

## **Discussion and Approval of 2017-18 Annual Report of the COA November 2018**

### **Overview of this Report**

This agenda item presents the *Annual Report of the Committee on Accreditation 2017-18* for the Committee's consideration and approval.

### **Staff Recommendation**

This is an action item. The Commission staff seeks approval of the report. Any suggested edits and comments can be incorporated into the report before it is presented to the Commission at its November 2018 meeting.

### **Background**

California Education Code and the *Accreditation Framework* require the COA to provide the Commission with a report on accreditation activities on an annual basis. Typically, the two Co-Chairs present the *Annual Report* at a fall meeting of the Commission. The item is scheduled to be presented at the November 29, 2018 Commission meeting.

### **Next Steps**

Upon adoption of the report, the Commission staff will ensure that comments and suggestions made during the Committee's discussion are incorporated into the version that will be presented to the Commission. In addition, appropriate appendices will be added to the document. The Committee chairs can review the final version before it goes to the Commission to ensure that the comments were incorporated appropriately. The report will then be presented by the Committee chairs at the November 2018 Commission meeting and then placed on the Commission's website in the reports section.

**The Committee on Accreditation's  
Annual Accreditation Report to the  
Commission on Teacher Credentialing  
2017-2018**

Dear Commissioners:

On behalf of the Committee on Accreditation (COA), we submit to the Commission on Teacher Credentialing (Commission) the *2017-18 Annual Accreditation Report* by the Committee on Accreditation in accordance with the provisions of the *Accreditation Framework*. This report presents an overview of the activities and accomplishments of the Committee over the past year, the results of its activities for the year, and its work plan for 2018-19.

As you well know, the Commission's efforts to strengthen and streamline the accreditation system has been a large, but important, undertaking. Over this past year, the COA, together with staff, began the implementation of many of the new aspects of the Commission's revised accreditation system. This includes the new streamlined and more efficient approach of reviewing Common Standards which was implemented and used successfully for 29 accreditation site visits. In addition, the new streamlined and more efficient Program Review process was also used for the first time and institutions that experienced this new process will undergo a site visit in 2018-19. The Annual Data System became operational in its first pilot year with institutions building their "report decks" and submitting their initial set of data to the Commission. And the first revised Board of Institutional Reviewer training was implemented in June allowing the Commission to expand the pool of experts who understand the goals and objectives of the Commission's revised accreditation system and are ready to bring them to fruition.

As we enter the 2018-19 accreditation year, we will maintain this forward motion by continuing to fully implement, refine, and expand those areas of accreditation that are new or still in development. The COA shares with the Commission the goal of having a strong accountability system that holds educator preparation programs to high standards, recognizes excellence, and encourages innovation. We continue to offer our collective expertise and assistance to the Commission in this important effort to ensure a rigorous and robust system of accreditation that focuses on ensuring that educators emerge from programs prepared to address the complexities of California's K-12 education system.

Sincerely,

Dr. Anna Moore  
Committee Co-Chair

Dr. Robert Frelly  
Committee Co-Chair

## Introduction: Summary of Activities of the Accreditation System

The 2017-18 year marked a significant milestone in the future of accreditation activities for educator preparation in California. Important progress was made by the Commission, the Committee on Accreditation, and the Commission staff with respect to beginning the implementation of the revised accreditation system. The accreditation system is the primary means by which the Commission ensures quality in educator preparation in California. After a multi-year effort to strengthen and streamline accreditation, including the development of new or revised activities and requirements envisioned by the Commission, followed by a year of substantial technical assistance to the field in 2016-17, the Commission resumed full accreditation activities including site visits in 2017-18.

The major objectives of the revised accreditation system, as outlined in the Accreditation Framework include the following:

- Accreditation assures that programs meet state standards for professional preparation programs, and, in so doing, are allowed to recommend candidates for state licensure.
- Accreditation assures candidates and the public that educator preparation programs are of high quality and effective in preparing candidates to meet licensure requirements.
- Accreditation assures candidates and the public that programs are accountable for the quality and effectiveness of the preparation they provide to candidates.
- Accreditation assures that evidence is reviewed by peers to determine each program's quality and effectiveness in order to retain their accreditation status.
- Accreditation provides the means for programs to continuously improve based on evidence of candidate outcomes, program effectiveness, and on feedback from ongoing peer review processes.

The current system is designed as a 7-year cycle comprised of several major components or activities:

Annually	Data Submission
Years 1 and 4	Submission of Preconditions Documentation
Year 5, fall	Program Review Submission
Year 5, spring	Common Standards Submission
Year 6	Site Visit
Year 7	Follow Up to address issues of concern

Each Commission-approved institution has been assigned a color cohort which identifies which component or activity is expected of those institutions in any given year. A full schedule of accreditation activities for each cohort can be found on the Commission's accreditation [webpage](#).

### *ANNUAL DATA SUBMISSION*

Consistency in data across institutions and across similar programs, including outcomes data, is an important part of the new accreditation system. The Annual Data Submission by institutions will allow the Commission to better identify specific information about credential programs operating in California. The infrastructure for the system was built in 2017 with institutions beginning to submit initial data in summer 2018.

### *PRECONDITIONS SUBMISISON AND REVIEW*

Preconditions are grounded in California Education Code, Title 5 Regulations, or Commission policy. Responses to preconditions are submitted in Years 1 and 4 by each institution for each program that an institution is approved to offer. Immediate correction is required if an institution is deemed to be out of compliance with Preconditions.

### *PROGRAM REVIEW*

During the new Program Review process, each credential program provides specific required evidence or documentation demonstrating that the program is aligned to each of the Commission adopted program standards for the particular credential area. Documentation is reviewed by trained educators with expertise in the credential area and a decision about whether the program standards are preliminarily aligned is made. The institution is provided feedback and then must provide an addendum at least 60 days prior to the Site Visit, addressing any areas that were not found to be preliminarily aligned. This addendum is then used by the site visit team as additional information to consider when determining whether the standard is met. To further ensure transparency, a subset of the experts that reviewed Program Review submissions serve as site visit team members.

### *COMMON STANDARDS REVIEW*

Also in Year 5 of the cycle, program sponsors submit specific documentation that indicates alignment with the Commission's adopted Common Standards. Reviewers examine the documentation and determine whether the standard is preliminarily aligned. The institution is provided feedback and then must provide an addendum, at least 60 days prior to the Site Visit, addressing any areas that were not found to be preliminarily aligned. This information helps focus and inform the accreditation site visit in Year 6. The same individuals that review the Common Standards in Year 5 serve on the site visit team in Year 6.

### *SITE VISITS*

All data are provided to a trained team of evaluators who are members of the Board of Institutional Reviewers and these evaluators determine whether the standards are met and determine an accreditation recommendation for the Committee on Accreditation. Site visits include in-depth interviews of graduates, candidates, employers, and program faculty and administrators. The purpose of the site visit is to determine whether standards are met and to what extent the program is effectively implemented.

The Commission is assisted in the implementation of the accreditation system by the Committee on Accreditation. This body is comprised of twelve members of the education community – six from postsecondary education and six K-12 practitioners. While the Commission sets policy for accreditation, the COA implements the accreditation system and makes accreditation decisions for institutions offering educator preparation in California. Further, the success of the accreditation system also depends on the commitment of hundreds of experts in the field - those who have a role in preparing educators and practitioners themselves - who are trained and calibrated to serve as reviewers for document review and for site visits.

This report presents information about the major activities of the accreditation system, the COA decisions that were made, and some of the major areas of focus for academic year 2017-18.

## Section I: Accomplishment of the Committee's Work Plan in 2017-18

The Commission's Strengthening and Streamlining Project was a multipronged effort that began late in 2014 and continued throughout 2017-18. Among its various critical components were the following:

- Adoption of a new [Accreditation Framework](#)
- Adoption of a revised *Accreditation Handbook*
- Implementation of new Initial Institutional Approval process
- Adoption of new Common Standards
- Adoption and implementation of new General Preconditions
- Adoption and implementation of new Teaching Performance Expectations for Preliminary Multiple and Single Subject Programs
- Adoption and implementation of new Preliminary Multiple and Single Subject Program Standards
- Adoption and implementation of new Preliminary Administrator preparation standards
- Adoption and implementation of new Induction standards for teachers and administrators
- Development and implementation of new data warehouse and new Annual Data Submission system
- Adoption and implementation of new procedures for Common Standards and program standards submission and review
- Implementation of a new review process (Years 1 and 4) of all preconditions
- Adoption and implementation of new California Administrator Performance Expectations (CAPEs)
- Development and implementation of new CalTPA and CalAPA
- Development and implementation of numerous data dashboards
- Development and implementation of surveys to inform program improvement and accreditation decisions – program completers for Preliminary Multiple Subject, Single Subject, Education Specialist, administrator, teacher induction, employers, and master teachers
- Development and implementation of new surveys for other credential areas
- Implementation of new processes to strengthen oversight of programs such as ability to close a program (within a larger institution) and ability to differentiate more frequent site visits for some programs

The items that follow represent a summary of the key aspects of the accreditation system undertaken during the 2017-18 year. Over the past year, the Professional Services Division, the Committee on Accreditation, and numerous volunteer experts from the field, have continued to work diligently to implement the vision of the Commission for its accreditation system as defined by the multi-year project to strengthen and streamline the Commission's accreditation system.

**Purpose 1. Ensure Accountability to the Public and to the Profession**

Maintain public access to the [Committee on Accreditation](#). The COA held meetings on the following dates:

- August 7, 2017
- November 17, 2017
- February 22, 2018
- March 22, 2018
- May 10-11, 2018
- June 28, 2018

All Committee meetings were held in public and all meeting agendas posted in accordance with the Bagley-Keene Open Meeting Act. The Commission’s website was utilized fully to provide agenda items and notification of meetings, as well as broad-based access to critical accreditation materials for institutions and others interested in accreditation.

As a continuing cost saving measure and to ensure access for all participants videoconferencing technology was used frequently, where possible and appropriate, in order that those located in various regions of California who are involved in accreditation activities could participate without the time and cost commitments required of traveling to the Commission offices. Unfortunately, recent changes to the Commission’s communication system no longer allows for simultaneous web broadcasting and web conferencing. Because the videoconferencing capability is a necessity for COA business, the simultaneous web broadcasting had to be suspended. However, the videoconferencing link is available to anyone who wishes to listen to the meeting in real time and the meetings are recorded and available on the Commission’s website soon after the meeting.

*PSD News.* The PSD E-news, developed in 2008, continued to be distributed weekly. This electronic notification reaches over 2,500 individuals including all approved institutions, to inform them of accreditation-related activities such as information regarding the development and revision of standards, technical assistance opportunities, and notification of requests for stakeholder comment.

[Program Sponsor Alerts.](#) Program Sponsor Alerts (PSA) continued to be used to provide important and timely information on specific topics of interest to program sponsors. The Commission staff used this resource in the 2017-2018 year, issuing 6 PSAs. The 6 PSAs issued from the period July 1, 2017 to June 30, 2018 as follows:

Program Sponsor Alerts June 30, 2017-July 1, 2018		
Number	Issue Date	Title
<a href="#">17-05</a>	August 16, 2017	Teacher Induction: Information on Credential Recommendations
<a href="#">17-06</a>	September 21, 2017	Clinical Practice and Supervision Requirements: Guidance for Teacher Preparation Programs
<a href="#">17-07</a>	December 8, 2017	Process for Preliminary Multiple and Single Subject Teacher Preparation Programs to Change TPA Models [Replaced by PSA 18-02]
<a href="#">17-08</a>	December 21, 2017	Designating a Unit Head Proxy in the Accreditation Data System
<a href="#">18-01</a>	February 28, 2018	Implementation of the California Administrator Performance Assessment (CalAPA): Non-Consequential Administration with Full Implementation in the 2019-20 Academic Year
<a href="#">18-02</a>	April 17, 2018	Process for Preliminary Multiple and Single Subject Teacher Preparation Programs to Change TPA Models [Replaces PSA 17-07]

The PSA is used to communicate to program sponsors instructions for a particular task or information about a specific issue such as the adoption of new standards by the Commission or clarification of requirements and deadlines. Program Sponsor Alerts will continue to be used to provide information to the field when necessary as they have served the objective well.

*Maintain Public Website of All Accreditation Results and Status for Each Institution.* For a number of years, the Commission has maintained a website where all accreditation site visit reports and actions taken by the COA is available to the public. The site includes the team report for each institution as well as the letter to the institution with the formal COA Action taken. The website is: [https://info.ctc.ca.gov/fmp/accreditation/accreditation\\_reports.php](https://info.ctc.ca.gov/fmp/accreditation/accreditation_reports.php)

The website is updated after each COA meeting to reflect any additional actions taken and includes the reports and actions for the most recent accreditation cycle.

*Preparation and Presentation of COA Reports to the Commission.* COA Co-Chairs Anna Moore and Robert Frelly presented the COA annual report to the Commission at the [December 2017 Commission Meeting](#).

*Commission Liaison.* The Commission's liaison provides an important perspective to COA discussions and serves as an effective means of communication between the COA and the Commission. For the 2017-18 year, the liaison to the COA was Commissioner Haydee Rodriguez who attended the COA meetings regularly.

*Implementation of a Fee Recovery System for Certain Accreditation Activities and Annual Accreditation Fee.* The Commission continued implementation of a cost recovery plan (regulations effective October 2013), for the review of new programs and for accreditation activities outside the typical accreditation cycle. In addition, in 2017-18, the Commission began the process to update this section of Title 5 of the regulations to align with the revised accreditation system approved by the Commission. This work will continue in 2018-2019.

In addition, the Commission continued implementation of the Annual Accreditation Fee structure (Emergency regulations became effective in August 2014, followed by permanent regulations that became effective as of April 1, 2015.) As routinely scheduled, in 2017-18, Commission staff calculated the appropriate annual accreditation fees, invoiced institutions, collected the fees, and communicated with institutions when questions or disputes arose. These funds continue to be critical to supporting the infrastructure of the Commission's accreditation system.

*Removing Ability to Recommend: Strengthening the Implications for Noncompliance with Accreditation Requirements.* The ability to remove an institution's authority to recommend credentials continues to help to ensure that institutions comply with accreditation requirements in a timely manner. This lever has been used effectively to ensure all institutions adhere to timelines for accreditation reports. For late submissions, this lever is used only after multiple attempts to get the institution to comply with the requirements have failed and after notification has been provided to the COA.

## **Purpose 2. Ensure Program Quality**

*Accreditation of Institutions and their Credential Preparation Programs.* This is one of the primary ongoing tasks of the Committee on Accreditation. The COA has been given full responsibility for making the legal decisions regarding the continuing professional education accreditation of institutions and their credential programs. In 2016-17, the Commission approved the deferment of site visits scheduled for one year in order to provide time for the institutions to plan and implement the vast number of changes required of the Strengthening and Streamlining Project including new standards and requirements for programs. Beginning with the fall 2017, site visits were reinstated for all Commission-approved programs beginning with the Green Cohort. This first year of implementation of site visits under the new accreditation system included the implementation of some of the new aspects of the new streamlined and strengthened processes developed and implemented for the first time. For instance, this included the new streamlined process for review of the Common Standards and use of the program completer survey results by the team in formulating questions and informing the team of program outcomes.

Twenty-nine (29) institutions were hosted site visits in 2017-18 resulting in the following decisions:

- 22 institutions Accredited including 4 with a 7<sup>th</sup> year report
- 4 institutions Accredited with Stipulations
- 1 institutions Accredited with Major Stipulations

- 2 institutions Accredited with Probationary Stipulations

*Ensuring Institutions Addressed Stipulations.* All institutions with stipulations are expected to address any stipulations within one year. However, the COA may allow additional time if it believes the institution has made sufficient progress and additional time is warranted. In 2017-18, there were three institutions that had been accredited with stipulations in previous years and given until 2017-18 to continue to make progress in addressing the stipulations. The COA removed the stipulations fully in the 2017-18 for two of them. The remaining institution made significant progress and was given additional time to address the one remaining stipulation.

*Technical Assistance Efforts.* The Commission’s efforts at technical assistance for institutional personnel about accreditation continued throughout 2017-18, to a lesser degree than the previous year which was almost exclusively focused on developing the new systems and on technical assistance. The Accreditation Technical Assistance Webpage on the Commission’s website continued to be used and stakeholders were kept informed of upcoming technical assistance opportunities through emails and the PSD Enews. Additionally, staff made itself available to present and discuss information at a variety of stakeholder meetings and conferences throughout the year.

The summary tables are provided in order to demonstrate the frequency and scope of these technical assistance activities in 2017-18.

**Technical Assistance for Institutions Preparing for 2018-19 Site Visits**

Technical Assistance Activity	Date/Location	Attendees

\*Average of 50 per week per consultant

*Accreditation Handbook revisions.* The *Accreditation Handbook* explicates the processes and procedures of the various components of the accreditation system. Throughout 2016-17, as the various components of the new accreditation system were developed, staff and the COA considered what language needed to be included or revised in the *Handbook*. In 2017-18, as the Commission moved into the implementation phase of the new accreditation system and adjustments were made to the processes as this implementation took place, revisions to the *Accreditation Handbook* were also considered that reflected these refinements.

*Receive regular updates on Commission activities related to accreditation and provide Commission with advice on issues related to accreditation as requested by the Commission.* During 2017-18 staff continued to prepare agenda items for the COA on issues related to the Commission’s work as directed by the Commission or as appropriate to the continuing work of the Committee. With the efforts to streamline and strengthen accreditation this function continued to be critically important in 2017-18.

### Purpose 3. Ensure Adherence to Standards

*Review and take action to grant initial approval of new program sponsors.* During 2017-18, the Commission’s new initial institutional approval policy for institutions seeking to become a Commission-approved program sponsor of educator preparation programs in California was in full implementation. The requirements for an institution to become a Commission-approved educator preparation program sponsor in California had been an area in which significant strengthening and revision was necessary as it had not been reviewed in many years. Accreditation 101 sessions for institutions exploring whether to seek initial institutional approval to offer an educator preparation program continued to be held throughout 2017-18. As anticipated, fewer institutions participated in Accreditation 101 due to the fact that many did so in the previous year. Accreditation 101 was offered three times in 2017-18 and five institutions participated.

As a result of the establishment of the new Initial Institutional Approval process, in 2017-18 eight institutions were brought to the Commission for consideration and approval for either Stage II (Eligibility Requirements) or III (Alignment with Standards) of the Initial Institutional Approval process. These institutions are listed in Section II of this report.

*Review and take action to grant initial program approval for new credential programs.* This is also one of the major ongoing tasks of the Committee on Accreditation. The COA has developed procedures for handling the submission of proposed credential programs for Commission-approved institutions. Programs are only granted initial approval when reviewers have determined that all Commission’s standards are met and after COA acts to approve. This review

process continued in 2017-18. Because institutions may submit program proposals anytime throughout the year, the Commission attempts to find reviewers willing and able to review the documents as soon as possible. As a result, the vast majority of the reviews for new program proposals are conducted remotely with reviewers being sent the documents and devoting time on their own schedule, at their homes or offices, working via technology with their initial program review partner. A total of 25 new programs were approved by the COA in 2017-18. The list of these new programs is included in Section II of this report.

*Transition from the former Program Assessment process to the new Program Review process.* The Green Cohort was the last of the institutions to submit Program Assessment documents under this process in 2014. These institutions had already submitted documentation under the former system (where lengthy narratives were provided for every standard) before the Commission had adopted its new more streamlined Program Review approach. Site visits for the Green Cohort were then conducted in 2017-18 as a hybrid between the old and the new accreditation system, in particular using information from the old Program Assessment process and the new streamlined Common Standards review process.

Beginning in the fall of 2017, the Commission transitioned to using the new streamlined Program Review process of submitting very specific evidence with limited narratives describing how the institution was implementing the standards in its programs. In 2016-17, the streamlined evidence requirements and processes for the new Program Review process were developed and finalized. In addition, the process had been piloted first with the Administrative Services credential programs since the timing of the adoption of new standards and performance expectations proved ideal to pilot the new system prior to going to scale. In the fall of 2017 this new process was used with all the institutions in the Yellow Cohort.

The feedback from reviewers and institutions alike has been overwhelmingly positive. The feedback from reviewers has uniformly been one of strong support for the new system. Whereas under the previous system, it could take many weeks or months to complete a review of the voluminous submissions, reviewers are able to complete the task of reviewing the evidence submitted in one to two days. Reviewers have also reported a better understanding of the program under this new process. Institutional personnel have communicated that they have a better understanding of the exact types of evidence needed for program submissions and that the new process has removed some of the guess work out of knowing what is needed and limiting the temptation to provide significantly more than is what is required. Feedback is provided to the institutions in a much more timely manner. The institution must then provide an addendum responding to the reviewers' questions about the documentation that is reviewed just prior to and during the site visit. This new process has every indication of meeting the Commission's charge to both strengthen and streamline the accreditation process.

*Begin the New Common Standards Review Process.* Commission staff developed and the COA approved a new streamlined approach to Common Standards review which included the submission of prescribed documentation and information along with very limited narrative. Common Standards submissions for the Yellow Cohort were due in February 2018. The new

Common Standards review process was implemented for the first time and was used to inform the site visits that are taking place in 2018-19. Like the Program Review process, reviewers expressed overwhelming positive support for the new process noting that they were able to complete the review process and reach preliminary findings in a much shorter timeframe than the previous process. Additionally, feedback was provided to the institution between 8-10 months prior to their site visit whereas the prior system only allowed for feedback a month or so before the visit. This has allowed institutions to address concerns prior to the site visit. Knowing that the team lead and the Common Standards reviewers who read the submissions would also be at the site visit allowed them to feel confident that any areas needing follow up or further inquiry that resulted from the document review would take place since they were already familiar with the issues and outstanding questions.

*Continue the New Process of Review of the Preconditions.* The Commission's new accreditation system requires that preconditions be submitted and reviewed in Years 1 and 4 of the 7-year cycle. Two cohorts of institutions submitted preconditions in Spring 2018: Orange and Indigo. In addition, those in the Green Cohort were required to provide their preconditions as well as they were the cohort that fell within the timeframe of shifting from one accreditation system to another.

In the first year of operation, reviewing these preconditions was a significant endeavor that required the participation of most of the consultants and analysts in the Professional Services Division who added this workload on top of their regular responsibilities. Follow up and corrections were required of many programs and hence a second review was necessary. Under this process, the timeliness of the review and the determination of whether an institution was in compliance was not optimal. Staff then instituted a number of improvements in the submission and review process and, as a result, the timeliness of the review has improved significantly. These included identifying a primary analyst who acted as the single point of contact within the Commission to track and communicate with institutions about their submission. In addition, changes were made to the directions for institutions that clarified the expectations around the responses and the types of evidence required to demonstrate alignment with preconditions for the General Preconditions and some of the credential areas. This clarification was welcomed by the field and was successful in contributing to making the review of the preconditions much easier and more efficient. Staff will continue to expand this guidance to the other credential areas in 2018-19.

*Development of the new Annual Data System.* The development of a new annual data system was one of the key components to the work plan for 2016-17. The Commission entered into an agreement with a technology contractor who worked closely with the Commission staff over the course of the year to build the infrastructure necessary to allow institutions to provide consistent data about their programs, candidates, and outcomes. The data system is multi-pronged and multi-purposed. Various aspects of the system and the data will be used by institutions, the Commission and its staff, and accreditation teams. In addition, in the future, where appropriate, some of the data will interface with the data dashboards and be available to members of the public.

The contractor's work in building the infrastructure of the system was completed in June of 2017 and the Commission staff has worked since that time to prepare for the first pilot year of implementation in 2017-18. First year efforts include establishing institutional logins, designating the type of authority individuals from each institution will have within the system, and beginning to establish program "sets" with basic data (pathways offered, enrollment, completion information, etc.). As the data system is more developed over time, additional information, particularly outcomes-based data, will be included in the annual data system.

Technical Assistance was provided from November 2017 to August 2018. Staff conducted Accreditation Data System (ADS) office hours on a weekly basis held via video conferencing technology. These office hours were to support institutions in accessing the ADS, creating accounts, connecting individuals to the institution, giving individuals appropriate roles and answering questions related to the data questions. On average, 23 individuals participated during each set of office hours. Office hour dates and times were listed on the [Accreditation Technical Assistance](#) page. Staff continuously worked with and provided support to institutions in the use of the ADS. Updates were shared at prior Committee meetings. Staff also developed ADS [resources](#) such as guidance documents, FAQs and video presentations to support institutions in understanding the ADS.

*Implementation of Survey Instruments.* Using data from survey instruments is one important component to increasing the focus on outcomes in the accreditation system. In 2016-17 the Completer Surveys (Preliminary Multiple Subject, Single Subject, Education Specialist and Administrative Services as well as Clear Admin Services, General Education Induction, and Clear Education Specialist Induction) were integrated into the credential recommendation process so that program completers must go through the survey to pay for the credential that was earned. A completer may elect to not respond to the survey, but the number of completers who have done this is small. As a result of this change, the response rate for the surveys increased such that the results are now useable for accreditation purposes. Completer Surveys are open from September 1 to August 31 annually with the survey results (Program Reports) being sent to institutions in October for the prior year.

In addition to these program completer surveys, the Commission administers both a Master Teacher Survey and an Employer Survey. The Master Teacher survey was in its third year of administration while the Employer Survey was piloted in 2016-17. The Master Teacher Survey is open from September 1-August 31 annually. Preliminary teacher preparation programs send the link to the Master Teacher Survey to all their master teachers as well as submit information on the total number of master teachers that program has that year. The Employer Survey is open in the fall—October-December—and asks employers to provide feedback on an institution's programs if the employer has hired at least 2 completers from that program in the past 3 years. More information on the Surveys can be found on this [webpage](#):

Because the response rate was sufficiently high for the program completer surveys, the results were used by accreditation teams in 2017-18. All accreditation site visit teams were instructed

to use the completer surveys to develop questions for further interviews, to inform their understanding of the program's possible areas of strength and areas in potential need of improvement, and to discuss results with the program personnel. In addition, the results could be used to streamline the accreditation process. When the response rate is high and the feedback positive for an institution and its programs, a smaller proportion of program completers may be needed for interviews during the site visit. Staff built into the new BIR training some time to discuss with potential reviewers how to use the results from the various surveys. Expanded use of surveys will be a focus of 2018-19 and will be discussed further in this report.

*Develop and Implement a New Team Lead Training.* In early Fall of 2017, the Commission staff held two Team Lead training sessions for those individuals who would be leading site visit teams in 2017-18 with the Green Cohort institutions. This training covered a variety of topics including the overall approach of the new accreditation system, an overview of new aspects of the standards, and the new processes and procedures required. This training was repeated in the Spring 2018 for team leads for the Yellow Cohort site visits which began in fall 2018. These trainings were very successful and well attended.

#### **Purpose 4. Foster Program Improvement**

*Noting Late Submission.* Providing a report on institutions that have not complied with the required timelines and due dates has become a standard agenda item for the COA. Staff continued the reports in 2017-18 at each COA meeting. These included institutions that were late in submitting required transition plans for the transition to new standards, preconditions, Common Standards, Program Review, and Annual Data submissions. This information has improved the COA's understanding of institutions that have not complied with the Commission's timelines for accreditation activities and has served as additional leverage with institutions to ensure compliance.

*Continue implementation of the evaluation system for the accreditation system.* Staff has been monitoring how effective and efficient the new processes and procedures are with each new implementation effort. Staff frequently requests information from reviewers and institutions on these new processes. Some changes and "tweaks" to the system have been instituted as a result of feedback from reviewers and institutions. In addition, post site visit evaluations have resumed that are completed by team leads, consultants, all team members, and institutional personnel. This information will be used to make improvements to the system, to identify possible team leads in the future, to identify any future additions to training and technical assistance opportunities, and to address any concerns that may exist as a result of the manner in which the Commission's accreditation processes have been implemented.

*Continue partnership with the Council for the Accreditation of Educator Preparation (CAEP) and efforts to collaborate with other national accrediting bodies, where appropriate.* A new Partnership Agreement with CAEP was signed by both parties in May 2015. During 2017-18, Commission staff continued to work with the CAEP staff to better understand new CAEP standards and processes and to determine their applicability to California's context.

Commission staff communicated with CAEP staff on issues as they arose and were able to secure a deferment of site visits to align with the Commission's timeline for deferment of site visits by one year for extensive technical assistance activities. In addition, Commission staff attended both the CAEP clinic for state agencies charged with the responsibility of program approval and accreditation and the annual CAEP conference. These meetings ensure staff has an understanding of the requirements of CAEP review as well as is able to identify any work necessary to maintain a joint review process for institutions seeking both state and national accreditation. This work continues with the first institution to seek CAEP accreditation undergoing a joint site visit in spring 2019.

*Board of Institutional Reviewer's (BIR) Training.* Following the substantial revisions to processes and procedures and to incorporate outcomes data such as survey results, it became necessary to significantly revise the training for both new and veteran reviewers. Under the previous BIR training, most of the training took place face to face over a period of 3-4 days and focused significant attention on the review of the voluminous documentation required under the previous accreditation system.

The revised reviewer training is divided into two major components: 1) Program Review or Common Standards Review, and 2) Site Visit Training. With the Program Review and Common Standards Review process, the reviewers are trained to review and analyze a prescribed set of evidence that is required to be submitted by institutions and programs and determine, primarily on the basis of the evidence alone with very limited narrative, whether the standards appear to be preliminarily aligned.

Once individuals have completed either the Program Review training and review or the Common Standard training and review, they are invited to attend the two-day face to face site visit training. The site visit training focuses on reviewing those skills and abilities necessary to serve on a site visit team. This includes, but is not limited to, understanding the documentation submitted under the previous components of the accreditation system (preconditions, program review, and Common Standards), the role and importance of standards, conflict of interest and confidentiality, the use of program completer survey results and other survey data, the role of the data submitted by institutions in the Annual Data submission process, interview techniques for accreditation, decision making for reaching standard findings and accreditation recommendations, and report writing.

The first revised BIR training took place in August 2018 with approximately 30 individuals. Two more trainings have taken place in 2018-19 for a total of 90 new individuals trained as BIR members. The revised training has been well received.

### **Other Activities Not Directly in the Accreditation System**

*Review and Approve Subject Matter Programs - Elementary Subject Matter Programs (ESM) and Single Subject Matter Programs.* Subject Matter programs do not fall within the Commission's accreditation system, nevertheless, since reviewing subject matter programs is an important function of the Professional Services Division and approving these programs is an important

function of the Commission, this activity is reported here. All teaching candidates must demonstrate subject matter competence. In 2016, the Commission approved regulations, which were subsequently approved by the Office of Administrative Law in 2017, to allow passage of a Commission approved Elementary Subject Matter program to count as demonstration of subject matter competence for the Multiple Subject credential, reversing years under the No Child Left Behind Act in which only passage of the CSET for the Multiple Subject credential was allowed. With the change in policy that once again allowed for Commission approved subject matter programs to waive the CSET examination for demonstration of subject matter competence for multiple subject candidates, the responsibility to review and approve these programs once again became a priority for the Commission. In 2017-18, seven institutions were approved by the Commission after review by subject matter experts that determined the programs to be in alignment with the Subject Matter standards. An additional subject matter program was approved in 2017-18 in Agriculture. In addition, the Commission continues to review and approve all proposals submitted for Single Subject Matter programs. These programs are included in Section II.

### **General Operations**

In addition to the above mentioned items, the COA engaged in routine matters necessary for general operations of the Committee. This includes the election of Co-Chairs, the adoption of a meeting schedule, and orientation of new members.

## Section II: Summary of 2017-18 Accreditation Activities

This section of the report provides more detailed information about results of the 2017-18 Work Plan with a focus on accreditation activities.

### Accreditation of Program Sponsors and their Credential Preparation Programs

In 2017-18, accreditation site visits resumed with the 29 institutions in the Green Cohort. Accreditation decisions were made based upon the written reports of the evidence gathered at the site visit, recommendations made by the site visit team, and the COA interview of program leadership and the team lead. Teams reviewed documentation, interviewed a variety of constituencies (candidates, program completers, faculty, employers, administration, supervisors, etc.), deliberated, and came to consensus on findings for all Common Standards, program standards, and an accreditation recommendation. Commission consultants, team leads, and institutional representatives attended Committee on Accreditation meetings to present the results of the site visit report and respond to questions. Upon review and discussion the COA accepts or modifies the team’s accreditation recommendation. Copies of the site visit team reports are available on the [Commission’s website](#).

The COA made the following accreditation determinations in 2017-18:

<b>Accreditation Status for Institutions with Site Visits in 2017-18 (29)</b>	
<b>Program Sponsor</b>	<b>Accreditation Status</b>
Antioch Unified School District	Accreditation
Bakersfield City School District	Accreditation
California Lutheran University	Accreditation
CSU Channel Islands	Accreditation with Stipulations
CSU East Bay	Accreditation
CSU San Bernardino	Accreditation with a 7th Year Report
Evergreen Elementary School District	Accreditation
Fairfield-Suisun Unified School District	Accreditation
Fresno County Superintendent of Schools	Accreditation
Garden Grove Unified School District	Accreditation
Hacienda La Puente Unified School District	Accreditation
Humphreys University	Accreditation
La Mesa Spring Valley School District	Accreditation with Major Stipulations
Los Angeles County Office of Education	Accreditation with a 7th Year Report
Madera County Superintendent of Schools	Accreditation
Merced County Office of Education	Accreditation
Mills College	Accreditation with Stipulations
Montebello Unified School District	Accreditation with Probationary Stipulations
Newark Unified School District	Accreditation with Probationary Stipulations
Notre Dame de Namur University	Accreditation with Stipulations
San Bernardino City Unified School District	Accreditation
San Diego County Office of Education	Accreditation with a 7th Year Report
San Juan Unified School District	Accreditation

<b>Accreditation Status for Institutions with Site Visits in 2017-18 (29)</b>	
San Mateo Foster City School District	Accreditation
Santa Ana Unified School District	Accreditation
Saugus Union School District	Accreditation with Stipulations
Simpson University	Accreditation with a 7th Year Report
Tulare County Office of Education	Accreditation
Westmont College	Accreditation

### **Institutions Meeting All Standards**

The institutions listed in the table below hosted an accreditation site visit in 2017-18 which resulted in determining that the institution had met all Common and program standards for all programs offered by the institution. Of the 29 site visits, 14 institutions (48%) with site visits in 2017-18 met all standards applicable for the programs they offer.

<b>Institutions Receiving Accreditation with All Common and Program Standards Met 2017-18 Visits</b>	
<b>Program Sponsor</b>	<b>Number of Programs</b>
Antioch Unified School District	1
Bakersfield City School District	1
California Lutheran University	8
Evergreen Elementary School District	1
Fresno County Superintendent of Schools	2
Garden Grove Unified School District	1
Hacienda La Puente Unified School District	1
Humphreys University	1
Merced County Office of Education	2
San Bernardino City Unified School District	1
San Juan Unified School District	1
San Mateo Foster City	1
Santa Ana Unified School District	1
Westmont College	2

### **Summary of Findings on Common Standards**

A review of the year's visit results serves as information for the COA and staff in determining needs for technical assistance meetings as a guide for institutions as they prepare for site visits. The information regarding findings using the new Common Standards for 2017-18 site visits are presented in the following table.

Findings in the Common Standards 2017-18 Accreditation Site Visits (29 Institutions)	Standard Findings		
	Met	Met with Concerns	Not Met
1: Institutional Infrastructure to Support Educator Preparation	21	6	2
2: Candidate Recruitment and Support	27	2	0
3: Study, Fieldwork, and Clinical Practice	24	5	0
4: Continuous Improvement	23	2	4
5: Program Impact	28	1	0

### Summary Findings on Program Standards

#### Analysis of Program Standards Decisions

The chart below indicates the number of institutions that hosted site visits in 2017-18 that offered the program listed and the number of institutions where all of the program standards were found to be met in that credential area.

All Program Standards Found to be Met 2017-18 Site Visits		
Program	# Institutions W/All Program Standards Met	Total # Institutions
Added Authorization: Autism Spectrum Disorders	5	5
Added Authorization: Deaf-Blind	1	1
Added Authorization: Early Childhood Special Education	5	5
Added Authorization: Emotional Disturbance	2	2
Added Authorization: Orthopedic Impairment	2	2
Added Authorization: Reading and Literacy	1	1
Added Authorization: Traumatic Brain Injury	1	1
Bilingual Authorization	2	2
Clear Administrative Services Credential	6	6
Clear General Education (MS/SS) Teacher Induction	1	1
Designated Subjects: Adult Education	1	2
Designated Subjects: Career Technical Education	3	4
Designated Subjects: Special Subjects	2	2
Designated Subjects: Supervision and Coordination	3	3
Education Specialist Deaf and Hard of Hearing	1	1
Education Specialist: Early Childhood Special Education w/Intern	4	4
Education Specialist Mild/Moderate Disabilities Intern	7	7
Education Specialist Moderate/Severe Disabilities w/Intern	5	6
PPS-Child Welfare and Attendance	1	1
PPS -School Counseling with Intern	3	3
PPS-School Psychologist with Intern	2	2
Preliminary Administrative Services	9	10
Preliminary Multiple Subject with Intern	8	11
Preliminary Single Subject with Intern	7	10

<b>All Program Standards Found to be Met 2017-18 Site Visits</b>		
<b>Program</b>	<b># Institutions W/All Program Standards Met</b>	<b>Total # Institutions</b>
Specialist Teaching: Adapted Physical Education	1	1
Specialist Teaching: Reading and Literacy Leadership Specialist	1	1
Speech-Language Pathology	1	1
Teacher Induction	13	18

### **Program Standards**

The summary of the information gathered on all educator preparation programs with determinations of *Met with Concerns* or *Not Met* are presented in the tables below. If a standard is not listed, all institutions met that standard. As with the information about the Common Standards, this information about standards that we *Not Met* or were *Met with Concerns* guides the COA and staff in determining what additional technical assistance might be helpful to the field.

<b>Designated Subjects: Adult Education Standards (2 Site Visits)</b>	<b>Met with Concerns</b>	<b>Not Met</b>
8: Curriculum and Instruction Planning	1	-
10: Instructional Practices (A,B, D)	1	-

<b>Designated Subjects: Career Technical Education Standards (4 Site Visits)</b>	<b>Met with Concerns</b>	<b>Not Met</b>
1: Program Design and Rationale	1	-
6: Determination of CTE Teacher Competence	1	-
7: Advanced Programs of Preparation	1	-

<b>Preliminary Administrative Services Credential Standards (10 Site Visits)</b>	<b>Met with Concerns</b>	<b>Not Met</b>
5: Role of Schooling in a Democratic Society	1	-

<b>Preliminary Education Specialist: Moderate/Severe Disabilities Standards (6 Site Visits)</b>	<b>Met with Concerns</b>	<b>Not Met</b>
4: Assessment, Program Planning and Instruction	1	-
5: Assessment of Students	1	-
8: Augmentative and Alternative Communication	-	1

<b>Preliminary Multiple Subject Standards (11 Site Visits)</b>	<b>Met with Concerns</b>	<b>Not Met</b>
1: Program Design and Curriculum	2	-
2: Preparing Candidates towards the Mastery of the Teaching Performance Expectations	2	-

3: Criteria for the Selection of District -employed Supervisors	1	-
---	---	---

<b>Preliminary Single Subject Standards (18 Site Visits)</b>	<b>Met with Concerns</b>	<b>Not Met</b>
2: Preparing Candidates towards the Mastery of the Teaching Performance Expectations	2	-
3: Criteria for the Selection of District -employed Supervisors	2	-
5: Implementation of a Teaching Performance Assessment	1	-

<b>Teacher Induction Standards (15 Site Visits)</b>	<b>Met with Concerns</b>	<b>Not Met</b>
1: Program Purpose	1	-
3: Designing and Implementing Individual Learning Plans within the Mentoring System	1	1
4: Qualifications, Selection, and Training of Mentors	1	1
5: Determining Candidate Competence	2	-
6: Program Responsibilities for Assuring Quality of Program Services	2	2

### **Institutions in 7<sup>th</sup> Year Follow Up**

In 2017-18, the COA continued to monitor progress made in addressing stipulations for any institutions with outstanding issues from previous year's visits. Although any institution with stipulations must address all stipulations within one year, the COA may choose to allow the institution more time if the COA is satisfied that significant progress is being made to address the stipulations. Because site visits did not take place in 2016-17, the institutions listed below were allowed additional time by the COA to continue to address specific stipulations. It should be noticed that all three of the institutions had the majority of its stipulations removed in 2016-17- one year after their site visit and two of the three had full accreditation in 2017-18.

<b>2017-18 Accreditation Follow-Up for Institutions that Hosted Site Visits in Prior Years</b>				
<b>Program Sponsor</b>	<b>Revisits</b>			<b>Current Status for Institutions with Stipulations Remaining</b>
	<b>2015-2016 Decision</b>	<b>2016-2017 Revisit Decision</b>	<b>2017-2018 Revisit Decision</b>	
California School for the Deaf	Accreditation with Stipulations	Accreditation with Stipulations COA removed 3 of 5 stipulations (6/2017)	Accreditation	COA removed the final stipulation and granted accreditation (06/2018)
Holy Names University	Accreditation with Major Stipulations	Accreditation with Stipulations COA removed 7 of 8 stipulations (6/2017)	Final Stipulation will be reviewed at the November 7, 2018 COA meeting	To be reviewed at the COA meeting on November 7, 2018
Tehama Department of Education	Accreditation with Stipulations	Accreditation with Stipulations COA removed 5 of 6 stipulations (6/2017)	Accreditation	COA removed the final stipulation and granted accreditation (06/2018)

### **Initial Institutional Approval (IIA)**

The Committee on Accreditation does not have authority to approve the eligibility of institutions to offer educator preparation programs in California. Rather, Initial Institutional Approval is within the purview of the Commission. Once the Commission determines that an institution is eligible to offer educator preparation in California, the program proposals by those institutions are brought forward to the COA for its consideration and action. The following institutions were brought before the Commission for Initial Institutional Approval. The table identifies the Stage that was approved.

<b>Initial Institutional Approval (8)</b>			
<b>Institution</b>	<b>Stage</b>	<b>Approval</b>	<b>Approved</b>
University of Antelope Valley	Stage II - Eligibility Requirements	Eligibility Approved	6/14/18
Atwater Elementary School District	Stage II – Eligibility Requirements	Eligibility Approved	10/26/17
Hollister School District	Stage II – Eligibility Requirements	Eligibility Approved	6/14/18
University of California, Merced	Stage II – Eligibility Requirements	Eligibility Approved	9/7/17
Las Virgenes Unified School District	Stage III - Alignment of Standards and Preconditions	Provisional Approval	9/7/17

<b>Initial Institutional Approval (8)</b>			
Santa Barbara Unified School District	Stage III - Alignment of Standards and Preconditions	Provisional Approval	12/7/17
University of California, Merced	Stage III - Alignment of Standards and Preconditions	Provisional Approval	4/12/18
Fortune School of Education	Stage III – Alignment of Standards and Preconditions	Provisional Approval	4/12/18
High Tech High Graduate School of Education	Stage III – Alignment of Standards and Preconditions	Provisional Approval	2/8/18

### **Initial Approval of New Credential Programs (IPR)**

Institutions seeking Initial Program Approval for new credential programs submit a response to Common Standards document (or a Common Standards addendum if the institution has recently submitted Common Standards) and a documentation that indicates how the proposed program will meet each of the Commission-adopted program standards along with supporting documents that serve as evidence to verify the claims made. A team of educators who have expertise in the program area and are trained for the review process read the standards documents and consult with one another to determine whether standards are aligned. If the reviewers jointly agree that standards are met, it is so noted. If the review team agrees that standards are not met, reviewers request specifically what additional information is needed. This feedback is shared with the institution by the Commission staff. The institution addresses any concerns and resubmits until the program is found to be aligned with all standards. Additionally, the institution submits a response to all relevant program specific preconditions, which are reviewed by Commission staff. When all standards are found to be met and all relevant preconditions are determined to be addressed, the COA takes action to grant or deny program approval at its next scheduled meeting.

Initial Program Approval actions taken by the Committee on Accreditation in 2017-18 for new institutions are listed in the tables below.

<b>New Educator Preparation Programs Sponsored by Provisionally Approved Institutions(5)</b>	
<b>Credential Program</b>	<b>Institutional Sponsor</b>
Administrative Services Credential Clear Induction (1)	Las Virgenes Unified School District
Preliminary Administrative Services (1)	Las Virgenes Unified School District
Preliminary Multiple Subject/Single Subject (1)	High Tech High Graduate School of Education
Teacher Induction (2)	Las Virgenes Unified School District
	Santa Barbara Unified School District

The Committee on Accreditation granted Initial Program Approval for current institutions to the following preparation programs:

<b>Preparation Programs Approved by COA (20)</b>	
<b>Credential Program</b>	<b>Institutional Sponsor</b>
Administrative Services Clear Induction (2)	Capistrano Unified School District

<b>Preparation Programs Approved by COA (20)</b>	
<b>Credential Program</b>	<b>Institutional Sponsor</b>
	Corona-Norco Unified School District
Bilingual Authorization – Cantonese (1)	Loyola Marymount University
Bilingual Authorization – Spanish (2)	CSU Monterey Bay
	Los Angeles Unified School District
Education Specialist: Mild/Moderate Intern (2)	Davis Joint Unified School District
	Placer County Office of Education
Education Specialist: Moderate/Severe Intern (1)	Davis Joint Unified School District
Education Specialist: Early Childhood Special Education Intern (1)	Los Angeles Unified School District
Preliminary Administrative Services (2)	California State University, Monterey Bay
	Sonoma County Office of Education
Preliminary General Education Multiple Subject Intern (2)	Humphreys University
	Santa Clara University
Preliminary General Education Single Subject Intern (1)	Santa Clara University
Pupil Personnel Services Child Welfare and Attendance (2)	Loyola Marymount University
	California State University, Monterey Bay
Pupil Personnel Services: School Social Work (2)	California State University, Monterey Bay
	Humboldt State University
Speech-Language Pathology (1)	California Baptist University
Teacher Induction (1)	University of Southern California

### **Initial Approval of New Subject Matter Programs**

Although subject matter programs are not part of the accreditation system, reviewing new program proposals are a significant part of the Professional Services Division priorities. The eight programs approved by the Commission in 2017-18 are included in the table below.

<b>New Subject Matter Programs (8)</b>	
California State University, Fresno	Elementary Subject Matter
California State University, Los Angeles	Elementary Subject Matter
California State University, Monterey Bay	Elementary Subject Matter
California State University, Sacramento	Elementary Subject Matter
Point Loma Nazarene University	Elementary Subject Matter
San Francisco State University	Elementary Subject Matter
University of California, Davis	Single Subject - Agriculture
Vanguard University	Elementary Subject Matter

### **Inactive Status**

Institutions may temporarily cease offering an approved program for a variety of reasons such as decreased need in the service area or changes in faculty with expertise in the area. Inactive programs may be teaching out the remaining candidates but are not enrolling additional students. A program may be declared inactive for a maximum of five years. Inactive status does

not excuse an institution from accreditation activities. All inactive programs must participate in accreditation activities in a modified manner as determined by the COA and Administrator of Accreditation. The following 18 programs noted below were declared to be in an Inactive status in 2017-18.

<b>Programs Entering Inactive Status (18)</b>	
<b>Institution</b>	<b>Program</b>
California State University, East Bay (1)	Early Childhood Special Education – Added Authorization
California State University, Long Beach (2)	Teacher Induction
	Clear Education Specialist
La Mesa - Spring Valley School District (1)	Teacher Induction
Pepperdine University (2)	Preliminary Administrative Services
	Clear Administrative Services
San Diego State University (2)	School Nurse
	Autism Spectrum Disorders – Added Authorization
San Diego Unified School District (1)	Teacher Induction
Santa Clara University (1)	Clear General Education Induction
University of California, Los Angeles (6)	Early Childhood Special Education – Added Authorization
	Emotional Disturbance – Added Authorization
	Education Specialist Mild/Moderate Intern
	Multiple Subject Intern
	Single Subject Intern
University of California, Riverside (1)	Education Specialist - Mild/Moderate Traditional
	Education Specialist – Added Authorization: Early Childhood Special Education
University of Phoenix (1)	Preliminary Administrative Services

### **Reactivation of Inactive Program**

An inactive program may be reactivated only when the institution submits a request to the COA and the COA has taken action to reactivate the program. If the preconditions or the program standards under which the program was approved have been modified, the institution or program sponsor must address the updated preconditions or standards before the program may be reactivated. During 2017-18, one program previously deemed inactive requested and received reactivation and is once again a fully approved program operating in California.

<b>Reactivation Requests (1)</b>	
<b>Institution</b>	<b>Program</b>
University of San Francisco	Preliminary Administrative Services

### **Transition of Professional Preparation Program**

In 2016, the Commission adopted new Teacher Induction program standards and all induction programs were required to transition to these standards. The following charts indicate 1) the

institutions have chosen to continue to serve only special education preliminary credential holders, 2) the institutions that have chosen to continue to serve only general education credential holders, and 3) the programs that will serve both general education and special education credential holders.

<b>Transition of Professional Preparation Program (3)</b>	
<b>Program Sponsor</b>	<b>Program Type</b>
California State University, Fresno	Teacher Induction – Special Education only
San Jose State University	Teacher Induction – Special Education only
Santa Clara County Office of Education	Teacher Induction – Special Education only

Visalia Unified School District	Teacher Induction
Washington Unified School District	Teacher Induction

### **Withdrawal of an Approved Program**

For a variety of reasons, institutions may choose to no longer offer an approved program. Institutions are encouraged to formally seek a withdrawal of these programs thus removing the program from the Commission’s accreditation system. The program is then no longer considered a Commission-approved program. If an institution decides to offer a program in the future, it is a minimum of one year before a new program proposal will be accepted.

<b>Withdrawn Programs of Professional Preparation (34)</b>	
<b>Institution</b>	<b>Program</b>
Azusa Unified School District	General Education (Multiple/Single Subject) Induction
California State University, Long Beach	Designated Subjects – Special Subjects
	Designated Subjects – Supervision and Coordination
	Specialist Teaching – California Teachers of English Learners (CTEL)
California State University, San Marcos	Specialist Teaching – California Teachers of English Learners (CTEL)
Chapman University	Preliminary Administrative Services Credential with Intern

<sup>1</sup>While these programs were closed as operated under the LEA (San Joaquin COE), they are now operating under the purview of Teachers College of San Joaquin.

### Automatic Withdrawal

Programs which have met or exceeded the maximum five-year period allowable by the accreditation system are automatically withdrawn. The following program was automatically withdrawn:

Automatic Withdrawal for Programs of Professional Preparation (1)	
Institution	Program
Magnolia Public Schools	Preliminary Single Subject Teaching Credential

### Institutions that are No Longer Approved Program Sponsors

The following institutions are no longer approved program sponsors as a result of withdrawing all of their remaining approved programs.

Institutions No Longer Approved Program Sponsors (5)	
Azusa Unified School District	Closed Educator Preparation in June 2018
Magnolia Public Schools	Automatic Withdrawal in June 2018
San Joaquin County Office of Education <sup>2</sup>	Closed Educator Preparation in June 2018
San Marcos Unified School District	Closed Educator Preparation in June 2018
Santa Rosa City Schools	Closed Educator Preparation in June 2018

<sup>2</sup>San Joaquin COE ceased to operate as a Commission approved program sponsor; however, many of the programs are now operating under the purview of Teachers College of San Joaquin.

### Preconditions Review

During Year 1 and Year 4 of the accreditation cycle institutions must respond to all relevant preconditions. Preconditions are grounded in statute, regulations and/or Commission policy, for each approved program. During 2017-18, institutions in three cohorts (Green, Orange and Indigo) submitted preconditions for review. Green preconditions were necessary because these cohort activities fell between the former accreditation system and the new accreditation system and the preconditions for institutions in this cohort had not been reviewed since their last accreditation visit. In future years, preconditions for only two cohorts of institutions will be reviewed each year.

### **Program Review and Common Standards**

During Year 5 of the accreditation cycle institutions must respond to the Common Standards and complete Program Review. Program Review is the activity during which key program evidence is reviewed to determine whether the educator preparation program appears to be aligned to program standards. During 2017-18, the 36 institutions of the yellow cohort identified in the table below responded to Common Standards and completed Program Review. As indicated in the table below, these 36 institutions offer a total of 137 programs. To provide some understanding of the scope of this work, each program is reviewed by two individuals. Reviewing 137 programs then required the effort of over 270 reviewers matched by expertise and availability.

### **Section III: Proposed Work Plan for the Committee on Accreditation in 2018-19**

The work plan for the Commission and COA for 2018-19 is summarized in this section. Having focused 2017-18 on the first year implementation of many aspects of the new system and reinstating accreditation site visits, the primary objective of 2018-19 will be the continued implementation of these new processes, refining them as needed, and the further development and implementation of those aspects of the system that have yet to be implemented fully.

For 2018-19, the COA identifies the following priorities.

#### **Purpose 1. Ensure Accountability to the Public and to the Profession**

*Maintain public access to the Committee on Accreditation.* All Committee meetings will continue to be held in public and all meeting agendas posted in accordance with the Bagley-Keene Open Meeting Act. In addition, meetings will be broadcast to allow any individual with access to the Internet the ability to hear live or recorded broadcasts of all Committee meetings. The Commission's website will continue to be utilized fully to provide agenda items, notification of meetings, as well as broad-based access to critical accreditation materials for institutions and others interested in accreditation. Meetings are scheduled for the following dates:

August 6, 2018  
November 7, 2018  
January 31-February 1, 2019  
March 14-15, 2019  
May 2-3, 2019  
June 27-28, 2019

The Committee's agenda in 2018-19 includes a full schedule of site visits beginning in the fall of 2018 and continuing well into the spring. Thirty-six institutions are scheduled for site visits. This schedule will take place while also implementing, and refining as needed, all aspects of the new accreditation system such as Program Review, Annual Data Submission, Preconditions Review, and Common Standards Review.

Continuing in 2018-19, the *PSD ENews*, Program Sponsor Alerts, and press releases will be routinely used to ensure a transparent accreditation process.

*Preparation and presentation of COA reports to the Commission.* The Committee on Accreditation will present its annual report to the Commission in November 2018. Additional updates and reports to the Commission will be provided as necessary and appropriate throughout the year.

*Commission liaison.* Maintaining a liaison from the Commission to the COA continues to be key to ensuring that the work of the COA and the accreditation system are aligned with the objectives and vision for the new accreditation system set forth by the Commission. The

Commission's liaison will continue to provide an important perspective to COA discussions and serve as an effective means of communication between the COA and the Commission.

*Continued Implementation of a fee recovery system for certain accreditation activities and an annual accreditation fee system.* The Commission adopted a cost recovery plan, and regulations, for the review of new programs and for accreditation activities outside the typical accreditation cycle in October 2013. In addition, in 2014, the Commission implemented an annual accreditation fee. The annual accreditation fee structure was reviewed in 2016 by the Commission in light of new standards, requirements, regulations proposed. The Commission staff will continue to work with the Office of Administrative Law to ensure that the regulations are promulgated and fit the various aspects of the new accreditation system.

## **Purpose 2. Ensure Program Quality**

*Professional accreditation of institutions and their credential preparation programs.* This is one of the primary ongoing tasks of the Committee on Accreditation. The COA has been given full responsibility for making the legal decisions regarding the continuing accreditation of education institutions and their credential programs.

### *Site Visits – Yellow Cohort*

Beginning in the fall of 2018, the Yellow Cohort, comprised of 36 institutions, will undergo a site visit by a trained team of reviewers. This cohort will be the first to undergo an accreditation site visit having completed the new more efficient Program Review process for reviewing credential program documentation. The information from this process will be used by the site visit team to inform them about the programs prior to the site visit and a subset of the program reviewers have been chosen to serve on the site visit team.

### *Program Standards Review – Orange Cohort*

Program Review submissions were required for the Orange Cohort by October 15, 2018. The Orange Cohort is comprised of 36 institutions offering numerous educator preparation programs. These programs will be reviewed in the 2018-19 year through this Program Review process. This Program Review process, like the new Common Standards process, focuses on very specific evidence and documentation submitted that allows reviewers to determine, without extensive narrative, whether the program is preliminarily aligned to program standards. This information will be used to inform the site visit in Year 6.

The Commission staff has coordinated and assigned at least two experts in each of the credential areas to review each program submission from the Orange Cohort. The vast majority of these review sessions are scheduled throughout November and December 2018 and early 2019 and will take place in a face to face manner at different locations in the state in order to review the documents expeditiously. Once the review session has taken place, the programs must provide an addendum 60 days before the site visit which responds to any areas of concern or areas needing additional information. This

addendum will be used by the site visit team to determine whether the standards are met. The Program Review sessions also serve as Part I of a two part BIR training. Those who participate either in Program Review or Common Standards review will be considered to have completed Part I BIR training, with the site visit training being Part II of BIR training.

#### *Common Standards Submission and Review – Orange Cohort*

In February 2019, the 36 institutions that are in the Orange Cohort will submit their documentation with evidence, in accordance with the new procedures, to demonstrate alignment with the Common Standards. One to two Common Standards reviewers and a Team Lead are selected for each institution and will be brought together in the spring to review these submissions. The institutions must provide additional information in the form of an addendum 60 days prior to the site visit to respond to concerns or questions from reviewers. This addendum will serve to further inform the site visit reviewers. The Common Standards reviewers and the team lead that reviewed the Common Standards, will also be the Common Standards team and the team lead for the site visit so they will be very familiar with the evidence and documentation prior to arriving on site for the site visit.

#### *Preconditions Submission – Red and Blue Cohorts*

In March 2019, the institutions in the Red and Blue cohorts will submit their preconditions responses. Staff will review these preconditions and require follow up as soon as it is determined that there are questions involving any preconditions. If some preconditions responses are unresolved, the COA will be notified and further action will be taken as deemed appropriate by the COA.

#### *Annual Data Submission*

All Commission approved program sponsors will submit required data in 2019. It is anticipated that staff will work closely with the COA, the Commission and the field in general to further refine and clarify the information that is required in the Annual Data System. In addition, further work will be done to determine what data should be incorporated into the data dashboards with easy access for the general public.

*Review and revise the [Accreditation Handbook](#).* The *Accreditation Handbook* explicates the processes and procedures of the various components of the accreditation system. The COA has already completed a comprehensive review and update of the *Accreditation Handbook* to ensure that any new or changed aspects of the accreditation system were reflected in this document. As the new system is implemented, if any language needs to be adjusted in the *Handbook* to reflect these changes, Commission staff with the COA will make sure the language is clear. In addition, there is likely to need to be some clarification of language in the *Handbook* in order to ensure approval of the cost recovery regulations and to satisfy the Office of Administrative Law.

### **Purpose 3. Ensure Adherence to Standards**

*Review and take action to grant initial approval of new program sponsors.* As part of the Strengthening and Streamlining Accreditation Project the Commission approved a new, more rigorous Initial Institutional Approval process for institutions seeking to become a Commission-approved program sponsor. Approximately 2-4 Accreditation 101 sessions will be held in 2018-19 for institutions interested in becoming a Commission-approved program to better understand the expectations and responsibilities of being a program sponsor and to begin the approval process. Commission staff and BIR members will continue to review proposals for Initial Institutional Approval as they are received.

*Review and take action to grant initial program approval for new credential programs.* This is also one of the major ongoing tasks of the Committee on Accreditation. The COA has developed procedures for handling the submission of proposed credential programs. Programs are only being given initial approval when the reviewers have determined that all of the Commission's standards are met. This review process will continue in 2018-19. When possible, the Commission will bring reviewers together for dedicated review time.

*Continue to Review and Approve Subject Matter Programs.* Although subject matter programs are not fully part of the accreditation system, there is a continued need to review and approve subject matter programs to allow completion of a subject matter program to waive the subject matter examination. Given the significant and continuing interest in this effort, it is anticipated that the Commission will continue to need numerous trained reviewers and dedicated review time to ensure that this activity is conducted efficiently in order to allow these programs to begin operations quickly. In addition, the Commission will continue to review and approve other subject matter programs as they are submitted.

### **Purpose 4. Foster Program Improvement**

*Data – Annual Data Submission and Survey Data.* The Commission will continue to develop and refine the annual survey data collection process and hold discussions with the COA about the appropriate use of that data in accreditation decisions. In addition, there remains significant work to be done around the annual data submission. These discussions will continue this year and it is anticipated that specific data elements, definitions for data sources, and means of collecting, reporting, and analyzing within the newly developed data system and data dashboards will take place. The technical advisory committee convened in 2018 will be consulted as necessary as the further development and implementation of the Annual Data System progresses.

In addition, the Commission staff will focus efforts during 2018-19 on using these data to determine if they indicate any potential areas of concern either with an institution or with a standard or requirement. Analyzing the data for both the survey data and, to some extent, the annual data submission, may allow the Commission to better understand if concerns are distributed evenly across institutions or concentrated in single institutions, suggesting that there may need to be a focused site visit or further exploration of an institution's programs.

*Continued implementation of the evaluation system for the accreditation system.* The COA will continue to use and examine the results of the evaluation tool that is used by site visit reviewers, team leads, and institutions to evaluate the accreditation system. This data will be collected over the course of the year, with a review of the data taking place in the summer of 2019. Improvements will be discussed and incorporated into the revised accreditation system.

*Continue partnership with the Council for the Accreditation of Educator Preparation and efforts to collaborate with other national accrediting bodies, where appropriate.* Recent actions by CAEP call for states to reexamine the partnership agreement in 2019. As a result, the COA will engage in reviewing the agreement and determining whether any changes will be necessary going forward. Because the first California institution is undergoing a CAEP/CTC joint site visit in spring 2019 and because CAEP standards and protocols are more developed than when the agreement was signed a few years ago, it is an opportune time to revisit the language of the agreement.

In addition, the Commission staff will continue to work with institutions that seek to be both nationally accredited and state accredited as well as with CAEP and any other potential accrediting bodies, to ensure that the process is as streamlined as possible. The Commission staff continues to keep abreast with changes to the CAEP accreditation system, determine the alignment or misalignment with California's process and standards, and to clarify areas of uncertainty with respect to some of the CAEP standards for applicability to California's institutions.

*Explore ways to align and streamline the accreditation of other national and professional organizations with that of the state processes.* In 2018, the Commission worked with an advisory panel to reexamine and recommend changes in the Pupil Personnel Program standards and requirements. If and when the Commission takes action to revise these standards, additional work to develop a crosswalk with national accrediting bodies in these professions will have to be developed.

### **Continue Development and Implementation of the Revised Accreditation System**

Section 1 of this report provides information about the many aspects of the new accreditation system developed and/or implemented in 2017-18. The list below provides some brief information on some of the remaining aspects of the work that will need to continue in order to realize the full vision of the Commission for its accreditation system.

1. *Provide Technical Assistance.* Further technical assistance targeted to certain cohorts will be necessary over the course of the next year as each experience a new aspect of the accreditation system. In addition, additional technical assistance will be provided as additional work is done on aspects of the system such as building out Annual Data System to include teaching performance assessment data or data related to additional pathways. Ensuring that the field understand what is required as well as to provide feedback to the Commission staff as the processes are developed have been instrumental in the effective implementation of the system and will continue to play an important role in the future.

2. *Continue Discussing the Role, Purpose, and Specificities of Annual Data.* A focus for 2017-18 will be to continue the discussion about the types of required data that institutions should submit annually, the expectations around that data, and its uses in accreditation. Staff will work to establish the specific protocols necessary to ensure smooth submission of the data into the data system and identify which data elements are part of the data dashboard. In addition, BIR members will need to be trained in how to analyze and use the data appropriately in accreditation.
3. *Continued implementation of surveys for the following constituencies:*
  - a. Preliminary Multiple Subject Completer Survey
  - b. Preliminary Single Subject Completer Survey
  - c. Preliminary Education Specialist Completer Survey
  - d. Preliminary Administrative Services Completer Survey
  - e. Teacher Induction Completer Survey
  - f. Other Credential Programs Survey-Pilot Year
  - g. Master Teacher Survey
  - h. Employer Survey

In the 2018-19 year, the Education Specialist and General Education Induction Program Completer survey was combined into a single Teacher Induction Survey. Additionally, a completer survey was developed and will be implemented to capture program completer information from all other credential areas.

The Commission staff and the COA will continue to ensure the appropriate use of survey data in accreditation activities. Further work will continue on the analysis of the data itself and the determination of processes and timelines for that analysis, the identification of any possible issues and trends, and the next steps in addressing these issues will be a focus for 2018-19.

4. *Next generation of performance assessments* – As the development of the next generation of teaching performance assessments and the development of administrator performance assessments continues, the COA and Commission staff will review the various implications of that work. Providing some guidance for reviewers, and ensuring that both institutions and reviewers understand the new models and related expectations as articulated in the standards, incorporating the rubric level data into the Annual Data system as well as any other appropriate use for the data will be an important activity in 2018-19.
5. *Establishing and implementing processes and procedures for identifying exemplary practices.* Building on the discussions that have taken place thus far, the Commission will continue to explore ways in which those institutions with particularly strong or innovative practices are able to be recognized and share their experiences and accomplishments

with the broader education community. The Committee on Accreditation will provide feedback on the system as it continues to develop and in its early implementation.

### **General Operations**

In addition to the above-mentioned items, the COA will engage in routine matters necessary for general operations of the Committee. This includes the election of Co-Chairs, the adoption of a meeting schedule, and orientation of new members.
