

## COMMISSION ON TEACHER CREDENTIALING

812 9TH STREET  
SACRAMENTO, CA 95814-7000

April 16, 1990

CC 90-9004

TO: Deans and Coordinators of Clinical Rehabilitative Services  
Credential Programs

FROM:   
Philip A. Fitch, Ed.D., Executive Secretary

SUBJECT: Guideline Amendments for Field Work Elements of Clinical  
Rehabilitative Services Credential: Language, Speech and  
Hearing; Audiology; Special Class Authorization Program  
Manual

Commencing July 1, 1987 two revised guidelines went into effect. However, copies of the program manual distributed have not reflected changes adopted by the Commission in 1986. The revised program manual for the Clinical Rehabilitative Services Credential is enclosed. For ease of reference, the specific amendments are shown below in strikeout and underlined form in order that the Commission's changes can clearly be seen:

B3.6 At least 300 contact clock hours of clinical practice with language, speech and hearing handicapped ~~minors~~ individuals, of which at least 200 clock hours shall be performed with minors and at least 100 contact clock hours of which shall be performed in a public school or school of equivalent status. ~~The school practice shall be under the direct supervision of an individual with a credential in language, speech and hearing.~~ All clinical practice shall be supervised by properly certified individuals in language, speech and hearing disorders.

B4.72 At least 300 clock hours of clinical practice, of which at least 200 contact clock hours shall be performed with minors, at least 100 contact clock hours of which shall be performed in a public school or school of equivalent status, and at least 200 contact clock hours of which are with exceptional individuals with auditory dysfunctions. The clinical practice shall be supervised by individuals properly certified in audiology.
