An act to amend Sections 44392 and 44393 of the Education Code, relating to teacher credentialing.

[Approved by Governor October 12, 2007. Filed with Secretary of State October 12, 2007.]

LEGISLATIVE COUNSEL’S DIGEST

SB 193, Scott. Teacher credentialing: paraprofessional teacher training program.

(1) The Wildman-Keeley-Solis Exemplary Teacher Training Act of 1997 establishes the California School Paraprofessional Teacher Training Program for the purpose of recruiting paraprofessionals to participate in a program designed to encourage them to enroll in teacher training programs and to provide instructional service as teachers in the public schools. The act requires the Commission on Teacher Credentialing, in consultation with certain other educational entities, to select, pursuant to specified criteria, 24 or more school districts or county offices of education representing rural, urban, and suburban areas that apply to participate in the program. The act requires a school district or county office of education to require a person participating in the program to commit to fulfilling certain specified obligations relating to obtaining a teaching credential and employment as a teacher in the district.

This bill, in addition, would require a school district or county office of education to require a program participant to obtain a certificate of clearance from the commission and provide verification of a specified level of academic achievement prior to participating in the program.

(2) The act requires a program participant to repay assistance received under the program if he or she fails to fulfill the specified obligations, but prohibits requiring a participant who is laid off to repay the assistance until the participant is offered reemployment and has an opportunity to fulfill his or her repayment obligations.

This bill would extend the time periods for the repayment of assistance by specified periods if a participant is unable to fulfill those obligations due to a serious illness, a pregnancy, or another natural cause, or if an interruption in employment caused by a natural disaster prevents a participant from completing one of the required years of service. The commission would be required to report to the Department of Finance by March 31 of each year the amount of funds collected by a school district or county office of education as repayment of assistance and the amount of funds that remain unspent from the amount appropriated to the commission in the annual Budget Act for purposes of the program.
(3) The act requires the commission to contract with an independent evaluator to conduct an evaluation on an annual basis to determine the success of paraprofessional recruitment programs, as specified. This bill would instead require that the evaluation be conducted once every 5 years, to be completed with existing resources. The bill would require, by January 1 of each year in which an evaluation is conducted, commencing with January 1, 2009, the commission to submit the completed evaluation to the Governor and the education policy and fiscal committees of the Assembly and Senate.

(4) The act expresses the intent of the Legislature that in each fiscal year funding for the California School Paraprofessional Teacher Training Program be allocated to the Commission on Teacher Credentialing for grants to school districts. The act limits grants to school districts to $3,000 per program participant per year, and makes funding for the grants contingent upon an appropriation in the annual Budget Act. This bill would increase the limit on grants per paraprofessional per year to $3,500.

The people of the State of California do enact as follows:
