EXECUTIVE SUMMARY

College and University Recommendations

Table 1 (Summary) on page 7 shows that during the period from July 1, 1998 to June 30, 1999, California institutions of higher education (IHEs) recommended individuals for a total of 19,451 credentials in the following areas:

- 12,140 Multiple Subject Teaching Credentials, which are generally used for service in elementary school classrooms;
- 5,114 Single Subject Teaching Credentials generally used for service in middle school and high school classes; and
- 2,197 Special Education Teaching Credentials for service in special day classes.

Table 1 (Summary) breaks down the IHE credential recommendations by the numbers of individuals who had not previously held any type of certification in comparison to those who had previously held another type of certification such as an emergency permit or a credential in a different area. For example, Summary Table 1 shows that, in 1998-99, among the 19,451 individuals recommended for credentials, only 4,262 were applying for their first credentials. Over 15,000 had previously held certification which authorized them to serve in classrooms. These numbers show that while colleges and universities continued to provide traditional preparation that occurs prior to a credential candidate's service in a classroom, institutions also responded to the increased hiring of emergency teachers by enabling many thousands of these underqualified teachers to earn teaching credentials.

For the period from July 1, 1998 to June 30, 1999, Table 1 shows how many recommendations for each type of teaching credential were submitted by each institution and campus in California. This table confirms that a total of 75 institutions prepared teachers for self-contained classrooms (Multiple Subject Teaching Credentials) in 1998-99.

School District Recommendations

Table 2 on pages 11 shows that districts with approved District Intern Programs recommended a total of 488 teachers for professional clear credentials in 1998-99, including 58 Single Subject and 434 Multiple Subject Teaching Credentials. Los Angeles Unified School District added the Education Specialist Teaching Credential Program and recommended 16 interns for such professional clear credentials.

Teachers Prepared Outside of California

Teachers who completed preparation programs outside the state and obtained California credentials amounted to 4,216 in 1998-99 as shown in Table 3 on page 13. Among that number, 2,223 earned Multiple Subject Teaching Credentials, 1,634 received Single Subject Credentials and 359 were issued Special Education Credentials. The Commission anticipates that recent comparability findings pursuant to AB 1620 (Scott, Chapter 381,

Statutes of 1999), will lead to increased issuance of credentials to out-of-state applicants in the months and years to come.

Percentages of Each Type of Document Issued

Table 4 on pages 14 and 15 compares the numbers of emergency permits and preliminary or clear teaching credentials issued with authorizations in the area of multiple subject teaching, each of the single subject areas and each of the special education instruction areas.

Often, the number of emergency permits exceeds the number of credentials issued in each of the time periods reviewed for this report. However, it is important to note that no inference may be made regarding the shortage or surplus of teachers for specific credential areas as information was not available regarding the numbers of teaching positions in each credential area, the numbers of credential holders currently serving in schools, or the actual availability of newly-credentialed teachers for vacant positions in schools.

Teachers Serving on Emergency Permits and Waivers

Table 5 on pages 16 provides information regarding the districts that employed 20 percent or more of their staffs on emergency permits and credential waivers in 1998-99. Districts that utilized those documents for more than one hundred individuals are listed in bold type. The data in Table 5 indicate that the districts that are using emergency permits and waivers most frequently are in rural and inner-city areas.

Teacher Licensure Documents Requested by Employers

Table 6 on pages 19 details the types of teacher licensure documents that were requested by local employers and restricted to service with the employer during 1998-99. Such documents include university internship credentials, district internship certificates, pre-internship certificates, emergency permits and credential waivers. The table also identifies the county and district of employment, the specific credential areas (e.g. Single Subject, Education Specialist, etc.) and the subject (e.g. Mathematics, Mild/Moderate Disabilities, etc.). There were a total of 42,839 such documents issued in 1998-99.

In conjunction with the data reported above, these numbers indicate that the great majority of credential candidates who enter accredited programs of professional preparation either work as emergency teachers *before* they begin their preparation, or obtain emergency permits *during* their training. Much smaller numbers of new teachers complete their initial supervised preparation *before* serving as certificated teachers in schools.

Data from the 1998-99 Annual Report on Emergency Permits and Credential Waivers showed that, statewide, 12 percent of teachers served on emergency permits and 1 percent served on waivers.

TEACHERS MEETING STANDARDS FOR PROFESSIONAL CERTIFICATION IN CALIFORNIA: SECOND ANNUAL REPORT

This report is provided in response to Assembly Bill 471 (Scott, Chapter 381, Statutes of 1999) signed by Governor Davis effective January 1, 2000. This law requires that the California Commission on Teacher Credentialing report to the Governor and the Legislature each year on the number of teachers who received credentials, certificates, permits and waivers. The first report pursuant to this law was published in early 2000 and presented the necessary data for the reporting period of 1997-98 and the first half-year of 1998-99. This report presents the full year reporting for 1998-99.

Under this legislation, Education Code Section 44225.6 requires the Commission to report the following information:

- (1) The number of individuals recommended for credentials by institutions of higher education (presented in Table 1);
- (2) The number of individuals recommended by school districts operating district internship programs (presented in Table 2);
- (3) The number of individuals receiving initial credentials based on programs completed outside of California (presented in Table 3);
- (4) The number of individuals serving in classrooms on the basis of university internships, district internships, pre-internships, emergency permits or credential waivers by subject matter, county, and school district (presented in complete detail in Table 6); and
- (5) The specific subjects and teaching areas in which there are sufficient numbers of new holders of credentials to fill the positions currently held by individuals with emergency permits (presented in Table 4).

The statute also requires the Commission to make this report available to school districts and county offices of education to assist them in the recruitment of credentialed teachers.

Time Period of Data Provided

This report provides the required data for the reporting period of the full 1998-99 school year. Section 80440(c) of Title 5 of the California Code of Regulations allows the Commission to honor the requested issuance date of a credential provided that the application is submitted to the Commission no more than four months following that date. Further, Section 80443 allows the Commission 75 working days to process the application after it is received. For this reason, the school year of 1998-99 is the latest year for which complete reporting of the processed applications is available.

TABLE 1 (SUMMARY)
Multiple Subject, Single Subject, and Special Education Teaching Credentials
Issued July 1, 1998 to June 30, 1999
Number of First Time/New Type Documents Issued Upon Recommendation

This table summarizes the numbers of documents issued between July 1, 1998 and June 30, 1999 upon the recommendation of a California institution with a Commission-approved credential program. The numbers include individuals who obtained their initial certification (First Time) and individuals who previously held another type of certification such as an emergency permit or a credential in a different area (New Type). The numbers are broken down by the credential area and the type of recommending institution.

	Single Subject	Multiple Subject	Special Education	Total

TABLE 1
Multiple Subject, Single Subject and Special Education Teaching Credentials
Issued July 1, 1998 to June 30, 1999
Number of First Time/New Type Documents Issued Upon Recommendation

The following table lists the number of Multiple Subject, Single Subject and Special Education Teaching Credentials issued with effective dates between July 1, 1998 and June 30, 1999 upon the recommendation of a California institution of higher education with a Commission-approved program. The numbers include individuals who received their initial California credential (first time) and those who previously held a different type of document such as an emergency permit (new type). This report includes individuals who received internship, preliminary and professional clear credentials.

Table 4
Comparison of Emergency Permits and Credentials in Each Teaching Specialty Issued July 1, 1998 to June 30, 1999

This table compares the number of teaching credentials to emergency permits issued for multiple subject, single subject and special education authorizations. The credential numbers include documents for individuals who were recommended by a California institution and individuals who completed a credential program outside of California. These data are presented for comparison purposes only. No inference may be made regarding the shortage or surplus of teachers for specific credential areas as information was not available regarding the numbers of teaching positions in each credential area, numbers of credential holders currently serving in schools, or the availability of newly credentialed teachers for vacant positions in schools.

Table 6
Certificates, Permits and Waivers Requested by Counties and Agencies:
July 1, 1998 to June 30, 1999

This table provides information on the number of University Internships, District Internships, Emergency Permits and Credential Waivers issued to each county and district. The first two columns identify the county and agency. The "Agency Total" column provides the total number of each type of document and the grand total of documents issued for each agency. The "Credential Title" column breaks down the documents by document type (e.g. University Internship, Emergency Permit, etc.) and specific credential type (e.g. Multiple Subject, Education Specialist, etc.) for each agency. The "Cred Total" column identifies the total number of documents for each credential type. The "Subject" column breaks down the subjects listed on each credential type and the final column provides the number of documents for each subject that were issued for the employer.

Notes: CLAD = Crosscultural, Language and Academic Development authorization for teaching English as a Second Language and specialized academic instruction for limited English proficient (LEP) students.

BCLAD = Bilingual, Crosscultural, Language and Academic Development for teaching LEP students in the primary language.

LSHA = Language, Speech, Hearing & Audiology

Subject total may be higher than credential total as some individuals earned more than one authorization.

Appendix A

Types of Teaching Credentials in this Report

This report provides information regarding certification documents obtained by individuals who have completed preparation programs as well as licensing documents available to individuals who are in the process of completing such programs. It is helpful to understand the requirements for each type of certification. Below is a list of the requirements for a Professional Clear Teaching Credential. Requirements for the other types of documents referenced in this report are provided subsequently.

Professional Clear Teaching Credentials

To earn a Professional Clear Multiple or Single Subject Teaching Credential through a California postsecondary institution, the candidate must complete the following current requirements:

- 1) A baccalaureate or higher degree from a regionally accredited college or university;
- 2) Passage of the California Basic Educational Skills Test (CBEST);
- 3) Verification of subject matter competence by passage of an appropriate examination(s) or completion of a program of subject matter coursework through an institution with an approved program;
- 4) A course or examination in the principles of the United States Constitution;
- 5) A professional teacher preparation program including student teaching;
- 6) A course in reading instruction as a part of developing English language skills;
- 7) Passage of the Reading Instruction Competence Assessment (RICA) for the Multiple Subject Teaching Credential;
- 8) A fifth year of study consisting of 30 semester units beyond the bachelor's degree in a defined field of study designed to improve the teacher's competence and skills;
- 9) A course in health education including nutrition, the physiological and sociological effects of abuse of alcohol and narcotics and the use of tobacco, and training in cardiopulmonary resuscitation;
- 10) Coursework in the laws, methods and requirements for providing educational opportunities to individuals with exceptional needs in the regular classroom; and
- 11) Coursework in computer education which includes general and specialized skills in the use of computers in educational settings.

In Senate Bill 2042 (Alpert, Mazzone), Chapter 548, Statutes of 1998, the Legislature recently acted to streamline and consolidate this fragmented list of current credential requirements. As a consequence, the fifth year of study is being replaced by intensive induction programs such as BTSA, and the last three items are being folded into preparation and induction programs by the Commission. Meanwhile, prospective teachers receive preliminary teaching credentials as soon as they complete the first seven requirements above.

A candidate for the Professional Clear Education Specialist Instruction Credential must complete the following requirements:

- 1) requirements 1 through 7, and 9 and 11 described above;
- 2) an individualized induction plan designed by the teacher in collaboration with the employing agency and California college or university with an approved program; and
- 3) two years of successful experience in a public school (or private school of equivalent status).

Internship Teaching Certificates, Emergency Permits and Credential Waivers

Education Code Section 44225.6 requires the Commission to provide data on each of the documents available for individuals to serve as teachers prior to completion of a full preparation program. Those documents include University Internship Credentials, District Internship Certificates, Pre-Intern Certificates, Emergency Permits and Credential Waivers. Following is information regarding each of those licensure documents, including the requirements for each.

University Internship Credentials

University Internship Credentials are issued to individuals who have enrolled in professionally accredited internship programs. These one- to two-year programs are administered by California colleges and universities in partnership with local school districts, and are designed to provide participants with classroom experience while they complete the coursework requirements for the preliminary or professional clear credential. University Internship Credentials authorize the holder to serve, under the supervision of an accredited institution and the holder's employer, in the area or subject listed on the credential.

Requirements for University Internship Credentials

- (1) Completion of a baccalaureate or higher degree from a regionally accredited institution;
- (2) Verification of passage of the California Basic Educational Skills Test (CBEST);
- (3) Completion of a U.S. Constitution course or examination;
- (4) Verification of subject matter competence by passage of the Commission-approved subject examinations for the subject(s) to be listed on the

- document or completion of a minimum of 4/5ths of the subject-matter program; and
- (5) Entry into a professionally accredited internship program.

The accredited internship *is* the professional preparation program for the teaching intern who qualifies for a Professional Clear Teaching Credential by completing the other requirements listed on page 2.

District Internship Certificates

Districts that choose to offer a district internship program develop a professional development plan in consultation with an accredited institution that offers a teacher preparation program. The District Internship Certificate is issued for two years. During this two-year period the intern is required to complete the training, in-service, professional development and experience requirements as specified in the professional development plan. At the end of the two-year issuance of the certificate the district's governing board recommends to the Commission that the district intern be granted a professional clear teaching credential, provided all requirements have been met.

The requirements for initial issuance of a District Intern Certificate are:

- (1) Completion of a baccalaureate or higher degree from a regionally accredited institution;
- (2) Verification of passage of the CBEST;
- (3) For the single subject authorization: a major or minor in the subject to be listed and (1) successful completion of the appropriate subject matter preparation program, or (2) passage of the Commission-approved subject matter examinations for the subject(s) to be listed.
For the multiple subject authorization: appropriate subject matter coursework and (1) successful completion of the appropriate subject matter preparation program, or (2) passage of the Praxis series Multiple Subjects Assessment for Teachers (MSAT).
- (4) Statement completed by the governing board of the employing agency verifying that the District Intern will be assisted and guided throughout the training period by a certificated employee.

Pre-Intern Certificates

The Pre-Intern Teaching Program seeks to improve the effectiveness and retention of new teachers who have little or no experience or preparation and have not met the subject-matter competence requirement for entry into a credential program. The goal is to eventually replace the emergency permit system with funded formalized preparation for entry into internship programs or regular teacher preparation programs. The Pre-Internship Program focuses on

subject matter preparation and development of basic skills in classroom management, student discipline and teaching methodologies.

The Pre-Intern Certificate is only available to participants in approved pre-internship programs conducted by school districts and county offices of education based on grants to fund these programs by the State of California. The certificate authorizes service equivalent to that authorized by the related emergency permit.

The Pre-Intern Teaching Certificate is not available to individuals who have completed subject matter requirements for a teacher preparation program or individuals who have completed student teaching in an approved credential program.

General Requirements for the Pre-Intern Certificate

The applicant for the Pre-Intern Certificate must:

- (1) possess a baccalaureate or higher degree from a regionally accredited college or university; and
- (2) verify passage of the CBEST.

Specific Requirements for the Pre-Intern Certificate

Multiple Subject Teaching

The Multiple Subject Pre-Intern Teaching Certificate authorizes the holder to teach general subjects (self-contained) classes, such as those generally found in elementary schools. To qualify for this certificate must:

- (1) demonstrate intent to take the MSAT examination during the valid period of the certificate; and
- (2) verify the successful completion of at least 10 semester units of coursework at a regionally accredited institution with a grade of “C” or better in each of at least four of the following subject areas or at least 10 semester units of coursework in each of three subject areas and an additional 10 semester units in a combination of two of the remaining subject areas. The subject areas are as follows: language studies, history, literature, humanities, mathematics, the arts, science, physical education, social science and human development.

Single Subject Teaching

The Single Subject Pre-Intern Teaching Certificate authorizes the holder to teach the subject(s) listed on the certificate in departmentalized classes such as those normally found in high schools. Currently these certificates are available only in the subjects of mathematics, science and English. To qualify for this certificate the applicant must:

- (1) demonstrate intent to take the Commission-required examination(s) to verify knowledge of the subject(s) listed on the certificate during the valid period of the certificate; and
- (2) verify the successful completion of at least 18 semester units, or nine upper-division units of coursework completed at a regionally accredited

institution with a grade of “C” or better in each subject to be listed on the certificate.

Emergency Permits

Emergency permits may be requested by employers when they are unable to locate enough fully credentialed teachers to meet employment needs. These permits are valid for one year and authorize the holder to provide the same service as a full teaching credential. Employers applying on behalf of individuals for any of these permits must verify that those individuals have met several requirements before they may receive the permit. Some of these requirements are general to all types of emergency permits, while others are specific to the type of permit requested, as described below. All emergency permits require the holder to complete specific requirements while he or she holds the permit in order to be eligible for a reissuance of the emergency permit for another year. Emergency permits may be renewed for a maximum of five years.

General Requirements for All Emergency Permits

The applicant must verify that he or she possesses a baccalaureate or higher degree from a regionally accredited college or university, has passed the CBEST and has completed the specific requirements for the permit requested, as described next.

All employing agencies requesting emergency permits are required to file a Declaration of Need for Fully Qualified Educators. This Declaration is submitted each school year prior to the Commission issuing emergency permits to individuals employed by the agency. The employing agency states on the Declaration of Need its estimate of need for each type of emergency permit. The Declaration must be approved in a public meeting of the agency’s governing board.

As a condition for employing emergency permit holders, the district must agree to provide permit holders with orientation, guidance and assistance including curriculum training, and effective techniques of classroom instruction and management. This training should occur prior to the individual being placed in a classroom. The emergency permit regulations also require the employing district to assign an experienced educator to guide and assist the emergency permit holder. This experienced educator must have at least three years of full-time classroom teaching experience.

Emergency permits are restricted to the district requesting the permit. An individual may change districts at the employing agency’s discretion.

Specific Requirements for Emergency Permits

In order to qualify for an emergency permit, an applicant must meet the general requirements listed above and requirements specific to the type of permit requested. Specific requirements are listed below by permit type:

Multiple Subject Emergency Teaching Permit

- (1) The applicant must submit a statement indicating intent to complete requirements for the related credential in a professionally accredited Multiple Subject Teacher Preparation Program;
- (2) The applicant must verify one of the following:
 - (a) passage of the MSAT; or
 - (b) verification of at least 10 semester units of college coursework in each of any four of the following subject areas: Language Studies, Literature, History, Social Science, Mathematics, Science, Humanities, Art, Physical Education and Human Development.

Single Subject Emergency Teaching Permit

- (1) The applicant must submit a statement indicating intent to complete requirements for the related credential in a professionally accredited Single Subject Teacher Preparation Program;
- (2) The applicant must verify one of the following:
 - (a) passage of the examination(s) approved by the Commission to verify appropriate knowledge of the subject to be listed on the permit, or
 - (b) verification of at least 18 semester units of college coursework in the subject to be listed on the permit.

Emergency Education Specialist Instruction Permit

- (1) The applicant must submit a statement indicating intent to complete requirements for the related credential in a professionally accredited Education Specialist Teacher Preparation Program in the area of specialization to be listed on the permit; and
- (2) The applicant must verify one of the following:
 - (a) possession of a valid basic California teaching credential, or
 - (b) possession or eligibility for an out-of-state special education credential requiring a baccalaureate degree and preparation program, or
 - (c) a minimum of three years successful classroom experience working with special education students in a public or state-certified school, or
 - (d) a minimum of nine semester units in teacher preparation coursework. This coursework must include at least one special education course.

Credential Waivers

Credential waivers are utilized by county offices of education, school districts and non-public schools to fill certificated positions when individuals holding credentials or permits are unavailable. When an employing agency reviews its staffing needs and recruits for various positions, it first must attempt to fill a

position with an appropriately credentialed employee. If a credentialed individual is not available, the employer must explore the feasibility of employing an individual in an internship capacity. If a university or district internship program is not available, the employer may request an emergency permit. When the employer is unable to find an individual who qualifies for the emergency permit, it then requests a credential waiver for the best qualified applicant available.

Credential waivers provide additional time for individuals to complete credential requirements or provide employing agencies with time to find an individual who either holds an appropriate credential or qualifies under one of the available assignment options. Waivers are generally issued for one calendar year and the individual on the waiver must demonstrate progress by completing an examination or coursework toward the credential before the employer may request a subsequent waiver.

General Criteria For All Waiver Requests

Waiver requests must meet all of the following criteria:

- *Recruitment:* There is acceptable evidence that the employer has verified that they have attempted to recruit a fully credentialed individual for this assignment.
- *Credential Goal:* There is evidence that the waiver request is in a subject matter area known to have substantial shortages of credentialed personnel. This is determined by a periodic review of the number of waiver requests and emergency permits issued during the prior year. Currently, the established shortage areas are: special education including the resource setting, speech therapy, education for limited English proficient students, math and science instruction, reading instruction, driver education and training, library media services, and multiple subject instruction.
- *Qualifications:* There is acceptable evidence that the employing agency has provided sufficient information to explain why the applicant is the best available person for the position. Such information may include verification of the completion of a degree, CBEST, part or all of a professional preparation program, or related experience.
- *Assignment:* There is evidence that this person has not been identified as misassigned in this assignment by the employing agency, or if the person has been identified as misassigned, there is evidence that action other than requesting a waiver was taken as a result of that misassignment.
- *Commitment:* There is acceptable evidence that the individual will have ongoing support and assistance provided by district personnel who hold a credential in the area of the waiver.
