## VERIFYING SUBJECT-MATTER COMPETENCE BY EXAMINATION For Single Subject Teaching Credentials

---

Individuals may verify subject-matter competence for a Single Subject Teaching Credential by passing all portions of the appropriate Commission-approved subject matter examination(s). It is the individual's responsibility to take the appropriate examination(s) and to contact the Commission when questions arise.

### Information about CSET

The Commission-approved subject-matter examinations to verify subject-matter competence for Single Subject Teaching Credentials are the California Subject Examinations for Teachers (CSET), administered by Evaluation Systems, Group of Pearson (formerly National Evaluation Systems [NES] Inc.). Passing exam scores must be used for certification purposes within ten years of the passing test date and applies to each score independently. The ten-year limit does not apply to exam scores that have previously been used for certification purposes.

Each examination consists of subtests that cover specific domains of subject matter, and each subtest includes multiple-choice and/or constructed-response test items. Examinees may refer to the examination website (<http://www.ctcexams.nesinc.com>) for details regarding test administration and the time allocations for the subtests of each examination. Exam titles, test content information, and passing scores are listed in Table 1.

The Commission adopted revised Subject Matter Requirements for the CSET: Mathematics examination to ensure alignment with the California Common Core State Standards. Administrations of the updated CSET: Mathematics will begin December 29, 2014. Individuals who passed one or more subtests of the previous CSET: Mathematics administered prior to December 29, 2014 will not have to retake those subtests. Test scores from the previous CSET: Mathematics subtests may be used in conjunction with scores from the updated subtests for certification.

The last administration of the Specialized Sciences examinations was July 11, 2015. Applicants will have five years during which to use those passing examination scores toward obtaining California certification. See [Coded Correspondence 14-09](#).

Beginning with the August 7, 2017 administration of the CSET exams, General Science Subtests I and II were replaced by a single test aligned with the Next Generation Science Standards (NGSS). Candidates seeking the Single Subject Credential in Foundational-Level General Science will be required to pass the new General Science CSET exam (#215). Candidates seeking the Single Subject Credential in Biology, Chemistry, Geoscience, or Physics will be required to pass the new General Science test and one of the new tests in their specific science area. Science: Biological Sciences is the credential area for the Life Sciences exam, and Science: Geosciences is the credential area for the Earth and Space Sciences exam.

Previously passed Science subtests may be used in conjunction with scores from the updated subtests for certification. However, if by August 7 candidates have passed *only one* of the previously administered General Science tests (#118 or #119), they will be required to take the new single General Science test (#215) to verify subject matter competence. Likewise, if by August 7<sup>th</sup> candidates have not already passed Subtest III in one of the four science specialty areas, they must take the new, NGSS-aligned subtest in that area.

## World Languages-Latin

The Designated World Languages: Latin test from the Washington Educator Skills Tests—Endorsements™ (WEST–E™) program is now accepted by the Commission to fulfill the subject matter requirement for the Single Subject World Language Credential in Latin. California candidates must register for this computer-based test at the WEST website by selecting "Register Now" at <http://www.west.nesinc.com>.

Subject-matter competence in Latin can also be verified by contacting the teacher education department at one of the California colleges or universities listed below to request an evaluation of your transcripts.\* You will receive either a signed subject-matter equivalency letter or a list of classes to be completed before the equivalency letter can be issued.
