

California Teachers: Prepared in States Other than California September 2010

In 2008-2009 about 2,200 California teaching credentials were issued to teachers prepared in states other than California.

Arizona, New York, Texas, Michigan, Washington, Illinois, Florida, Pennsylvania, Massachusetts, and Ohio ranked top ten, in the number of credentials issued. More than 200 California teaching credentials were issued to individuals prepared in Arizona and New York and more than 100 credentials to Texas, Michigan, Washington, and Illinois. These states together accounted for more than half (54.9 percent) of the total out-of-state credentials issued in 2008-2009.

It is also interesting to note that there were credentials issued to teachers from every single state and DC.

Note: Data includes number of multiple subject, single subject, and education specialist credentials (initial issuance only). Data does not include Out-of-Country credentials.
