# Career Technical Education: Program Standards

## Category I: Program Design, Governance, and Qualities

Related program planning prompts for Standards 1-7 are included in Appendix A. The program planning prompts are included in order to clarify the nature of the standard and to help programs think about how to address the standard.

### **Standard 1: Program Design and Rationale**

The program of teacher preparation for the Career Technical Education Teaching Credential includes a purposeful, developmentally designed sequence of coursework that effectively prepares CTE teachers to successfully teach all students in public education to perform in a competitive workplace. The program consists of 9 semester units of approved program course work or 135 hours of approved professional preparation through a local education agency. The program is based on a clearly stated rationale that has a sound theoretical and practical foundation anchored to the knowledge base of teacher education. The program is aligned to the state-adopted 7-12 CTE curriculum standards and framework and bases CTE teachers' competence on California's Teaching Performance Expectations (TPEs).

### **Standard 2: Equity, Diversity and Access to the Curriculum for All Students**

Each beginning CTE teacher in the professional teacher preparation program examines the protections of California laws for educational equity and diversity and their relevance in curriculum content and school practices for all students. The program prepares CTE teachers to provide all students with equitable access to the program's curriculum. CTE teachers in the program learn about the ways in which teaching practices and student learning are impacted by diversity in California, including socioeconomic status. CTE teachers learn to identify, analyze, and minimize personal and institutional bias.

### **Standard 3: Early Orientation**

Early orientation is designed to meet the needs of beginning teachers. The program sponsor collaborates with the employer in providing an early orientation before or during the first month of teaching that includes the introductory skills, knowledge, and attitudes required for beginning CTE teaching success. These competencies will be further developed in a sequenced and scaffolded structure that includes teaching methods, learning styles, lesson planning, CTE concepts, equity and diversity in the classroom, mandated reporting, and legal and ethical issues.

### **Standard 4: Collaboration with Local Educators**

The program sponsor collaborates with the employer in the implementation of the preparation program for CTE teachers, including the selection of supervisors and/or support teachers. The cooperative relationship between the program sponsor and local school administrators and teachers sets up a system of support and supervision that provides the beginning CTE teacher with the opportunity to develop all the necessary components of successful teaching.

**Standard 5: Beginning Teacher Support and Advisement**

Throughout the period of the preliminary credential, CTE teachers' performance is guided, assisted, and evaluated in relation to each standard in Category II through supervision and support. The program provides complete, accurate, and timely feedback to the CTE teachers, including information about their progress toward competence. Supervisors and support providers of CTE teachers are (a) certificated and experienced in teaching; (b) trained in supervision and support of beginning teachers; and (c) evaluated for their service to new teachers.

**Standard 6: Determination of CTE Teacher Competence**

Upon program completion, one or more persons who are responsible for the program determine on the basis of thorough documentation and written verification that the CTE teacher has satisfied each Standard in Category II. The program uses formative and summative assessment to determine CTE teachers' competence based on the TPEs.

**Standard 7: Advanced Programs of Preparation**

To obtain the Clear Career Technical Education Teaching Credential, CTE teachers must complete a program of advanced preparation and professional development for teachers or its documented equivalent. The advanced preparation program is designed to support teachers' attainment of the *California Standards for the Teaching Profession (CSTP)* and to advance the beginning teacher outcomes described in Category II. CTE teachers develop integrated instruction that meets State-adopted CTE curriculum standards, related academic content standards, and curriculum frameworks. The program provides formative and summative assessment opportunities for CTE teachers to demonstrate their development as teachers. Programs of advanced preparation are characterized by individualized support integrated with formal professional development.
