Specifically, two institutions had not yet submitted their Common Standards that were due on February 28, 2018. One of those institutions was granted an extension because the delay was caused by a situation related to national accreditation (the Council for the Accreditation of Educator Preparation) standards and was beyond the control of the institution.

It was also noted that at the next May COA meeting, this agenda item will include an updated list of any institutions in the Orange and Indigo cohorts for which preconditions were not received or were incomplete, by the due date of March 31, 2018.

Consultant Erin Sullivan presented this information. Ms. Sullivan provided information regarding the completer survey data. 97% completers participated in this optional survey. This information will be used by institutions to identify areas in need of program improvements. Accreditations teams will be able to use the data to identify areas of strengths within the program and areas that will need further examination. In addition, if the program completer survey feedback response rate is high enough it will allow site visits to be streamlined in that not as many, or in some cases, any, program completers would need to be interviewed. These survey results may also be used to identify state-wide issues as well.

Item 14 – REPORT OF THE ACCREDITATION TEAM TO MILLS COLLEGE

Ms. Hickey presented information about this site visit report in the absence of Consultant Sarah Solari Colombini who was the consultant for the visit. She was joined at the table by team lead Mark Cary and institutional representative Dr. Diane Ketelle, Dean of School of Education. Team Lead Mark Cary noted a correction on page 10 of the site visit report which discussed the number of hours that candidates were expected to spend at their sites. The number should have been listed as 20 hours and not 10.

After discussion, it was moved and seconded (Morrison/Webb) to grant the status of Accreditation with Stipulations to Mills College.

The following stipulations were placed on the institution:

1. Mills College shall submit evidence that the unit regularly and systematically collects data for analysis and use in program and unit improvement efforts.
2. Mills College shall provide biannual documentation to the Commission consultant documenting all actions to address the stipulation noted above.

She noted that the deans at the conference discussed their experience with accreditation and how preparations have gone with their site visits as well as the specifics related to the ADS system including when the annual data should be due. She shared that the current April due date does not work for many institutions. They have requested a date in July or August to be able to capture more data and to ensure that the data they provide to the Commission is accurate. There was discussion of adding questions regarding field experience to the data system. It was suggested to have an open window timeframe for annual data reporting from April to August.
