EXTENSION BY APPEAL FOR CREDENTIALS AND PERMITS

Commission staff may issue an extension of time by appeal for a credential or permit when an applicant verifies good cause for not completing the renewal requirements. An appeal may be issued only once, except in cases where the extenuating circumstances continue to exist and the applicant has made sufficient progress toward completion of the requirements.

Note: A credential may lapse without penalty as long as an individual is not employed in a position that requires it. An extension may be requested when an individual has an offer of employment in a position which allows for the completion of the clear credential requirements.

Individuals may apply for an extension at any time within one year of a credential's expiration date or if it has already expired. Applications requesting extension by appeal are reviewed on a case-by-case basis. **Appeals are not granted if an applicant cannot show good cause, providing documentation of the extenuating circumstances or substantial reasons for the extension request.** Financial hardship cannot be considered a valid reason for appeal.

Good cause shall include, but is not limited to, the following:

1. The applicant was unable to complete requirements because of personal health problems or the health problems of a family or household member
2. The applicant is currently employed in a position requiring a credential or its equivalent and no California college or university (Institution of Higher Education [IHE]) or Local Education Agency (LEA) can be reached within one and one-half hours of traveling time
3. The applicant submits verification from the IHE or LEA that there were no openings in the program or that the required course work was unavailable
4. A requirement has been established since the applicant received his or her credential
5. The applicant unknowingly completed course work, such as continuing education courses, which the IHE, LEA, or Commission cannot accept toward completion of the requirements
6. The applicant did not receive information about the requirement from the Commission with sufficient time to complete the requirement
7. The applicant enrolled in a second or subsequent IHE or LEA and the new IHE or LEA required additional course work or assessment which the applicant was unable to complete on time
8. The applicant was unable to attend IHE or LEA due to job or family demands
9. The applicant has completed educational requirements, but has not met the experience requirement
10. The applicant has not been employed in the California public school system since the credential was issued
