

Report of Program Change of Status June 2022

Overview

This report is divided into two parts: Part 1 includes items for action by the COA which include requests to withdraw (including automatic withdrawals), requests to reactivate inactive programs and requests to add a new single subject content area.

Part 2 provides information on programs that have transitioned to revised program standards and programs that have elected to change to “inactive” status. These items are for notification and require no action by the COA.

Staff Recommendation

That the Committee on Accreditation (A) take action to withdraw the following preparation programs as requested by the institution, and (B) take action to reactivate the program as requested, (C) adding a new single subject content area (D) be notified of the transition of programs, (E) and be informed of programs requesting to move to inactive status.

Part 1

The following items call for action by the Committee on Accreditation:

A. Recommendation about the Withdrawal of Professional Preparation Programs

Withdrawal of the following programs has been requested by the institutions offering them. The date of withdrawal will be the date of the COA’s action or, if requested, up to 6 months after the date the COA is notified of withdrawal.

When an institution withdraws an educator preparation program the institution must wait a minimum of one year before the institution may request re-accreditation of the program (Accreditation Handbook, Chapter 3.)

Automatic Withdrawal for Programs of Professional Preparation

Programs which have met or exceeded the maximum five year period allowable by the accreditation system are automatically withdrawn. The date of withdrawal will be the date of the COA’s action - *application*.

B. Professional Preparation Programs Requesting Reactivation

*When an approved program has requested an **Inactive** status, the program must return to the COA to request to be **Reactivated**. Depending on the amount of time that the program has been inactive and if there have been updated or new standards adopted, the COA may request*

additional information from the institution including for the institution to address the COA and describe the steps being taken to reactivate the program, or require a new program proposal be submitted and reviewed.

Staff will review all requests to reactivate a program and make a recommendation to the COA. The recommendation will consider the length of time a program has been inactive, the place the institution is in the accreditation cycle, if standards for the program have been recently updated, and any other information related to the program. The COA may accept the staff recommendation or require the program to present additional information prior to taking action on the request.

Chapter 3 of the Accreditation Handbook states:

An inactive program may be re-activated only when the institution submits a request to the COA and the COA has taken action to reactivate the program. If the program standards under which the program was approved have been modified, the institution or program sponsor must address the updated standards before the program may be re-activated.

-There are no programs requesting reactivation.

C. Adding a New Content Area to an Existing Program

The following institutions have requested to add a new single subject content area to an existing Single Subject credential. Staff has reviewed the requested documentation to ensure that the program modifications address all required competencies.

-There are no programs requesting to add a new content area.

Part 2

The following items are for notification purposes only:

D. Notification about the Transition of Professional Preparation Program(s)
