

7th Year Report from William S. Hart Union High School District June 2023

Overview

This report is a follow up to the March 2022 accreditation visit to the William S. Hart Union High School District, providing a detailed explanation of the “steps being taken to clarify for candidates the requirements related to the induction program as opposed to those that are required by the district for employment purposes.”

Background

A virtual site visit was held from March 28th-30th, 2022. The full report of that visit is available [here](#). The site visit team found all Common and Program Standards met and the COA voted to grant the status of **Accreditation**. However, interviews with candidates and completers identified confusion between the assignments they were completing as a teacher induction program requirement and assignments required by their district as part of their Peer Assistance and Review program. COA assigned the status of **Accreditation** to the institution but asked for a 7th year report on actions taken by the district to clarify which assignments were required for induction.

7th Year Report

In May 2023, the program submitted their 7th year report addressing the issue outlined above. The program now offers multiple opportunities for candidates to understand the differences between induction program requirements and local district requirements. The report can be read in its entirety [here](#).

Staff Recommendation

Staff recommends that the COA discuss and accept the 7th year report from the William S. Hart Union High School District.
