

COMMISSION FOR TEACHER PREPARATION AND LICENSING

OFFICE OF THE EXECUTIVE SECRETARY

20 O STREET

SACRAMENTO, CALIFORNIA 95814

(916) 445-0184

ATSS 485-0184

10 March 1980

79-8047

TO: Deans and Directors of Teacher Education

FROM: Peter L. LoPresti, Executive Secretary

SUBJECT: Revised Credential Program Manuals

Please find attached two copies of each of the Commission's recently revised credential program manuals. One copy is intended for the dean or director, and one for the program coordinator. The manuals that have been revised and which are included are the following:

Multiple and Single Subjects	Administrative Services
Multiple and Single Subjects -	Library Services
Bilingual Emphasis	Health Services
Early Childhood Specialist	Clinical Rehabilitative Services
Reading Specialist	Language, Speech & Hearing/Audiology
Special Education Specialist	Orientation and Mobility
Health Science Specialist	Pupil Personnel Services/School Psychologist
Bilingual Crosscultural Spec.	Designated Subjects

The manuals that are currently in the process of revision are:

Mathematics Specialist	Internship Programs
Agricultural Specialist	Experimental Programs

The revised manuals were shared with institutions in draft form at the two regional workshops held at Mills College January 17-18, and CSU, Los Angeles January 28-29. The latest version remains faithful to the draft. Obvious omissions and errors have been rectified, and explanatory detail provided to clarify the intent of certain documentation requirements.

As you will note, the competency section of the manuals remain virtually untouched. We are beginning to set up the mechanism for revising that section of the manuals. Such revision will be accomplished with substantial field input. I will be in touch with you, as our plans progress.

I hope you will find the new manuals useful and conducive to a more efficient operation and timely enough to facilitate the revision of your program documents in accordance with the schedule described in my coded correspondence 79-8043 of February 27, 1980. Should you wish to communicate with us on the manuals, please contact Dr. Cedric Busette, Chief, Office of Programs. His telephone number is (916) 445-8097.
