TO: County Superintendents of Schools and Credential Technicians

SUBJECT: Requests from Teachers of Private Schools for
Emergency Special Education Credentials.

At the last meeting of the Commission on Special Education, several teachers and administrators of private schools told the members of the Personnel Development Committee that they and others had experienced difficulty in securing a statement of need from several county offices. The reason cited, for the county office not signing the statement of need, was that the individual was employed by a private school not listed in the Directory of State Certificated Public Schools.

If you have such a request from an individual, otherwise qualified for the Emergency Special Education credential, whose school is not listed in the Directory of State Certificated Public Schools, please contact Mr. Charles Johannsen, California State Department of Education (213) 620-4224 or Dr. Clyde Chantry, California State Department of Education (916) 445-9420.
