SUBJECT: Revised Documentation for Approved Professional Preparation
Programs

In a memorandum, dated February 27, 1980, you received information on the submission of revised documentation based on the Commission's updated documentation requirements. In that memorandum, dates were indicated for the submission of program documents according to whether the program received Standard, Conditional, or Probationary status, as a result of External Assessment. This is an update of that memorandum.

In all cases, documentation should be resubmitted by June 30 of the indicated year. For programs approved prior to 1980 and which were not evaluated by a Commission evaluation team, the date for resubmission of documentation is June 30, 1984. If such programs are scheduled to be visited by a team before 1984, the documentation will have to be submitted before the team visit.

While we are not requiring institutions to submit program changes, on an on-going basis, it is expected that programs will be performing a continuing update so as to maintain responsiveness to the changing needs of the profession.

Attached, is a schedule for the resubmission of documentation, under the Commission's revised requirements.
