Responses Representing Organizational Opinions in Opposition

• Public Advocates, Inc., Liz Guillen, Policy Advocate

  Comment – I agree with the Proposed Title 5 regulations concerning verification of search by agency

  I do not agree with the proposed Title 5 regulations concerning parental notification.

  Commission Staff Response – At the August 2004 Commission meeting, the Commission considered an option to notify parents after four weeks that the teacher is not fully credentialed. The Commission decided not to take action on that option.

Responses Representing Personal Opinions in Opposition

• Philip B. Silverstein, Teacher, Burbank Unified School District

  Comment – There are times when fully credentialed teachers are unavailable. It is necessary to have emergency credentials ... until more qualified personnel can be found or permanent credential can be earned.

  Commission Staff Response – The teacher requirements are the same for both the Short-Term Staff Permit and the Provisional Internship Permit as the current emergency permit. The initial hiring of a teacher on the proposed permits should be the same as the emergency. A teacher hired on a Provisional Internship Permit will be able to earn and NCLB compliant credential within one to two years rather than the current 5 years on an emergency permit.

• Thomas W. Wilkins, Classroom teacher, Burbank Unified School District

  Comment – Lack of qualified teachers.

  Commission Staff Response – The purpose of the two proposed documents will require the permit holders to become qualified teachers in less time then the current emergency permit.

• Christine Hartman, teacher, Burbank Unified School District

  Comment – Lack of credentialed teachers. Also, some teachers are interns or taking night classes to complete a credential. It is costly to work as an unpaid student teacher.
Commission Staff Response - The purpose of the two proposed documents will require the permit holders to become qualified teachers in less time than the current emergency permit. The proposed documents do not make any changes to the internship credentials or to student teaching.

- Mary Margaret Kljunak, Principal Burbank Unified School District

Comment - In a perfect world, everyone would have a credential. But there are not qualified people available, especially when someone is out for 6-8 weeks or if it is a last minute vacancy.

Commission Staff Response - The proposed Short-Term Staff Permit was developed to meet the type of situation Ms. Kljunak describes. The Short-Term Staff Permit will allow an employing agency the ability to place a teacher with subject matter to fill-in at the last minute.

- Jennifer Meglemre, teacher, Burbank Unified School District

Comment - As it is, we cannot find enough qualified teachers to fill existing positions.

Commission Staff Response - The purpose of the two proposed documents will require the permit holders to become qualified teachers in less time than the current emergency permit.

- Sue Kyle, Counselor, Burbank Unified School District

Comment - While our District has made a consistent effort to staff our schools with only credentialed teachers, from time to time it is essential that we staff with emergency permit teachers. This is an unavoidable fact despite our District's conscientious effort.

Commission Staff Response - The proposed documents are to meet the need of an employing agency when a suitable credentialed teacher is unavailable. The teacher requirements for both the Short-Term Staff Permit and the Provisional Internship Permit are the same as the current emergency permit.

- Claudia Lowe, Educational Strategist and Consultant, LDCAN – Learning Disabilities Collaboration Action Network

Comment - Specific notification to parents – Training and experience in 504 plans and IEPs.

Commission Staff Response - At the August 2004 Commission meeting, one of the options the Commission considered was to notify parents after four weeks that the
teacher has been employed on a Provisional Internship Permit. The Commission chose instead to require that public notice be in the form of a copy of an employing agency's governing board's minutes. Training in 504 plans and IEPs should be included as a part of the employing agency's orientation, guidance and assistance that is provided to each Provisional Internship Permit holder.

Proposed Language Change

- Janet Canning, Consultant, California Department of Education

Comment -

Issue – The proposed regulations do not include related service personnel.

Action - I want to propose an amendment that would include related service personnel. See proposed language below:

Amend proposed CCR 80021(q)(3)(C) by adding: “...(C) For the Education Specialist Provisional Internship Permit, either (A) or (B) above or verify a minimum of three years of successful full-time classroom experience, or the equivalent in part-time experience, working with special education students or verify a minimum of nine semester units of course work in special education or in a combination of special education and regular education that are appropriate to special education or regular education teaching credential or verify three years of experience or twelve semester units of course work in rehabilitative, communicative, consultive, behavioral, assistive technology, or related services area of specialization not requiring a state or professional license.”

Commission Staff Comment – The proposed Provisional Internship Permit structure is based on the permit holder taking and passing the subject matter requirement for the single subject, multiple subject or education specialist credentials. The related service personnel do not have a subject matter requirement, therefore the proposed permit would not be appropriate for related service personnel. The Commission does not currently issue emergency permits for related service personnel such as Clinical Rehabilitative Services Credential. The only method available to an employing agency to employ an individual in a Clinical Rehabilitative Services position is on a credential waiver. If the Commission wishes to consider developing a Clinical Rehabilitative Services for unanticipated staffing needs, staff can return at a future meeting with an agenda item.

RE: Support Proposed Title 5 Regulations on Multiple Subject, Single Subject or Education Specialist Short-Term Staff Permit and Multiple Subject, Single Subject or Education Specialist Provisional Internship Permit

Dear Chair Madkins:

I am writing in order to strongly support the adoption of the Provisional Internship and Short Term Staff Permits. I understand that the development of these staffing alternatives entailed extensive input from stakeholders across the state in collaboration with the Commission Staff. As a result, the two authorizations would provide school districts with the means to ensure a high degree of accountability while providing continuity in the staffing of classrooms when a fully qualified teacher is not available. Additionally, the design of the Provisional Internship Permit provides a pathway towards compliance with the federal No Child Left Behind Act (NCLB).

Los Angeles Unified School District is committed to the provision of highly qualified teachers, for its students and has made significant gains in this area. Only three years ago 23.1% of the District’s teaching force was composed of individuals on emergency permits, pre-intern certificates, and waivers. This fall, that percentage decreased to only 1.9% of the total workforce. This district wide initiative included an aggressive recruitment effort as well as the counseling and preparation of existing staff to become compliant with the federal mandate.

However, in spite of these dramatic successes, the District is still unable to fully staff long-term substitute positions as well as vacancies in the shortage areas of mathematics, science, and special education with sufficient numbers of credentialed or intern-ready teachers.

Thus, I urge the Commission to adopt the Provisional Internship and Short-Term Permits in order to avoid staffing classrooms with a series of substitutes, a situation that could seriously jeopardize student achievement.

Sincerely,
