Re: Approval of Addition to Title 5 Regulations, Section 80048.2, Specific Requirements for Preliminary and Clear Specialist Instruction Credential in Special Education

The Office of Administrative Law has recently approved the addition of the above listed Title 5 regulations pertaining to the Preliminary and Clear Specialist Instruction Credential in Special Education. These regulations are effective immediately.

Consistent with the attached regulations, Section 80048.2, school districts and county offices of education throughout California may begin hiring teachers in special education who have completed a professional preparation program in a specialist category comparable to a Commission-approved program, but completed outside California. Training must have included successful completion of student teaching or supervised field experience.

Employing school districts and county offices will need to inform applicants of their responsibility for completing the requirements for the Multiple or Single Subject Teaching Credential, including the student teaching requirement, within the five-year term of the preliminary credential or before another credential authorizing special education instruction will be issued. Written acknowledgement from the applicant and the employing district that applicants are so informed is required under subsection (a) (4). *The Preliminary Specialist Instruction Credential may not be renewed and the provisions will be repealed on September 30, 1992.*

Any person wishing additional information on these regulations should contact Dr. Marie Schrup at the Commission, (916) 327-2966.
