Program Approval

Introduction

This agenda item presents one single subject matter program submitted by an institution of higher education for approval.

Background

The Commission regularly receives recommendations for program approval from subject matter review panels. The content specific subject matter standards are closely aligned to the K-12 academic content standards. These subject matter programs are usually undergraduate courses of study completed before candidates begin teacher preparation programs. However, the two programs may be completed concurrently.

Subject Matter Program Review Procedures

Subject matter educators review the submitting institution's response to the preconditions. The preconditions are based on both state laws and Commission policies, and address the minimum unit and content area requirements. The institution's responses to the Commission's subject matter program standards are reviewed by a team of two or more subject matter educators to determine if the program meets the program standards, including the Subject Matter Requirements (SMRs). The SMRs are the content knowledge required to be covered in the program and are aligned to the K-12 content standards that the candidate will be expected to know. If the program does not meet the standards, the institution is given an explanation of the findings. The institution may then submit the additional information requested. Once reviewers determine that the program proposal provides a convincing and adequate body of evidence to meet the Commission's adopted subject matter program standards, the program is recommended to the Commission for approval. After subject matter program approval is granted by the Commission, the institution may admit candidates to the approved subject matter program. Graduates of a Commission-approved subject matter preparation program meet the Commission's SMRs and are not required to take the subject matter examination (California Subject Examinations for Teachers).

Summary of Information on the Proposed Subject Matter Program

San Diego State University

San Diego State University's (SDSU) Social Science Subject Matter Program will provide students the opportunity to demonstrate mastery of social science SMRs while they move through their undergraduate major. The program will be interdisciplinary, including courses from nine different departments within the College of Arts and Letters and a course from the Department of Teacher Education. Students will take courses in each of the six content areas (world history, U.S. history, California history, geography, American government, and economics) as well as courses that introduce them to pedagogy. Courses within the Social Science Subject Matter Program will focus on developing conceptual knowledge, academic literacy and discipline-based

fluency, as well as exposing students to different teaching methods. Candidates will be regularly advised on how to complete the required curriculum by the program advisor. SDSU's social science program will ensure that students have the content knowledge to be successful teachers.

Staff Recommendation

Staff recommends that the Commission approve the subject matter program shown below:
Social Science Single Subject Matter Program: San Diego State University.

Removal of the Prohibition of an Education Major as a Requirement for an Education Specialist Teaching Credential or a Pupil Personnel Services Credential

Background

Prior to the signing of AB 525 (Chap. 427, Stats. 2019) an individual who held a baccalaureate degree in Education was prohibited from using that degree to satisfy the legislative requirement that the individual hold a baccalaureate degree to be eligible for a Preliminary Education Specialist teaching credential or a Pupil Personnel Services credential.

The legislative prohibition of an individual holding a baccalaureate degree in Education for the Pupil Personnel Services and the Education Specialist credentials led to the Commission adopting Preconditions that identified this legislative prohibition. The current Preconditions are shown below:

Education Specialist: [Precondition 4](#)

(4) Completion of Requirements. A college or university or school district that operates a program for the Education Specialist teaching credential shall determine, prior to recommending a candidate for the credential, that the candidate meets all legal requirements for the credential, including but not limited to: (Reference: Education Code Sections 44225(a), 44227, and 44283.2(a))

- Possession of a baccalaureate or higher degree **other than in professional education** from a regionally accredited institution
- Satisfaction of the Basic Skills Requirement
- Completion of an accredited professional preparation program
- Completion of the subject matter requirement
- Demonstration of knowledge of the principles and provisions of the Constitution of the United States
- Passage of the Reading Instruction Competence Assessment (RICA) [Passage of the RICA examination does not apply to Early Childhood Special Education Credential candidates (Reference: Section 44283.2(b)).

Pupil Personnel Services: [Precondition 1](#)

(1) Specialization Requirements. A college or university that operates a program of professional preparation shall have a curriculum that meets the requirements of (a) and one or more of

(b), (c), (d), and (e) as specified below. (Statutory basis: Title 5 California Code of Regulations, Section 80632, Article 2, Professional Preparation Programs)

(a) In order to meet the scholastic needs of school pupils with a diverse range of needs, abilities and expectations, all programs approved as preparation in pupil personnel services shall give primary emphasis to helping public school pupils to achieve academic success by emphasizing the importance of academic advising. Persons admitted to programs must have a minimum of a baccalaureate degree from an accredited college or university **in a subject other than Education.**

AB 525 removed the prohibition of the use of a baccalaureate degree in Education for both Education Specialists and Pupil Personnel Services credentials. Since the prohibition of a baccalaureate degree in Education has been removed by the legislature, effective January 1, 2020, it is appropriate to remove this prohibition from the Commission's Preconditions for these two types of credentials. Staff recommends that the amended Preconditions delete the bolded words shown above.

Staff Recommendation

Staff recommends that the Commission amend the Preconditions for the Preliminary Education Specialist teaching credentials and the Pupil Personnel Services credentials to remove the prohibition of a baccalaureate degree in Education as a requirement for these two types of credentials in order to align with the new Education Code language.

Next Steps

If the Commission removes the prohibition for an individual to hold a baccalaureate degree in Education as a requirement for the Education Specialist Teaching credentials and the Pupil Personnel Services credentials, staff will update all Standard and Precondition documents and provide the updated information to all approved preparation programs.
