AB 1505 Assignment Flexibility, Cont.

•In order to be eligible for this flexibility, those educators must have been employed in their position at some point during the 2019-20 school year.

•These individuals *cannot* maintain the flexibility if they are:

1. Assigned to teaching a different subject; or
2. Begin teaching the same subject at a different school

10

10

What does AB 1505 flexibility mean?

This assignment flexibility protects the educators from being removed from their positions. It does not exempt the LEA from incurring a Misassignment.

- Allows educators to stay in their previously held positions
- Corrects the misassignment

When is a credentialed teacher required?

There are three things to consider when answering this question:

1. The student receives a grade or credit for the course and/or;
2. The course counts towards the required daily instructional minutes; and
3. If either of the above are true, does a credential exist that covers the assignment's subject or setting?

If the answer to the last question is "yes", then Education Code §44001 provides that if certification requirements are established, then a certificated educator is *required*.

16

Volunteers and Docents

•Volunteers and docents are welcome in classrooms, as long as they are subject to the immediate supervision and direction of certificated personnel pursuant to Education Code §§45349 & 35021.

•As well, their instruction on a subject in a classroom cannot satisfy assignment certification requirements. Misassignments depend solely on the teacher of record being appropriately certificated for the course's content.

17

The Monitoring Authority of the charter school depends upon the chartering authority:
