Unit - Refers to the college, school, department, or other administrative body in colleges, universities, school districts, county offices of education, or other organizations with the responsibility for managing and coordinating all aspects of Commission-approved educator preparation programs offered for the initial or advanced preparation of educators, regardless of where these programs are administratively housed in an institution.

Unit Leadership - Refers to individuals designated by the institution to be responsible for administering aspects of all the Commission-approved educator preparation programs offered by the institution, and who have been granted by the institution the authority to manage the human and fiscal resources needed to meet all educator preparation program goals. The program authority is usually the dean at an IHE, or a director of teacher education, district superintendent or County Office of Education Superintendent or designee. (See also Authority)

Visionary Leadership – The actions taken by the school leader to develop and articulate a vision of teaching and learning for the school consistent with the LEA’s overall vision and goals, to develop a shared commitment to the vision among all members of the school community, and to implement the vision.
Waivers – There are two types of waivers: Short Term and Variable Term. Short term waivers may be approved at the local level to provide the employing agency with one semester or less to address unanticipated, immediate, short-term organizational needs by assigning only individuals who hold basic teaching credentials to teach outside their credentialed authorizations, with the consent of the teacher. They may be issued once to any individual teacher and only once for a given class. Variable term waivers are reviewed by Commission staff and acted upon by the Commission at a regularly scheduled meeting. They provide the employing agency up to one year for a specific period of time set by the Commission to: 1) allow individuals additional time to complete a credential requirement, 2) facilitate assignment in school programs addressing issues of educational reform, 3) allow geographically isolated regions with severely limited ability to develop personnel time to hire and develop personnel, or 4) obtain waivers for situations when all other hiring efforts have been exhausted.

Withdrawn Program Approval Status – The situation whereby a program sponsor permanently discontinues a previously-approved program and can only prepare and recommend candidates already enrolled in the program. A withdrawn program must complete the Initial Program Review process if the institution wants to offer that type of educator preparation program again.
