teacher Credentialing
2013-2014**

Dear Commissioners:

It is with personal and professional pleasure that, on behalf of the entire Committee on Accreditation, we submit to the Commission on Teacher Credentialing the *2013-2014 Annual Accreditation Report* by the Committee on Accreditation in accordance with the provisions of the *Accreditation Framework*. This report presents an overview of the activities and accomplishments of the Committee in the past year and its proposed work plan for 2014-15 as it implements the Commission's accreditation system.

The *Annual Accreditation Report* is organized to address the purposes of the accreditation system: ensure accountability, ensure high quality programs, ensure adherence to standards and foster on-going improvement. Each purpose is addressed as the report notes what was accomplished in 2013-14 and in the proposed work plan for 2014-15. We believe that aligning the *Annual Accreditation Report* to these purposes provides evidence of the integrity of the accreditation system.

The COA shares with the Commission the goal of having a strong accountability system that encourages excellence and holds educator preparation programs to high standards. The membership of COA is encouraged by the recent discussions of the Commission to strengthen and streamline the accreditation process and welcome the opportunity to further examine the accreditation system over the next year. We stand ready to assist the Commission in this important effort to make the accreditation system leaner, more focused on essential aspects, and outcomes based.

Ensuring a well prepared workforce to educate our state's students is of paramount importance. We look forward to working in partnership with the Commission to achieve the important objectives of ensuring a high quality educator in every classroom.

Sincerely,

Reyes Quezada

Section I: Accomplishment of the Committee's Work Plan in 2013-2014

Accreditation site visits and all accreditation activities resumed in 2013-14, however, the Commission's fiscal challenges continued. The Commission remained committed to continuing accreditation activities in the most cost effective manner possible, including seeking possible long term remedies to ensuring the Commission can carry out its mandate in future years.

The items that follow represent the key components of the 2013-2014 accreditation activities for the COA and a summary of each task and its current status.

Purpose 1. Ensure Accountability to the Public and to the Profession

Maintain public access to the Committee on Accreditation. The COA resumed its regular schedule to accommodate the return to a full schedule of accreditation site visits. It held meetings on the following dates:

August 7, 2013
October 10-11, 2013
February 6-7, 2014
April 24-25, 2014
June 26-27, 2014

All Committee meetings were held in public and all meeting agendas posted in accordance with the Bagley-Keene Open Meeting Act. In addition, meetings were transmitted via audio broadcast to allow any individual with access to the internet the ability to hear live or recorded broadcasts of all Committee meetings. The Commission's website was utilized fully to provide agenda items, notification of meetings, as well as broad-based access to critical accreditation materials for institutions and others interested in accreditation.

As a continuing cost saving measure, videoconference, Skype, Google Hangout, and phone conferencing were used, where possible and appropriate, in order that those located in various regions of California who are involved in accreditation activities could participate without travel.

PSD News. The PSD E-news, developed in 2008, continued to be distributed weekly. This electronic notification reaches 1728 individuals (up from 1500 last year) , including all approved institutions, to inform them of accreditation-related activities such as information regarding standards development and revision, technical assistance opportunities, and notification of requests for stakeholder input.

Program Sponsor Alerts. Program Sponsor Alerts (PSA) continued to be used to provide important and timely information on specific topics of interest to program sponsors. The Commission staff used this resource frequently in the 2013-2014 year, issuing eight PSAs. The PSA is used to address a specific issue such as requirements for transition to new standards and has served the Commission and the field well. Program Sponsor Alerts will continue to be used to provide information to the field.

Technical Assistance to the Field. In 2013-14 a variety of activities took place designed to share information about the accreditation system and its implementation. Meetings were held both in person and via the web. All webinars were broadcast live and also archived for access by stakeholders at <http://www.ctc.ca.gov/commission/meetings.html>. Technical Assistance included the following:

Date	Technical Assistance Activity
Throughout Fall	Archived Webinar trainings for Accreditation site visit team members (NCATE and non-NCATE versions)
1/22/14	Site Visit Team Lead Training
10/3/2014	Intern Webinar
10/16-18/2014	Credential Counselors and Analysts of California Conference
12/18/2013	Common Core State Standards- How does educator preparation need to change with CCSS?
1/16/2014	Administrator examinations: Examinations Development Discussion
3/7/2014	CalTPA Coordinators

5/16/2014	TPA Stakeholder Meeting
5/30/2014	Joint CAEP and CTC Accreditation
Aug-May	CalTPA Assessor Training (8 sessions)
May-Sept	Intern Program Modification: EL, Support and Supervision Requirements (5 sessions)
Jan-Aug	Administrative Services Credential Think Tanks (15 sessions)

Preparation and presentation of COA reports to the Commission. COA Co-Chair Anne Jones presented its annual report to the Commission at the December 2013 Commission Meeting <http://www.ctc.ca.gov/commission/agendas/2013-12/2013-12-agenda.html>.

Commission Liaison. The Commission’s liaison position was vacant during 2013-2014. The Commission’s liaison provides an important perspective to COA discussions and serves as an effective means of communication between the COA and the Commission. This role will be filled in 2014-15 by Commissioner Haydee Rodriguez.

Implementation of a fee recovery system for certain accreditation activities. The Commission adopted a cost recovery plan, and associated regulations (effective October 2013), for the review of new programs and for accreditation activities outside the typical accreditation cycle. A system was established to track reviewer assignments and credit institutions for in-kind, and that ensures a fiscal process which invoices institutions accurately reflecting any earned in-kind credit. Approximately \$65,000 were garnered through Cost Recovery fees during 2013-2014.

Purpose 2. Ensure Program Quality

Professional accreditation of institutions and their credential preparation programs. This is one of the principal ongoing tasks of the Committee on Accreditation. The COA has been given full responsibility for making the legal decisions regarding the continuing professional education accreditation of institutions and their credential programs.

The COA has five options when making an accreditation decision for an institution. Chapter Eight of the Accreditation Handbook describes them as follows:

Accreditation

The recommendation of *Accreditation* means that the accreditation team verified that the institution and its programs, when judged as a whole, met or exceeded the CTC's adopted Common Standards and program standards applicable to the institution. The institution (including its credential programs) is judged to be effective in preparing educators and is demonstrating overall quality in its programs and general operations. The status of *Accreditation* can be achieved even if one or two common standards were identified as "met with concerns" or one or more areas of concern were identified within its credential programs.

Accreditation: Accreditation with Stipulations

The recommendation of *Accreditation with Stipulations* means that the accreditation team, at the site visit, verified that the institution and some of its programs have "not met" or "met with concerns" some common standards and/or program standards, applicable to the institution, and that action is required to address these deficiencies. The institution is judged to be generally effective in preparing educators and in its general operations apart from the identified areas of concern. The concerns or problems identified are confined to specific issues that minimally impact the quality of the program received by candidates or completers.

Accreditation with Major Stipulations

The recommendation of *Accreditation with Major Stipulations* means that the accreditation team concluded that the institution and some of its programs have "not met" or "met with concerns" multiple standards in the common standards, and/or program standards applicable to the institution, or that the team found areas of concern (such as matters of curriculum, field experience, or candidate competence) that impact, or are likely to impact, the preparation of credential program candidates. The team identified issues that impinge on the ability of the institution to deliver high quality, effective programs. The review team may have found that

some of the institution's credential programs are of high quality and are effective in preparing educators or that the general operations of the institution are adequate, but the team concluded that these areas of quality do not outweigh the identified areas of concern.

Accreditation with Probationary Stipulations

The recommendation of *Accreditation with Probationary Stipulations* indicates that an accreditation team identified serious and pervasive deficiencies in the institution's implementation of the Common Standards and program standards applicable to the institution, or that the team found areas of concern (such as matters of curriculum, field experience, or candidate competence) that substantially impact the preparation of credential program candidates. The team identified issues that prevent the institution from delivering high quality, effective programs. The review team may have found that some of the institution's credential programs are effective in preparing educators and/or that its general operations are adequate, but the team determined that these areas of quality clearly do not outweigh the identified areas of concern.

Denial of Accreditation

The COA can deny accreditation upon either an initial visit or a revisit to an institution. Although a recommendation of Denial of Accreditation typically comes after a finding of probationary status at an initial visit and after the institution has been provided with an opportunity to institute improvements a review team can recommend Denial of Accreditation at any time if the situation warrants the finding in accordance with this section of the Handbook.

Accreditation site visits resumed in 2013-14. Thirty-three institutions were reviewed resulting in the following decisions:

- 23 institutions Accredited
- 5 institutions Accredited with Stipulations
- 2 institutions Accredited with Major Stipulations
- 1 institution Accredited with Probationary Stipulations
- 1 institution Denied Accreditation

Two institutions that were Accredited with Stipulations in 2012-13, improved and the COA addressed the COA's concerns sufficiently such that the COA acted to remove the stipulations and change their status to Accreditation in 2013-14. There was also a revisit to Bard College which resulted in a decision of Accreditation. A list of the institutions that had a site visit or revisit in 2013-2014 is included in Section II of this report.

Attention was paid to ensuring cost effectiveness in reviews. In particular, the number of team members was reduced to the minimum number of reviewers required to complete the task. In addition, all site visits with one or two similar programs (such as General Education Induction and Clear Education Specialist Induction) were reduced by one day for a total of three days, two

nights, instead of four days and three nights. However, the expectations for site visit team members have shifted significantly in that much more is done prior to arriving on site. These actions reduced the cost involved in the review while continuing to ensure a sufficient length of time for a thorough review.

Review and revise the Accreditation Handbook. The *Accreditation Handbook* explicates the processes and procedures of the various components of the accreditation system. Chapter 3 was updated to include information to institutions regarding the reactivation of a program that was on Accredited Inactive status. An additional chapter addressing Technical Assistance visits was also added to the Accreditation Handbook. This information can be found in Chapter 16.

Receive regular updates on Commission activities related to accreditation and provide Commission with advice on issues related to accreditation as requested by the Commission. The COA received updates on Commission activities at each meeting. Examples of topics discussed for 2013-14 included updates on the work related to the Commission's consideration of recommendations regarding Administrative Service Credential Standards, efforts to strengthen and streamline the accountability system, and the transition from NCATE/TEAC to CAEP.

Continue Efforts to Develop Surveys for Use in Accreditation. The Commission's adopted activities for 2012-13 included the development of a pilot program completer survey to collect data that could be used in the accreditation process. In the spring of 2013, the Commission staff worked with stakeholders to develop and pilot the first of these surveys for Preliminary Multiple Subject, Single Subject, and Education Specialist program completers. Additional effort was made during the 2013-14 year to examine the use of the data collected during the pilot, determine how it might be brought to scale, and used for accreditation purposes in the future. The second phase of the Completer Survey pilot is underway with an eye towards increasing participation. The survey is being sent to all individuals that earned a preliminary credential between January 1 and August 30, 2014. Completors are being asked to submit the survey by September 15, 2014.

Programs have been asked to encourage their graduates to participate. Programs with 10 or more responses will receive program reports that include the statewide reports by October 15, 2014.

The Commission is also in the process of developing additional surveys to be completed by candidates completing induction programs, Pupil Personnel Services programs, master and mentor teacher surveys, and employers. Administrative Services Credential program survey questions were developed for testing in 2014 and implementation with program completors in 2015.

Purpose 3. Ensure Adherence to Standards

Review and take action to grant initial approval of new credential programs. This is also one of the major ongoing tasks of the Committee on Accreditation. The COA has developed procedures for handling the submission of proposed credential programs. Some of the decisions are made on the basis of expert review panel recommendations and some are made on the basis of staff recommendations. Forty-three (43) programs were granted initial approval during 2013-2014.

Conduct and review program assessment activities. In 2013-14, institutions in the Blue cohort were working to complete the program assessment process and submitted documents at the end of 2013. The review of indigo and blue program assessment documents was slow due to the lack of budget to bring readers together as well as lack of reader sign ups when budget was available for travel. Staff facilitated eight program assessment sessions during the 2013-2014 year throughout the state bringing nearly seventy readers together to review documents. Extensive recruitment efforts were made by reaching out to potential readers in the green and yellow cohorts as a means to better prepare for the submission of their own documents. Brandman University, Los Angeles County Office of Education, CSU San Bernardino, and CSU Sacramento hosted reading sessions and assisted in the recruitment of program assessment readers. Even with the assistance of hosting institutions, low reader turn out and budgetary constraints required the vast majority of the documents reviewed to take place remotely – with reviewers being sent the documents and the reviewers devoting time on their own schedule, at their homes or offices, working via technology with their program assessment partner. While this approach allowed many of these documents to be completed, it does extend the time for reviewers to complete their work and results in greater wait time for institutions to receive the results of the review.

In addition, during 2013-14, the Commission had a significant program assessment work load in the Education Specialist area. Documents from institutions that transitioned to new program standards continued to arrive in addition to the normal cohort document review workload and contributed to the shortage of available reviewers.

Conduct technical assistance visits to institutions new to accreditation. Due to limited resources during 2013-2014, Technical Assistance visits did not occur.

Preparation of volunteers to serve as Board of Institutional Review members

During the 2013-14 year, two sessions of BIR training were held (August 2013 and January 2014). This blended training of online and onsite modules equips educators to read documents for the Initial Program Review or Program Assessment components and to serve as site review team members. The hybrid model of online and on site training has been well received and appears to be nearly as effective as the 4 day in person training model used in the past.

Disseminate information related to the Commission's Common Standards and Program Standards. Efforts to assist institutions in understanding the Commission's Common and Program Standards continued in 2013-14 through a variety of strategies. Staff provided feedback regarding Common Standard 2 as part of the Biennial Report process. Additionally, a consultant was assigned to each accreditation cohort, and two consultant specific for all induction programs, to provide technical assistance throughout the accreditation process.

Specific technical assistance was also provided regarding newly adopted standards such the Administrator Preparation Standards. Fifteen (15) Think Tank sessions <http://www.ctc.ca.gov/educator-prep/ASC/asc-2014-think-tank.pdf>, which included 153 participants, were held throughout the state, providing both guidance from staff as well as an opportunity to network with other programs. Intern programs were also provided with assistance in implementing new regulations pertaining to English learners and new requirements regarding support and supervision both in person at regional meetings and via technology. Staff also provided guidance regarding changes to preconditions that were as a result of SB5, which lifted the one year cap on preliminary multiple and single subject programs.

Determine and enact effective strategies for reviewing those standards related to the implementation of the Teaching Performance Assessment. In 2012-13 COA determined the need for strategies to ensure a thorough review of standards related to the Teaching Performance Assessment. As a result, dedicated, specially-trained readers now review program standards 17-19 for multiple and single subject documents. This team of readers is quite rigorous and it is rare for a document to be preliminarily aligned on the first read.

Work with stakeholders and the Committee on Accreditation to develop a more strengthened and streamlined accountability system and a targeted site visit model that is cost effective, rigorous, and focused on the essential attributes of high quality educator preparation. This topic has been on several COA agendas and significant work has begun in regard to strengthening and streamlining the Commission's accountability system. Meetings have been held with a variety of stakeholder groups (CSU deans and directors, AAICU, CTE, and with other interested groups).

At the June 2014 Commission meeting (<http://www.ctc.ca.gov/commission/agendas/2014-06/2014-06-2E.pdf>) the Commission took action to implement a conceptual framework and related timeline including establishing a Steering Committee and a component specific task force for each area in the framework. The task force components are Standards, Performance Assessment, Outcome Measures, Accreditation Processes, and Transparency.

Purpose 4. Foster Program Improvement

Collect, analyze, and report on the biennial reports submitted in fall 2013. Biennial Reports were submitted for all programs in the Green and Orange cohorts during Fall 2013. Indigo cohorts

had the option of submitting Biennial Reports in Fall 2013 and then providing an addendum in Fall 2014 or waiting and submitting reports in Fall 2014. Staff reviewed all Biennial Reports that were submitted and provided written feedback at the program and unit level. Technical assistance was also provided to individual institutions that were in need. This occurred via phone conference and was led by the consultant assigned to the institution's accreditation cohort.

In June 2012, the Commission recommended an increase to the consistency and comprehensiveness of the data collected, analyzed and reported on for each type of educator preparation program. The COA spent considerable time in 2013-14 on this topic assisting staff in developing a Biennial Report template that provides clear requirements to the field for collecting and analyzing appropriate data for each educator preparation program.

Biennial Report templates were revised to be more streamlined and provide clearer direction to institutions and direct them toward providing more specific information focusing on candidate competency, fieldwork, and program effectiveness. The COA reviewed the new Biennial Report template at their June and August meetings. The streamlined template has been provided as an optional pilot to institutions in the Indigo, Red, and Yellow cohorts for Fall 2014 submission.

Cohort consultants assigned to the Indigo, Red, and Yellow cohorts met with institutions via Google Hangout and phone conference to orient them to the streamlined template, provide technical assistance, and gather initial feedback. Submissions using the new template will be reviewed and information will be provided to the COA in Fall 2014.

Continued development of the evaluation system for the accreditation system. Site visit surveys were provided to site visit team leads, team members, institutions, and consultants. Analysis of 2013-14 site visit evaluation data is currently underway. Improvements to the system based upon those data will be considered by the COA in October, 2014.

Continue partnership with the Council for the Accreditation of Educator Preparation (formerly the National Council for the Accreditation of Teacher Education (NCATE) and the Teacher Education Accreditation Council) and efforts to collaborate with other national accrediting bodies, where appropriate. With the unification of TEAC and NCATE into CAEP, and the adoption of new national educator preparation standards, the COA has worked with staff and stakeholders to determine the alignment of the new standards with the Commission's Common Standards and developed the new Partnership Agreement with CAEP. The draft agreement was presented to COA at the August 2014 meeting.

Explore ways to align and streamline the accreditation of other national and professional organizations with that of the state processes. The COA adopted the standards crosswalk illustrating alignment between the PPS: School Psychology standards and the National Association of School Psychologist Standards.

General Operations

In addition to the above mentioned items, the COA will engage in routine matters necessary for general operations of the Committee. This includes the election of Co-Chairs, the adoption of a meeting schedule, and orientation of new members.

Section II: Summary of 2013-14 Accreditation Activities

This section of the report provides more detailed information about elements of the 2013-14 Work Plan with a focus on accreditation activities.

Professional Accreditation of Program Sponsors and their Credential Preparation Programs

2013-14 accreditation decisions were made based upon the written reports of the evidence gathered at the site visit, recommendations made by the team, and the COA interview of program leadership and the team lead. Teams reviewed documentation, interviewed a variety of constituencies (candidates, program completers, faculty, employers, administration, supervisors, etc.), deliberated, and came to consensus on findings for all common standards, program standards, and an accreditation recommendation. Commission consultants, team leads, and institutional representatives attended Committee on Accreditation meetings to present the results of the site visit report and respond to questions. Copies of the site visit team reports are available on the Commission's website at: <http://www.ctc.ca.gov/educator-prep/accreditation-reports.html>. The COA made the following accreditation determinations in 2013-14:

Analysis of Standard Decisions

Common Standards:

The Commission's revised Common Standards (2008) and all appropriate credential program standards were utilized in the accreditation site visits in 2013-14.

A review of the year's site visit results serves as information for the COA and staff in determining needs of institutions for technical assistance meetings and as a guide for institutions as they prepared for site visits. The information regarding findings on the Common Standards from 2013-2014 is presented in the following table.

Findings on the Common Standards 2013-2014 Accreditation Site Visits (33 visits)			
	Standard Findings		
	Met	Met with Concerns	Not Met
Standard 1: Education Leadership	24 73%	7 21%	2 6%
Standard 2: Unit and Program Assessment and Evaluation	21 64%	7 21%	5 15%
Standard 3: Resources	29 88%	3 9%	1 3%
Standard 4: Faculty and Instructional Personnel	28 85%	3 9%	2 6%
Standard 5: Admission	33 100%	0 0%	0 0%
Standard 6: Advice and Assistance	29 88%	4 12%	0 0%

Standard 9: Assessment of Candidate Competence	29 88%	2 6%	0 0%

*: Institutions with single induction programs were not reviewed for Standard 8 as it does not apply.

Program Standards:

A summary of the information gathered on all educator preparation programs with determinations of *Met with Concerns* or *Not Met* are presented in the tables below. If a standard is not listed, all institutions met that standard. As with the information about the Common Standards, this information about standards that were *Not Met* or were *Met with Concerns* guides the COA and staff in determining what additional technical assistance might be helpful to the field.

Multiple Subject Standards (14 site visits)	Met with Concerns	Not Met
14: Preparation to Teach Special Populations in the General Education Classroom	3	-

Technical Assistance Site Visits

Technical Assistance site visits are conducted with new programs two years after receiving initial institutional approval from the Commission. Because of the Commission's fiscal constraints, no technical assistance site visits took place in 2013-14.

Initial Approval of New Credential Programs

Institutions that would like a program to be considered for Initial Program Approval submit a document that indicates how the program will meet each of the Commission-adopted program standards along with supporting documents that serve as evidence to verify the claims made. In addition, the institution submits a response to all relevant program specific preconditions that are reviewed by Commission staff as well as a Common Standards document (or a Common Standards addendum if the institution has recently submitted Common Standards). A team of educators who have expertise in the program area and are trained for the review process read the standards documents and consult with one another to determine whether standards are met. If the reviewers jointly agree that standards are met, it is so noted. If the review team agrees that standards are not met, reviewers request specifically what additional information is needed. This feedback is shared with the institution by the CTC staff. When all standards are found to be met and all relevant preconditions are determined to be addressed, Commission staff forwards the item, along with a paragraph about the program written by the institution, to the COA agenda at the next scheduled meeting. Initial program approvals include programs that are new to the credential area. 2013-2014 Initial Program Approval actions taken by the Committee on Accreditation are listed in the tables below.

Transitioned Programs

In 2013-14 institutions continued to transition their existing programs from prior standards to newly adopted standards. When the National Council for the Accreditation of Teacher Education (NCATE) adopted its updated Unit Standards, NCATE did not require all accredited institutions to submit a new proposal addressing the revised standards. Beginning with the Education Specialist standards revision, the Commission is implementing a standard transition process that parallels the NCATE process, requiring that all accredited institutions meet the revised standards as of a specific date. Either within one year after an institution has transitioned to new standards, or during the next regularly scheduled program assessment if it

falls within an acceptable time frame, the institution will be evaluated against the updated standards. Provided below is the list of programs that transitioned in 2013-14.

Inactive Status

Institutions may temporarily cease offering an approved program for a variety of reasons such as decreased need in the service area or changes in faculty with expertise in the area. In the past, once a program was approved, it was listed as approved on the Commission website even if the program was not being offered at the institution. At the May 2008 meeting, the COA took action to allow institutions to declare a program to be **Inactive**. A program may be declared inactive for a maximum of five years. Inactive status does not excuse an institution from accreditation activities. All inactive programs must participate in accreditation activities in a modified manner as determined by the Commission. The following 13 programs noted below were declared to be in an Inactive status in 2013-14.

Withdrawal of an Approved Program

For a variety of reasons, institutions may choose to no longer offer an approved program. Institutions are encouraged to formally seek a withdrawal of these programs thus removing the program from the Commission’s accreditation system. The program is then no longer considered a Commission approved program. Sixteen programs at twelve institutions were withdrawn in the 2013-14 year.

If an institution decides to offer a program in the future, it is a minimum of two years before a new program proposal will be accepted--three institutions, sponsoring four programs, selected this option in the 2013-14 year.

Reactivation of Inactive Programs

An inactive program may be re-activated only when the institution submits a request to the COA and the COA has taken action to reactive the program. If the program standards under which the program was approved have been modified, the institution or program sponsor must address the updated standards before the program may be re-activated. During 2013-14, only one program previously deemed inactive requested and received reactivation and is once again a fully approved program operating in California. Two programs were reactivated in 2013-14.

Initial Institutional Approval

The Committee on Accreditation does not have authority to approve the eligibility of institutions to offer educator preparation programs in California. Rather, initial institutional approval is within the purview of the Commission. Once the Commission determines that an institution is eligible to offer educator preparation in California, the program proposals by those institutions are brought forward to the COA for its consideration and action. During the 2013-14, there were no institutions that were granted Initial Institutional Approval.

Institutions that are no longer Approved Program Sponsors

During 2013-14, two institutions ceased to be Commission-approved program sponsors:

Envision Schools – Closed due to Denial of Accreditation June 2014

Oceanside Unified School District – Closed February 2014

Section III:
Proposed Work Plan for the Committee on Accreditation in 2014-2015

The COA will be provided in another document available soon on the COA meeting agenda website..

Accreditation Activities by Cohort
2013-2021

(accreditation activity is due to CTC)

Each institution is assigned to a cohort. There are seven cohorts. Data collection is an annual accreditation activity. The chart below indicates the accreditation activities for each cohort that require a submission to CTC over the next 7 years. After the seventh year, the cycle begins resumes again with the same activities.
