

# **Supplementary Authorization Guideline Book**

**April 2025**

**California Commission on Teacher  
Credentialing  
Certification Division**

*The purpose of this Guideline book is to provide information regarding the requirements to qualify for adding a supplementary authorization to a credential.*

## I. Introduction

The supplementary authorization has been in regulation since 1979. These regulations enable the holder of a Single Subject Teaching Credential to have one or more subject areas added as a supplementary authorization. In 1980, the Commission adopted Title 5 regulations to allow supplementary authorizations to be added to Multiple Subject Teaching Credentials. The intent was to provide an alternate method of adding a new teaching authorization to allow an individual to teach a class in a subject outside the area in which he or she earned a credential.

## II. Supplementary Authorizations

Supplementary authorizations allow the holder to add one or more subjects to his or her teaching credential. There are two types of supplementary authorizations; introductory and specific. The *Introductory Supplementary Authorization* added to Single Subject Teaching Credential authorizes the holder to teach at any grade level the supplementary subject matter content typically included in curriculum guidelines and textbooks for study in grades 9 and below. The *Introductory Supplementary Authorization* added to a Multiple Subject Teaching Credential authorizes the holder to teach departmentalized classes related to the supplementary subject matter in grades 9 and below. The *Specific Supplementary Authorization* added to the Single Subject Teaching Credential authorizes the holder to teach the specific subject in preschool, grades kindergarten-12, and in classes organized primarily for adults.

### Documents Supplementary Authorizations May Be Added To:

- Single Subject Teaching Credentials
- Multiple Subject Teaching Credentials
- Standard Elementary and Secondary Teaching Credentials
- University Internship Credentials (*Multiple and Single Subject only*)
- Special Secondary Credentials in *Academic* Subjects: Education Code 44256(a)(1) provides that the Special Secondary Teaching Credential must have been issued based on a bachelor's degree, student teaching, and 24 semester units of coursework in the subject listed on the credential. Those subjects that qualify are provided below:
  - Art, Business Education, Homemaking, Industrial Arts, Music, Physical Education, Speech Arts, and Vocational Agriculture

### Documents Supplementary Authorizations May Not Be Added To:

- General Kindergarten-Primary, Elementary, Junior High, or Secondary Teaching Credentials
- District Intern Credentials
- Special Secondary Teaching Credentials in *Non-Academic* Subjects, provided below:
  - Aviation, Blind, Deaf, Lip Reading, Nursing Education, Partially Sighted Child, Public Safety and Accident Prevention Including Driver Education and Driver Training, Sciences Basic to Medicine, Correction of Speech Defects, and Mentally Retarded
- Special Education Teaching Credentials (*current or previous*)
- Adult or Vocational Teaching Credentials

- Career Technical Education Teaching Credentials

The holder of a Life Multiple or Single Subject, or Clear or Life Standard Elementary, Standard Secondary or Special Secondary Teaching Credential, may apply at any time and once qualifications are verified, the Supplementary Authorization will be issued on a separate document specially designed for that purpose.

**Special Note:** Pursuant to Education Code 44256, Supplementary Authorizations may only be issued in a *subject other than* the subject for which the credential holder is already certificated to teach. Therefore, a subject area that is subsumed under the authorization listed on the applicant's basic teaching credential cannot be added as a supplementary authorization, as these are content areas that are already authorized by the credential holder.

For example, the following cannot be issued:

- 1) Psychology to a Single Subject Teaching Credential in Social Science;
- 2) Journalism, Speech, or Literature to a Single Subject Teaching Credential in English;
- 3) Photography to a Single Subject Teaching Credential in Art.
- 4) Computer Science to a Single Subject Teaching Credential in Mathematics, Business, or Industrial and Technology Education.
- 5) Theater to a Single Subject Teaching Credential in English with the ENGL or ENGX authorization codes, as Theater was subsumed under English at this time. However, the holder of a Single Subject Teaching Credential in English with the EN1 or EN1X authorization codes may be issued a Supplementary Authorization in Theater, as theater content is not authorized by the EN1 or EN1X authorization.
- 6) Dance to a Single Subject Teaching Credential in Physical Education with PE or PEX authorization codes, as dance content was subsumed under Physical Education at this time. However, the holder of a Single Subject Teaching Credential in Physical Education with PE1 or PE1X authorization codes may be issued a Supplementary Authorization in Dance, as dance content is not authorized by the PE1 or PE1X authorization.

**Exception-** Economics may be added to a Single Subject Teaching Credential in Business as the supplementary authorization in economics is considered to be a social science.

Supplementary Authorizations may be added to a Standard Secondary Teaching Credential, even if the Supplementary Authorization falls within the authorization on the educator's Standard Secondary Teaching Credential. The Standard Secondary Teaching Credential authorizes services in grades 7-12. The Introductory Supplementary Authorization authorizes service in grades 9 and below and a Specific Supplementary Authorization authorizes service in preschool, grades K-12, and in classes organized primarily for adults. Obtaining a supplementary authorization for these individuals will expand the grade level authorization in the subject area.

**Acceptable coursework must be:**

- a. completed with a grade of "C" or above ("credit," "passing," or "satisfactory" is acceptable),
- b. applicable toward a bachelor's degree or a higher degree (non-remedial),
- c. completed at a regionally accredited college or university,
- d. granted regular quarter or semester unit credit, and

*The following coursework may be used if it meets the criteria listed above:*

- a. community college, correspondence, on-line, or extension coursework, or
- b. advanced placement units (requires an official transcript of the course and written verification from the college or university admission or registrar's office that the units are applicable towards a bachelor's degree and are in the subject category of the requested Supplementary Authorization).

*Unacceptable coursework:*

- a. coursework not applicable toward a bachelor's degree or a higher degree (remedial), including professional development or continuing education courses,
- b. in-service training or workshops,
- c. coursework that does not cover the subject matter authorized by the requested supplementary authorization, unless a letter is provided from the chair of the subject area department stating that the course is equivalent to one offered by that department.

### **III. Qualifying for a Supplementary Authorization**

An applicant may qualify for an Introductory or Specific Supplementary Authorization upon the completion of one of the following:

- a. Twenty semester units or ten upper division semester units, or the equivalent quarter units, of non-remedial coursework in the subject requested. Additionally, *Introductory* subjects require at least one course in each of the content areas listed; the balance of the ten or twenty units may be in any course within the subject category.
- b. A collegiate major in a subject directly related to the subject to be listed on the credential, earned from a regionally accredited college or university.
- c. Possession of a professional level teaching license earned in a state other than California, with a middle school or departmentalized classroom teaching authorization that is not comparable to a full single subject content area issued by the Commission, but aligns with a Supplementary Authorization.
- d. Achieve a passing score on the appropriate subject-matter examination(s). Information, including passing scores and registration, can be found in the Commission leaflet [CL-674S](#) entitled Verifying Subject-Matter Competence by Examination for Single Subject Teaching Credentials.
- e. Successful completion through a combination of coursework and examination options that meet or exceed the domains of the subject matter requirements adopted by the Commission in a content area of the Single Subject Credential. Such mixing of options may only be completed by a Commission-approved preparation program.

### **IV. Evaluation for the Supplementary Authorizations**

Evaluations for Supplementary Authorizations are the responsibility of the staff in the Commission's Certification Division. The Commission does not evaluate for Supplementary Authorizations without the submission of an application, appropriate processing fee, and supporting materials. Each request is evaluated on an individual basis. Evaluations are based on the information submitted in the application packet, which may include official transcripts, catalog course descriptions, and other supporting materials.

The Commission also issues Subject Matter Authorizations which require 32 semester units of coursework, a degree in the requested subject area, or satisfaction of Subject Matter Competence requirements. The decision whether an individual needs to hold a Supplementary Authorization or Subject Matter Authorization should be addressed by the local employing agency. The Commission cannot respond to this type of question as it is an employment issue and the authorization for both is essentially the same. The Commission has developed a [guideline book for the Subject Matter Authorizations](#).

## A. Introductory Supplementary Authorizations

*Introductory* Supplementary Authorizations may be added to the Single Subject, Standard Secondary, and Special Secondary (in academic subject areas only) Teaching Credentials and authorize the holder to teach the supplementary subject matter content typically included in curriculum guidelines and textbooks for study in grades 9 and below. This allows an employer to assign a teacher with an Introductory Supplementary Authorization to teach a class in which the curriculum is for grades 9 and below but the students in the class may be in grades 10-12, or classes organized primarily for adults.

Supplementary Authorizations added to a Multiple Subject or Standard Elementary Teaching Credential authorize the holder to teach departmentalized classes related to the supplementary authorization listed on their credential in grades 9 and below. Elementary credentials will list the same subjects but the word “Introductory” is not listed.

The subjects which may be listed as Supplementary Authorizations on a credential are printed below in ***bold italics***. On secondary credentials, the subjects are identified as *introductory* subjects. An Introductory Supplementary Authorization requires the verification of at least one course in each content area listed after that subject.

A guide to course work that may be used for the Supplementary Authorization subject areas is provided in the *Subjects Within the Single Subject Area* list found at the end of this guidebook. Note that this is a guide and does not guarantee that the coursework will be accepted.

***(Introductory) Agriculture:*** •animal science •plant science •agricultural mechanics

- Plant science coursework may be found in the life science/biology department.

***(Introductory) Art:*** •drawing and painting •art history or appreciation •crafts

- The area of crafts may be satisfied with courses such as ceramics, printmaking, silk-screening, lithography, etching, relief, jewelry, ceramics, stone setting, sculpture, metalworking, glass making, papermaking, fiber art, weaving, candle making, and picture framing.
- An education course in Art for the Elementary Teacher may cover the crafts areas but a course description will be required to verify content.
- Photography is in the art category and may be used towards the overall unit requirement but will not satisfy any of the required content areas listed above.

***(Introductory) Business:*** •business management •business marketing or introduction to business •computer concepts and applications •economics •business communications or business English •accounting

- A degree in business administration will qualify for a Supplementary Authorization in Introductory Business.
- Economics coursework may be found in both the business and social science departments.

**(Introductory) Computer Science:** •computational thinking •computing practice and programming •computer and communications devices •impacts of computing (e.g., social, ethical, legal)

- **Computational thinking:** involves solving problems and designing systems, using fundamental computing concepts such as decomposition, data representation, generalization/abstraction, and algorithms.
- **Computing practice and programming:** includes expertise in at least one block-based, visual (drag-and-drop) programming language, or a modern, high-level programming language.
- **Computer and communications devices:** covers the major components and functions of digital devices and the computing systems they compose.
- **Impacts of computing:** includes the social, ethical, and legal issues and impacts of computing, as well as the contributions of computer science to current and future innovations in sciences, humanities, the arts, and commerce. These topics may be included within courses that cover any of the other content areas.
- Degrees in Educational Technology or Information Technology do not automatically meet the requirement. Official transcripts must be submitted to verify that all of the required content areas have been fulfilled.

**(Introductory) Dance:** •jazz dance •contemporary dance •dance theory

- Coursework to satisfy remaining 10/20 units required may include dance, folk/traditional dance, modern dance, dance composition and production, hip hop, ballet and world dance.
- Acceptable degrees may include: Dance, Folk/Traditional Dance, Modern Dance.

**(Introductory) English:** •grammar or language structure •composition •literature

- The Basic English courses required for a bachelor's degree, often numbered 1A and 1B, will not clear the grammar area. Course descriptions are usually needed to verify that a course covers grammar or language structure unless it is clearly mentioned in the course title. Key words or concepts for language structure are sentence structure and functions of the English verb system.
- One composition and one advanced composition course will meet the grammar or language structure and composition areas. One advanced composition and either a creative writing or applied composition course may also be used to meet the grammar or language structure and composition areas.
- Course work in foreign language literature is acceptable.
- Special Note: \*The Supplementary Authorization in Introductory English (with authorization code ENGL or IE) authorizes the holder to teach drama and theater arts.

**(Introductory) Health Science:** •substance abuse (including alcohol, drug, and tobacco) •family life education (including human sexuality, HIV/AIDS, and sexually transmitted diseases) •nutrition •comprehensive school health systems or programs •health education theory, behavior, or foundations

- A course may cover more than one subject area but the units are only counted once. More than one course may be needed to clear family life education as all listed subtopics (human sexuality, HIV/AIDS, and sexually transmitted diseases) must be covered in the coursework.
- Some courses may be found in the Education, Sociology, or Psychology departments.

**(Introductory) Home Economics:** •food and nutrition •clothing •child development •family life and parenting ►at least one of the courses must contain a laboratory component

- Coursework must include a combination of food and nutrition. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.
- Coursework must include a combination of family life and parenting. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.
- Field experience from the Child Development department may be used to meet the laboratory component.

**(Introductory) Industrial Arts:** •drafting or graphic arts •woods or metals •electricity or electronics

- Drafting courses may be found in the Math department.
- Graphic arts courses may be found in the Art department.

**(Introductory) Mathematics:** •college algebra •geometry •development of the real number system or introduction to mathematics; Or ►three courses in calculus or other mathematics courses for which algebra and geometry are prerequisites meet all content area requirements

- Coursework must be at least at a level for which intermediate algebra is a prerequisite.
- Algebra courses must be for credit, applicable towards a degree, and, if completed at the community college level, transferable to a four-year institution to be acceptable.
- Three courses in calculus will clear all of the specific course requirements but the applicant must still have the required 10/20 units. If the applicant has only one or two courses in calculus and no coursework in algebra, geometry, or real number systems, the applicant will need to either submit course descriptions so that it can be confirmed whether or not those areas were covered by the calculus course(s) or complete additional coursework in the required content areas.
- One mathematics-based computer course and one statistics course in any department are acceptable as additional units toward the required 10/20 units.

**(Introductory) Music:** •vocal music •instrumental music •music history or appreciation •music theory

- Harmony is acceptable for music theory.

**(Introductory) Physical Education:** •team sports and games •fundamental and creative movement skills (such as dance and gymnastics) •human movement, motor development and/or motor learning •individual, dual, nontraditional and global sports and games (such as aquatics, conditioning, and archery)

- Some additional examples of individual, dual, non-traditional and global sports and games are golf, bowling, skiing (water & snow), racquetball, lacrosse, cricket, team handball, and tennis.
- Special Note: The Supplementary Authorization in Introductory Physical Education (with authorization code PE or IPE) authorizes the holder to teach dance.

**(Introductory) Science:** •biological sciences •chemistry •geosciences •physics ►the coursework must include a one-year sequence of courses in at least two of the listed subject areas and at least one course must include a laboratory component

- A degree directly related to science will qualify an individual for the Introductory Science Supplementary Authorization. For example, a major in biology, oceanography, physics, chemistry, meteorology or any related science will meet the requirement.

- **Biological sciences:** anatomy; bioethics; biology; botany; DNA and RNA structure; ecology; environmental science; evolution; genetics; marine biology; microbiology; physiology; structure and function of cells; and zoology.
- **Chemistry:** atomic, molecular, and ionic structures; chemical reactions; properties and processes of elements, compounds, mixtures, inorganic and organic substances; properties of molecules; qualitative and quantitative analysis; and state of matter including models of gases, liquids and solids.
- **Geoscience:** astronomy; cosmology; earth science/resources; forestry; fossils; geology; meteorology; mineralogy; oceanography; paleontology; soil science; and weather and climate.
- **Physics:** electromagnetic radiation including spectra, visible light and color; fission; fusion and vaporization; geodynamics; gravitation; light and optics; nuclear and atomic physics; principles of mechanics, heat, electricity, and magnetism; principles of momentum and energy; quantum theory; thermodynamics; and wave and particle motion.
- **A one-year sequence of courses** is coursework that builds on ideas from the previous course in a single discipline area. The courses do not have to be taken at the same institution or in the same year. The Commission will use course numbering, prerequisites, and course descriptions as guides when evaluating for the one-year sequence. Any two courses in geoscience will be considered a sequence since geoscience courses may be taken in any order.

**(Introductory) Social Science:** •United States history •California history •world history  
•geography •United States government

- A course covering the overall history of California is required. Courses focusing on one specific geographical area of California such as the History of San Francisco are acceptable to fulfill the 10/20 unit requirement. They will not satisfy the California history requirement.
- A world history course is history concerned with the study of historical phenomena that transcend national, regional, or cultural boundaries or distinctions between peoples or with the study of history from a global, comparative, or cross-cultural perspective.

**(Introductory) Theater:** •acting •directing •stagecraft

- Coursework to satisfy remaining 10/20 units required may include courses such as theater performance and theater production, improvisation, playwriting, costume design, lighting, sound, props, and makeup.
- Coursework may be found in the English, Drama, and Theater departments.
- Acceptable degrees may include: Theater, Drama, Theater Arts, Arts in Theater, and Musical Theater.

**(Introductory) World Languages:** •grammar •composition •conversation  
•literature ➤verification of oral language proficiency in the language to be listed on the credential by either:

- ▶ passage of the Language and Communication subtest (Test II or III, depending on the language) of the California Subject Examinations for Teachers (CSET)World Languages Examinations in the target language); or
- ▶ a letter from the chair of the Language Department of a regionally accredited four-year college or university verifying that the applicant's oral proficiency is equivalent to that of a person with a bachelor's degree with a major in that language; or
- ▶ a letter from an authorized person at a college or university that has an approved bilingual authorization program stating that the applicant's oral proficiency in the language is equivalent to the level required to complete that program.

\*The Commission issues a Supplementary Authorization in American Sign Language, which falls under the category of World Language. To qualify, an individual needs to submit official transcripts with either the ten upper-division or twenty semester units in sign language. Coursework in interpreting skills and deaf culture is acceptable but the majority of units must be in sign language. Oral proficiency can be assessed via tests in interpreting skills and a certificate can be used to verify the proficiency requirements.

## B. Specific Supplementary Authorizations

*Specific* Supplementary Authorizations may be added to Single Subject, Standard Secondary and Special Secondary (academic subject areas only) Teaching Credentials and authorize the holder to teach the specific subject in preschool, grades kindergarten-12, and classes organized primarily for adults. The subjects that may be issued on a Specific Supplementary Authorization are listed in **bold** below.

### **Accounting including Finance**

- Coursework must include a combination of accounting and finance. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.
- A degree in Business qualifies for a Supplementary Authorization in Accounting including Finance.

### **Agricultural Mechanics**

### **Animal Science**

- The coursework may be found in the Agriculture department.

### **Anthropology**

### **Auto Mechanics**

**Biological Sciences:** *course of study must include* •molecular and cellular biology •biology of organisms •evolution ►at least one of the courses must include a laboratory component

- A course may cover more than one subject area but the units are only counted once toward the required 10/20 units. Course descriptions are usually required.
- Life science coursework may count towards the required 10/20 units.
- See examples of biological science and related coursework in the notes for Introductory Science.

**Chemistry:** *course of study must include* •structure and stability •chemical reactions ►at least one of the courses must include a laboratory component

- A course may cover more than one subject area but the units are only counted once toward the required 10/20 units. Course descriptions are usually required.
- See examples of chemistry and related coursework in the notes for Introductory Science.

**Child Development (home economics):** ► at least one of the courses must include a laboratory component

- Field experience from the Child Development department may be used to meet the laboratory component.

**Clothing and Textiles (home economics):** ► at least one of the courses must include a laboratory component

- Coursework must include a combination of clothing and textiles. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

### **Comparative Political Systems and International Relations**

- Coursework must include a combination of comparative political systems and international relations. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.
- Coursework in specific governments, such as U.S. Government, may be used to reach the required 10/20 units.

### **Computer Science**

- Coursework completed must cover the following content areas:
  - **Computer Programming:** includes expertise in at least one modern, high-level programming language (e.g., Python, Java, C/C++/C#).
  - **Data structures and algorithms:** covers data representation, abstraction, searching and sorting in the context of solving problems using programming and computational tools.
  - **Digital devices, systems and networks:** covers computer and communication devices and the systems they compose, including the concepts and abstractions that enable stand-alone, networked, and mobile digital devices to operate and communicate.
  - **Software design:** covers the process of planning, engineering and implementing a software system to solve a problem, typically using both a design and a programming methodology, such as object-oriented and functional approaches.
  - **Impacts of computing:** includes the social, ethical, and legal issues and impacts of computing, as well as the contributions of computer science to current and future innovations in sciences, humanities, the arts, and commerce. These topics may be included within courses that cover any of the other required content areas above.
- Computer classes in the Education Department may be used **including a pedagogy course in computer science**.
- Degrees in Educational Technology or Information Technology do not automatically meet the requirement. Official transcripts must be submitted to verify that all of the required content areas have been fulfilled.

### **Consumer Education (home economics)**

### **Crafts, including Jewelry and Ceramics (art)**

- See notes for Introductory Art.

**Dance**

- Courses may be offered in departments such as Physical Education or Anthropology.

**Drafting**

- Coursework may be found in the Math department.

**Economics**

- This is a social science subject area. If coursework is not in the Economics department, review the course content and request a letter from the Economics department, if necessary.

**Economic and Consumer Education**

- Consumer education courses from the Consumer Science or Home Economics departments are acceptable. This is a business subject area.

**Electronics****English Composition**

- A degree in English will qualify for a supplementary in English Composition.

**Family Life and Parenting (home economics)**

- Coursework must include a combination of family life and parenting. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

**Family Life Education including Drug, Alcohol and Tobacco Use Prevention (health science): *course of study must include*** •sexually transmitted diseases including HIV/AIDS  
•human development and human sexuality •parenting education •violence prevention  
•drug, alcohol and tobacco use prevention and cessation

- Health education courses from the Education department are acceptable if the coursework has been used to meet the health education requirement to earn a Clear credential.
- Some courses may be offered in the Sociology or Psychology departments.

**Food and Nutrition (home economics)** ►at least one of the courses must include a laboratory component

- Coursework must include a combination of food and nutrition. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

**Forestry and Horticulture**

- Coursework must include a combination of forestry and horticulture. A single course may cover both areas but it is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

**Geography**

**Geosciences:** *course of study must include* •astronomy •geology •meteorology •oceanography ►at least one of the courses must include a laboratory component

- A course may cover more than one subject area but the units are only counted once toward the required 10/20 units. Course descriptions are usually required.
- See examples of geoscience and related coursework in the notes for Introductory Science.
- Physical geography is not acceptable to meet the geoscience requirement unless the head of the Earth Science/Geology department verifies that the course is applicable as a geoscience course required for a degree in geoscience.
- A course in marine science may meet the oceanography area requirement but marine biology does not necessarily meet that requirement. A course description will be needed.

**Graphic Arts****Industrial Crafts and Plastics**

- Coursework must include a combination of industrial crafts and plastics. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

**Instrumental Music**

- This may include coursework in theory and conducting.

**Interior Design (home economics)** ►at least one of the courses must include a laboratory component

**Journalism****Literature**

- Literature courses may be offered in any language department.
- A degree in English will qualify for a Supplementary Authorization in Literature.

**Marketing/Entrepreneurship**

- Coursework must include a combination of marketing and entrepreneurship. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.
- Entrepreneurship is defined as owning and operating a business.
- Coursework in retail merchandising, advertising, consumer behavior, sales promotion, and salesmanship is acceptable.

- A degree in Business qualifies for a Supplementary Authorization in Marketing/Entrepreneurship.

## **Metals (industrials arts)**

### **Office Technologies Including Word Processing and Business Communications**

- Coursework in word and data processing, business management, personnel management, information systems, business communications, business English, shorthand, typing, and business law is acceptable.
- Coursework must include a combination of office technologies, word processing and business communications. A single course may cover the areas but is counted only once towards the total number of units. A course in each is not needed but all subjects must be covered in the 10/20 units.

## **Ornamental Horticulture**

- Coursework may be found in the Agriculture department.

## **Painting and Drawing**

- Coursework must include a combination of painting and drawing. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

## **Photography**

**Physics:** *course of study must include* •energy-mechanics •energy-heat •energy-electricity and magnetism •wave motion •atomic and nuclear physics ►at least one of the courses must include a laboratory component

- A course may cover more than one subject area but the units are only counted once toward the required 10/20 units. Course descriptions are usually required.
- Any physics coursework will count towards the remaining 10 or 20 units.
- See examples of physics and related coursework in the notes for Introductory Science.
- Coursework may be found in the Engineering department.

## **Plant Science**

- Plant science is a life science.

## **Plastics (industrial arts)**

## **Psychology**

## **Sociology**

## **Speech**

- Coursework may be found in the Communications or English departments.

**Theater**

- Coursework may be found in English, Drama, and Theater departments.
- Coursework may include courses such as theater performance and theater production, improvisation, playwriting, costume design, lighting, sound, props, and makeup.

**US Government and US Civics**

- Civics is an individual's participation in government such as voting.
- Coursework must include a combination of US Government and US Civics. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

**US History and California History**

- At least one course covering the overall History of California is needed. Courses focusing on one specific geographical area of California History such as the History of San Francisco will not satisfy the California History requirement and are acceptable as elective units only.
- Coursework must include a combination of US History and California History. A single course may cover both areas but is counted only once towards the total number of units. A course in each is not needed but both subjects must be covered in the 10/20 units.

**Vocal Music**

- Coursework may include theory and conducting.

**Woods (industrial arts)****World History**

- The coursework must include at least one non-western country history.
- A western civilization course may be used toward the required 10/20 units for the World History Specific Supplementary Authorization.

## **Applying for a Supplementary Authorization**

An applicant who holds a valid, prerequisite credential (as provided in Education Code §44256), including the Multiple or Single Subject Teaching Credential, may request the Supplementary Authorization at time of application or may request it at any time during the life of the credential by submitting a completed application, appropriate processing fee, and official transcripts. The Commission will accept verified true copies of transcripts if submitted through an employing agency. The Commission accepts official eTranscripts submitted directly by applicants (refer to [Credential Information Alert 24-02](#)).

***Dating of Document***

When a Supplementary Authorization is added to a preliminary or clear credential, the expiration date of the credential remains unchanged as statute requires that basic credentials be issued for five years.

If you have additional questions, please contact the Certification Division via the Commission's [Contact Us Form](#).

## SUBJECTS WITHIN THE SINGLE SUBJECTS AREA

Title 5 §80005(a) clarifies the authorization for the subject areas for service in departmentalized classes to allow an individual to be assigned to teach classes that fall within the broad single subject areas. Some subjects are listed under more than one subject such as photography which may be found under both art and industrial and technology education, musical theater which is listed under both music and theater, and child development which is listed under both health and home economics

<b>Agriculture</b>	Agricultural management, agricultural mechanics, agricultural science, animal science, forestry, horticulture, landscaping, and plant science
<b>Art</b>	Art appreciation, art history, arts and crafts, art theory, calligraphy, cartooning, ceramics, commercial art, costume design, crafts, design, drawing, humanities, illustration, interior decoration, jewelry, leathermaking, painting, photography, sculpture, stagecraft, and yearbook
<b>Business</b>	Accounting, business communications, business English, business mathematics, business management, business marketing, computer concepts and applications, consumer education, data processing, economics, general office occupations, keyboarding, marketing, shorthand, typewriting, and word processing
<b>Dance</b>	Composition and production, folk/traditional, hip hop, ballet, modern, jazz, world
<b>English</b>	Composition, creative writing, debate, forensics, grammar, humanities, journalism, language arts, language structure, literature, poetry, public speaking, speech, and yearbook
<b>Health</b>	Child development, family life, human sexuality, nutrition, sexually transmitted disease education, and substance abuse
<b>Home Economics</b>	Child development, clothing, consumer education, family life, foods, family economics, housing, human development, interior design, nutrition, parenting, and textiles
<b>Industrial and Technology Education</b>	Automotive mechanics, carpentry, computer technology, construction, drafting, electricity, electronics, industrial crafts, industrial design, metals, millwork, photography, plastics, radio and television, technical science/power mechanics, welding, and woods
<b>Mathematics</b>	Basic or general mathematics, algebra, calculus, computer science, consumer mathematics, geometry, mathematical analysis, statistics and probability, and trigonometry
<b>Music</b>	Instrumental music, music appreciation, music theory, musical theater, and vocal music

<b>Physical Education</b>	Aquatics, fundamental and creative movement, gymnastics, interscholastic sports, motor development or learning, physical conditioning, sports, and weightlifting
<b>Science: Biological Science</b>	Anatomy, biology, botany, ecology, environmental science, evolution, genetics, physiology, and zoology
<b>Science: Chemistry</b>	Chemical reactions, qualitative analysis, quantitative analysis, and structure and stability
<b>Science: Geoscience</b>	Astronomy, cosmology, earth science, forestry, geology, meteorology, oceanography, and paleontology
<b>Science: Physics</b>	Energy, mechanics, and thermodynamics
