

**Commission on Teacher Credentialing
Common Standards
1997**

STANDARD 1 EDUCATION LEADERSHIP

The institution (faculty, dean/director and institutional administration) articulates and supports a vision for the preparation of professional educators. All professional preparation programs are organized, governed, and coordinated with the active involvement of credential program faculty. Institutional leadership fosters cohesiveness in management; delegates responsibility and authority appropriately; resolves each professional preparation program's administrative needs as promptly as feasible; and represents the interests of each program in the institution, the education profession, and the school community.

STANDARD 2 RESOURCES

Sufficient resources are consistently allocated for the effective operation credential preparation program, to enable it to be effective in coordination, advising, curriculum, instruction, and field experiences. Library and media computer facilities, and support personnel, among others, are adequate.

STANDARD 3 FACULTY

Qualified persons are hired and assigned to teach all courses and supervise all field experiences in each credential preparation program. Faculty reflect and are knowledgeable about cultural, ethnic, and gender diversity. The institution provides support for faculty development, and recognizes and rewards outstanding teaching. The institution regularly evaluates the performance of course instructors and field supervisors, and retains in credential programs only those individuals who are consistently effective.

STANDARD 4 EVALUATION

The institution regularly involves program participants, graduates, and local practitioners in a comprehensive evaluation of the quality of courses and field experiences, which leads to substantive improvements in each credential preparation program, as needed.

Meaningful opportunities are provided for professional practitioners and diverse community members to become involved in program design, development and evaluation activities.

STANDARD 5 ADMISSION

In each professional preparation program, candidates are admitted on the basis of well defined admission criteria and procedures (including all Commission-adopted admission requirements) that utilize multiple measures. The admission of students from a diverse population is encouraged. The institution determines that candidates meet high academic standards, as evidenced by appropriate measures of academic achievement, and demonstrate strong potential for professional success in schools, as evidenced by appropriate measures of personal characteristics and prior experience.

STANDARD 6 ADVICE AND ASSISTANCE

Qualified members of the institution's staff are assigned and available to advise candidates about their academic, professional and personal development, as the need arises, and to assist in their professional placement. Adequate information is readily available to guide each candidate's attainment of all program and credential requirements. The institution assists candidates who need special assistance, and retains in each program only those candidates who are suited for entry or advancement in the education profession.

STANDARD 7 SCHOOL COLLABORATION

For each credential preparation program, the institution collaborates with local school personnel in selecting suitable school sites and effective clinical personnel for guiding candidates through a planned sequence of fieldwork/clinical experiences that is based on a well developed rationale.

STANDARD 8 DISTRICT FIELD SUPERVISORS

Each district-employed field experience supervisor is carefully selected, trained in supervision, oriented to the supervisory role, and certified and experienced in either teaching the subject(s) of the class or performing the services authorized by the credential. District supervisors and supervisory activities are appropriately evaluated, recognized and rewarded by the institution.
