Program Approval

Introduction

This agenda item presents two elementary subject matter programs submitted by institutions of higher education for approval.

Background

The Commission regularly receives recommendations for program approval from subject matter review panels. The content specific subject matter standards are closely aligned to the K-12 academic content standards. These subject matter programs are usually undergraduate courses of study completed before candidates begin teacher preparation programs. However, the two programs may be completed concurrently.

Subject Matter Program Review Procedures

Subject matter educators review the submitting institution's response to the preconditions. The preconditions are based on both state laws and Commission policies, and address the minimum unit and content area requirements. The institution's responses to the Commission's subject matter program standards are reviewed by a team of two or more subject matter educators to determine if the program meets the program standards, including the subject matter requirements (SMRs). The SMRs are the content knowledge required to be covered in the program and are aligned to the K-12 content standards that the candidate will be expected to know. If the program does not meet the standards, the institution is given an explanation of the findings. The institution may then submit the additional information requested. Once reviewers determine that the program proposal provides a convincing and adequate body of evidence to meet the Commission's adopted subject matter program standards, the program is recommended to the Commission for approval. After subject matter program approval is granted by the Commission, the institution may admit candidates to the approved subject matter program. Graduates of a Commission approved subject matter preparation program meet the Commission's subject matter requirement and are not required to take the subject matter examination (California Subject Examinations for Teachers).

Summary Information on the Proposed Elementary Subject Matter Program

California State University, Bakersfield

California State University, Bakersfield's Elementary Subject Matter (ESM) program will provide Liberal Studies majors the opportunity to demonstrate mastery of ESM program requirements while they move through their Liberal Studies undergraduate major. The ESM program will be delivered through a collaborative and interdisciplinary partnership with the School of Social Sciences and Education, the School of Arts and Humanities, the School of Natural Sciences, Mathematics, and Engineering, and the School of Business and Public Administration. The faculty and staff of all of the departments who offer courses in the program collaborate on all of the course content and syllabi to ensure that each of the ESM program standards is

identified, practiced, and assessed leading to student mastery. Candidates will be carefully and regularly advised on how to complete the required curriculum by full-time student services professionals in the Liberal Studies program. The ESM program meets the minimum of 84 semester units and candidates choose a concentration of study in one of the four content areas. California State University, Bakersfield's ESM program ensures the quality of candidates' undergraduate experiences as they gain competence and content in order to deliver topically relevant and culturally responsive 21st century learning in their future classrooms.

San Diego State University

San Diego State University's (SDSU) Elementary Subject Matter (ESM) program will provide Liberal Studies majors the opportunity to demonstrate mastery of the ESM program requirements while they move through their Liberal Studies undergraduate major. The ESM program will be delivered through a collaborative and interdisciplinary partnership with the College of Arts and Letters, College of Professional Studies and Fine Arts, College of Health and Human Services, and College of Sciences. The faculty and staff of all of the colleges and departments who offer courses in the Liberal Studies program collaborate on all of the course content and syllabi in order to ensure that each of the ESM program standards is identified, practiced, and assessed leading to student mastery. Candidates will be carefully and regularly advised on how to complete the required curriculum by full-time student services professionals in the College of Education's Office of Student Services. The SDSU Liberal Studies program has two designated Liberal Studies advisors. The ESM program meets the minimum of 84 semester units and candidates choose a concentration of study in one of the following content areas: Literacy, Mathematics, and Science. In addition, there will be Integrated Teacher Education Program (ITEP) options. San Diego State University's ESM program ensures the quality of candidates' undergraduate experiences as they gain competence and content in order to deliver relevant 21st century learning in their future classrooms.
