

Additional Questions Submitted Regarding the Teacher Residency Expansion

Grant RFP

October 25, 2018

Question	DRAFT Response
1. For the 2019-20 budget we submit, should we solely focus on new residents that are joining our program (all-pre-service teachers) or can we include any existing residents (who will be 1st and 2nd year teachers in the 2019-20 SY)?	The purpose of this grant is to support new residents.
2. We are launching a Residence program with another charter school organization, so our TREG application would be from a group of LEAs, from different CMOs. Would this grouping of schools be eligible to apply?	Charter schools may form a consortium for purposes of applying for a Teacher Residency Expansion Grant. However, a requirement for the Teacher Residency Expansion Grant is that the applicant must already have a residency program in operation with a Commission-approved teacher preparation program that is being expanded through these grant funds. Applicants that are establishing a new residency program may apply for the Teacher Residency Grant competition.
